In no line of human endeavor is the accumulated experience acquired with the passing years of more value than in the growing and distributing of seeds.

WE INVITE YOUR TRADE FOR 1918

QUALITY AND SERVICE IN EVERY DEPARTMENT
At the head of each department we have an expert with many years of both practical and scientific experience.
Our Nation’s Life and Liberty Depend Upon Food

To Our Fellow-Tillers of the Soil: Every man who tills the soil and produces Food Crops must do two men's work and more this year—if we are to remain a free nation.

The demand for Food the World over is far greater than ever before. The millions upon millions of our Soldiers, Sailors, and Allied Workers, both men and women, are straining to be fed. Mills and factories in our farms and ranches. It is therefore up to us who remain at home to do double duty, and do it quick, or our cause is lost through starvation.

Remember we have no food surplus here to help us out. If we do not face a crop shortage or a crop failure this year. Everything depends upon what we do as "Soldiers of the Soil." produce this Season. Don't wait until it is too late. Be sure to grow the Biggest and Best Crops this year you have ever grown.

Make your plans immediately. Start your field work earlier than ever. Till your soil often and more carefully than ever. Plant only carefully selected and accurately tested Seeds. So much depends upon this.

Don't waste Seed. It is already scarce and growing scarcer as the days go by, for already thousands of the World's Best Seed Growers have laid down their lives for liberty.

The quickest way to earth to produce good, wholesome meat is to raise a flock of Poultry. Wherever there is an idle acre or plot of ground, a flock of Poultry can be raised and at a profit.

In dollars and cents, you will find it well worth your while and thought, not necessarily that you are doing only "Your Bit," but "Your All" for the Life and Liberty of this Glorious Country we love so well.

This being the One-hundredth Anniversary of Grant's Charge, it would have been fitting and appropriate for our Seed Establishment, it would have given us great pleasure to have done it upon the long and successful history, but the Nation and the World is crying out for Food, and seven and seven close to our heart as our One-hundredth Anniversary must be in the passing—only allowing sufficient time and space to express our deepest appreciation to our life-long friends and customers for their constant loyal support and your support which they have given our efforts for so long a time. It will be our most earnest and constant endeavor to serve the future more faithfully than ever.

That your crops may be abundant, and that the New Year may hold for you of more happiness than sorrow, I remain,
1818 For One Hundred Years We Have Won Confidence 1918
Not by Chance - Not by Luck
But by earnest untiring efforts-ever striving to produce the purest and truest seeds that
Mother Earth could produce.

From a modest beginning in the year 1818 by the present management's Great Grandfather, the house of Bolgiano has been
one of steady growth for four generations; until today we place at your service one of the Largest and Best Equipped Seed Growing
and Seed Distributing Organizations in the World.

From a small building covering 4,000 square feet, we have grown until now we occupy our mammoth buildings corner Pratt
and Light Streets, covering a floor space of 50,000 square feet. Also our new piers and warehouses covering a floor space of over
75,000 square feet located on Key Highway and the harbor just opposite Baltimore's new ten million dollar piers. Our water front
property includes our Onion Set and Seed Potato Warehouses, Bulk Seed and Grain Warehouses, our immense new Poultry Food
Manufacturing Plant with a capacity of 5,000, 100 pound sacks Poultry Food daily, also our special Grass, Clover and Field Seed
Cleaning Machinery Buildings. We have located at Raspeburg, Md., our seed trial and testing grounds. Our Poultry Farms and
Hatcheries are located at Rossville, Md.

Such a steady, substantial growth as we have made could not have been accomplished by supplying our customers with half
good seeds. No half good seeds could have held their reputation through all these long years, let alone become more and more pop-
ular as the years roll by.

Bolgiano's Seeds are the results of generations of most careful and painstaking selections. We have given our entire time and
attention in surrounding the growing and the handling of our seeds with every safeguard that would insure the highest quality pos-
able. We have keenly felt the responsibility placed on us by our customers who have intrusted us with their orders for seeds,
many of whom their entire business depended upon the quality of the seed we furnished. This confidence we appreciate and
respect and we do everything in our power to prove worthy of it.

We carefully select all the highest grade stocks, eliminating those which our test gardens prove unprofitable for the trucker
or gardener to grow. We never recommend any article, unless we are certain by actual tests it possesses merit superior to anything
the trucker already has. We watch for improvement in character, shape, form, color, attractiveness and best selling qualities.

Remember when you read through this catalog, what we say about each article has been gathered from our accumulated
experience of one hundred years, together with the experience of the most up-to-date and successful Market Gardeners and Truck-
er in every part of the World.

On account of the climatic conditions and soils, some seeds are produced better in different localities than others. For this
reason, we produce our seeds in many states of the Union as well as some abroad, always growing those varieties in the localities
that produce the strongest and purest seed stocks.

Carefully trained men of many years experience, conscientious men who hold honor, integrity and fair dealing above anything
else on earth, such men as these grow Bolgiano's Seeds.

Under the direct personal supervision of one of the United States Department of Agriculture experts, we were the first seedsmen
to establish an up-to-date completely equipped seed analyzing and seed testing laboratory. Our laboratory today is second to none
outside the United States Department of Agriculture. We make scientific tests both for purity and germination of every sack of seed
we sell. Our seeds more than comply with the Seed Laws of the United States and the Seed Laws of the different states.

One hundred years of ever increasing success has placed over a half million customers on our books. Grandfathers, fathers
and sons have planted Bolgiano's Seeds year after year, with the best of success. With this record, we solicit your trade for 1918 and
will give your orders our personal care and attention.

J. BOLGIANO & SON.
Fertilizers for the Farm, Garden and Lawn

We present a list of our brands of Fertilizers. You cannot judge the merits of a Fertilizer only by the analysis, but you must have a knowledge of the basis from which it has been made. It is a well-known fact that the animal waste products produced in the abattoirs give the purest and most available basis for Ammonia and Phosphoric Acid. This is the basis of our goods. The company that manufactures our Fertilizers owns and controls a sufficient number of abattoirs, independent of the meat trust, to secure for our goods this unexcelled source for our plant food. The expense is almost as much working and reaping one half a crop as it would be harvesting a full crop, which a good fertilizer would help to produce.

**Boilng's Bone Lawn Fertilizer.** Produces a rapid and rich green growth of grass. 10 Lbs. to 200 sq. ft. 500 to 1,000 sq. ft. per acre. Price: Packages 10c. By mail 25c, 5 Lbs. 50c, 10 Lbs. $1.00, 50 Lbs. $1.75. 100 Lbs. $3.00. 200 Lbs. $5.50. 500 Lbs. $13.00.

**SHEEP'S HEAD** BRAND PURE PULVERIZED SHEEP MANURE

Contains nitrogen, phosphoric acid, ammonia and potash in liberal proportions. It is unequaled as a fertilizer for the vegetable garden, flower garden, house plants, trees, bothouse, etc. It is also dissolved in water and used as a liquid to nourish all kinds of growing plants. 2 Lbs. 15c, 5 Lbs. 35c, 10 Lbs. 50e. 25 Lbs. $1.00, 100 Lbs. $2.75. 200 Lbs. $5.00, 500 Lbs. $12.00, 2,000 Lbs. (in 100 lbs. bags) $55.00.

The following tables in the analysis represent the following ingredients: Ammonia, Phosphoric Acid, Potash, Bone of Foss, Lime.

SIZE OF PARCEL THAT CAN BE SENT BY PARCEL POST

Size of package that can be sent by Parcel Post cannot be over 84 inches in length and girth combined.

The rate of postage on mail parcels of seeds, cuttings, bulbs, roots and plants weighing 8 oz. or less, shall be 1c for each 2 oz. or fraction thereof regardless of distance, and on those weighing more than 8 oz. the pound rate shown in table shall apply.

WEIGHTS BY PARCEL POST

Pleads up to 50 lbs. sent by Parcel Post in the local, 1st and 2nd zones and up to 20 lbs. in all the others.

To points further than the 2nd zone on weight of over 10 lbs., the charge by freight or express is usually more economical.

HOW TO ORDER BOLGIANO'S SEEDS—READ CAREFULLY

We fill orders of all values, from the smallest to the largest, and all receive the same careful and prompt attention. This catalogue is subject to market changes—special quotations promptly given.

FREE DELIVERY BY MAIL. We deliver free to any postoffice in the United States all vegetable and flower seeds offered in this catalogue by the packet, ounce, quarter-pound, and all varieties of tomato and Cabbage Seed in any size package, including pounds. On all other seeds for half-pounds and upwards the Parcel Post table will apply.

WHEN BEST TO ORDER. We are equipped for filling orders and supplied with new crop seeds. Order at once, so that you can have your seed on hand ready to start planting your crops at the proper time without delay. The best time to order is express money order, on all orders over $1.00, be deducted from the amount.

ONE OR TWO CENTS DUE STAMPS. We will accept the same as cashier.

DO NOT SEND OTHER KINDS.

IF YOU LIVE ON A RURAL MAIL ROUTE, just give the letter and the money to the mail carrier and he will get the money order at the postoffice and mail it in the letter for you.

USE OUR ORDER BLANK IF YOU HAVE ONE. If you haven't one, use any plain paper.

TELL US IN YOUR OWN WAY WHAT YOU WANT, in any language. Enclose in your letter the amount of money, either a postoffice money order, which you can get at the postoffice, an express money order, which you can get at the express office, or a draft, which you can get at any bank, or put the money in your letter, be it to the order of someone and tell postmaster what you want registered.

BE SURE TO GIVE YOUR NAME AND ADDRESS. If by boat or railroad any districtly which boat or railroad to ship by, and if freight has to be pre-paid and this amount to your order to prevent delay.

Don't Be Afraid You Will Make a Mistake. We receive many orders from young and old who never before sent away for seeds. We are accustomed to handling all kinds of orders. No matter whether your order is in good or bad writing we will promptly fill it and send it to you.

Market Gardeners, Farmers' Clubs and Institutions wanting to purchase seeds in unusually large quantities should write for special prices. We have made prices very low in this catalogue, yet when a number of bushels or pounds are wanted we can frequently supply at a lower price than by the single pound or bushel. In writing give us a list of quantities and varieties required, and we will return list promptly with our lowest price in the lot.

Always Remember That We Can Save You Money, No Matter Where You Live. Write us about any seed you would like to know of, and your letter will be answered the same day it is received. If you wish to know exactly what the freight or express would be on any article to your station, write us as we will tell you.

AS TO WARRANTY, We Believe Our Seeds will produce for you the best crops you have ever grown, and to show you what confidence we have in our seeds, if they prove otherwise than represented by us we will refund your order free of charge, but it must be agreed that we do not warrant the crop grown therefrom, either expressed or implied, as to description, purity, productiveness or any other matter and we will not be in any way responsible for them. If the purchaser does not accept our seeds, etc., on these terms they are at once to be returned and the money that has been paid for the same will be refunded. We appreciate your orders and they receive our prompt attention.

GUARANTEE. We Guarantee All Shipments of Seeds, when remittance accompanies order, to reach the purchaser safely and in good condition.

Change of Address. If you have changed or intend to change your address, please let us know: we will change it on our books, so that you will receive our catalogue at your new postoffice. We thank you for doing this.
Druid Hill Park Velvet Green Lawn Grass Seed Tested as to Germination

Absolutely the best Lawn Seed Experience Can Suggest, or that Money Can Buy. Will Produce a Beautiful and Permanent Lawn in Four to Six Weeks

A lawn may be made in two ways, by sodding or by seeding, but sodding is not only very expensive but unsatisfactory as well. Sods are ordinarily taken from the pasture or along the roadside and almost invariably contain weed seeds and coarse tufted grasses, which make their appearance after the lawn is made. Seeding is not only cheaper, but is attended with better results. The most important thing to consider in selecting seed for lawn grass, is to obtain a proper mixture of several varieties, for two reasons: First, each variety is at its best during a certain part of the season. By properly choosing early, medium and late grasses, a smooth, even, green lawn is assured from early Spring to late Autumn. Second, a given area can support only so many grass plants of one kind, for they all absorb the same food, but if several varieties are sown, the same area will support many more plants, as different sorts live on various elements in the soil. This will give a much thicker and more luxuriant turf all over the lawn.

With these facts in mind our Druid Hill Park Velvet Green Lawn Grass Seed is scientifically combined. Our experience of many years has given us an intimate knowledge of grasses, their habits and requirements. In our Druid Hill Park Velvet Green Lawn Grass Seed are included only the very best varieties—pure, clean and free from foul seeds.

**EVR GREEN** will renovate old lawns and cure the acidity of the soil. Will produce strong, healthy green sod. It is a sanitary and healthful fertilizer. Some of the finest lawns and grass plots have been produced by the judicious use of **EVR GREEN**.

If the ground is covered with moss and the grass seems sour and unattractive, sprinkle **EVR GREEN** freely over the surface and watch the satisfying results. For renewing old lawns it is unequalled. Rake the lawn thoroughly with a sharp tooth rake, sow Druid Hill Park Velvet Green Lawn Grass Seed, then sprinkle thoroughly with **EVR GREEN** and you will soon produce a luxurious rich green growth.

Use **EVR GREEN** on your grass early in the Spring and it will grow a thick, velvety green turf without the annoyance of weeds, so common when harrowed manure is used.

To make a new lawn after all grading is done and every stone and stick removed, cover with a generous coating of **EVR GREEN** (which should be raked into the soil) then sow your seed and thoroughly rake the seed into the ground. It is well to roll the seed bed to bring the soil into close contact with the seed. Soak it thoroughly every four days, if there is no rain. In about sixty or ninety days you will have a good turf that will last for years. By seeding it faithfully the first year and using **EVR GREEN** you will get rid of those troublesome weeds, which have been in the soil or which have been carried by the wind.

**Lawn Compound**

Kill weeds, but not the grass, and makes the sward green and velvety. Destroys Moss, Dandelions, Chickweed, Plantain, Crab Grass and all the weeds having broad, heavy leaves. It also acts as "Lawn Tonic," promoting a vigorous, luxuriant growth. 5 lb. box 90c.

**PORD POST RATES, see Page 5**

Our Druid Hill Park Velvet Green Lawn Grass is very quick in growth, and is ready for mowing in from four to six weeks from the time the seed is sown.

From early Spring until late in the Fall, lawn sown with our Druid Hill Park Velvet Green Lawn Grass remain green and fresh, for the reason that this mixture contains quick growing varieties which are at their best soon after the frost is out of the ground, others that mature and flourish in Midsomer, and still others that are greenest and sturdiest in Autumn.

For each of these reasons there are several different varieties living on different elements in the soil, so that one is certain always to have a satisfactory carpet of green wherever our Druid Hill Park Velvet Green Lawn Grass is sown.

Not only is our Druid Hill Park Velvet Green Lawn Grass suitable for making of new lawns, but it will be found equally valuable for quickly renewing imperfect, old and worn-out areas. Always see that the soil is thoroughly prepared, carefully pulverized and enriched with Sheep Manure. Bone Fertilizer or Ever-Green Lawn Lime before sowing the seed. One pound will sow 20 x 20 feet, 10 pounds will sow 50 x 150 feet, 60 pounds will sow an acre. 30 pounds measure one bushel. ½ lb. 10c, 1 lb. 30c, 5 lbs. $1.25, Bu. of 30 lbs. $7.25.

The Grass and Garden Tonic

One of the Greatest Helps in Making and Retaining a Rich, Deep Velvet Green Lawn

All soils have a greater or less amount of weeds, but by using **EVR GREEN** for your fertilizer they can be entirely eradicated in a very short time.

It is a well known fact that 90% of the lawns need **EVR GREEN**. It can be applied at any time with good results. More than 90% of grass seed sown is wasted on account of the sour condition of the soil and you wonder why the seed will not grow. A generous application of **EVR GREEN** will put your soil in proper condition to germinate the seed and produce a beautiful green, healthy lawn.

**EVR GREEN** will be found one of the greatest helps in making a first class lawn, especially when the dirt used comes from the foundation and cellars.

**EVR GREEN** sprinkled freely over this ground produces fine lawns when all other methods fail.

**EVR GREEN** will not burn the seed. It is 95% pure, containing 95% lime, some phosphates and other necessary foods for plant life.

**EVR GREEN** properly applied each year will produce a luxuriant growth. It is a perfect food foundation to plant life, and it is the finest tonic for the soil that can be found anywhere.

**EVR GREEN** is put up in 50 lb. sacks. Use 25 lbs. of **EVR GREEN** to a hundred square feet of soil to get the best results.

Price: 60c. per 50 lb. box.
Shady Nook Lawn Grass Mixture

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shady, and as it blends well with our Druid Hill Park Velvet Green Lawn Grass Seed it may be used on the lawns of shrubs and trees which are shaded by trees, buildings, etc., thus covering the whole area with a rich green cover. 1/4 lb., 35c.; 1/2 lb., 60c.; 5 lbs., $1.25.

Woods Meadow Grass

It is known as the grass to grow in the woods, has a deep, green color. Its great merits are those of serving as a magnificent lawn grass in shady places and under heavily growing trees rich in foliage. There is an increasing demand for this valuable grass seed.

Cleverless Lawn Grass Seed

This excellent mixture contains all the valuable grasses composing our Druid Hill Park Velvet Green Lawn Grass Seed, but it contains absolutely no White Clover Seed. 1/4 lb., 35c.; 1/2 lb., 60c.; 5 lbs., $1.25.

White Dutch Clover

This is the best clover for lawns, as it forms a close, clean, and remains green throughout the season. It is also a valuable mixture with grass seed for pasture. Sown in the Spring at the rate of 6 lbs. per acre when sown with other grass, 1/2 lb., 20c.; 1/4 lb., 15c.; 1/2 lb., 35c.; 1 lb., $1.00. 10 lbs. at 35c/lb.

For Putting Greens

What is needed here is a close, low-growing grass that will stand a lot of traffic and at the same time make a luxuriant growth. After thoroughly experimenting and scientifically testing, we have formulated a mixture that will give the desired results of an ideal putting green. This mixture will grow in most any soil. Please write us for lowest prices.

Best Fertilizers for

Lawn's, Flowers, Vegetables, House Plants, Etc.

HARDWOOD ASHES, Acts as Both Insecticide and Fertilizer

Hardwood ashes besides being excellent for building up the soil and correcting the acidity and sourness which is so common in almost every soil and restoring to it its original fertility, contains a fair percentage of active acaceous potash, which not only furnishes the plant with the necessary food for its development, but acts as an insecticide in destroying insects which constantly prey on Plants. Extra-selected, double-screened finest unleached Canada Hardwood Ashes, $1.50 per 100 lbs. $25 per Ton.

Bolgiano's Shady Nook Lawn Grass Mixture

Permanent Pastures

We prepare ten special grass and clover mixtures for hay and permanent pasture, suitable for every variety of soil. For particulars see page 62. For complete list of natural grasses see page 44.

MIXTURES

For Fair Grounds

Over the course of the year, a very close growing sod is not necessary, but where a beautiful, velvety, green grass is wanted, we especially recommend our special mixture for Fair Grounds. By using this mixture in connection with our special mixture for putting greens you are assured an even, velvety, 1/4. 1000 course equal to the best of lawns. This mixture will thrive well even on poor soil, 1/3 lb., 10 lbs. 20c. 100 lbs. or over at 19c.

COMMERCIAL HUMUS

FOR YOUR SOIL AND CROPS

Economical to buy and a pleasure to apply—Has no smell—Contains no weed seeds—Costs enough to lighten the soil—Sufficiently fine to hold the moisture, but consistently and continuously feed the crops.

COMMERCIAL HUMUS—The Ideal Soil Builder
Land Enricher
Plant Producer

USE ACCORDING TO THE FOLLOWING DIRECTIONS

Shrubbery, Vines, Fruit and Ornamental Trees—Mix one-third COMMERCIAL HUMUS to two-thirds fertile loam and place this about the roots in planting. Established plantings should have great areas of COMMERCIAL HUMUS worked into the soil over the roots. For rhododendron, ferns and the like use half COMMERCIAL HUMUS and half soil.

Flower Beds and Vegetable Garden—Prepare the soil first, then spread one or two inches of COMMERCIAL HUMUS over the area and work it thoroughly into the earth; then plant. As a summer mulch spread COMMERCIAL HUMUS over growing crops.

Lawns, Golf Courses and Putting Greens—In making new plantings, prepare the soil finely, bring to the proper grade and roll; then apply two or three inches of COMMERCIAL HUMUS and mix it thoroughly with the earth. Roll the area again, sow the seed and rake it in. If the soil is light, give a final rolling. In renovating grass areas, apply from one half to one inch of COMMERCIAL HUMUS, lightly rake it in, seed and roll. As a winter mulch instead of manure, broadcast one inch on the grass in the Fall.

Potted Plants—Make a compost of one part COMMERCIAL HUMUS and three parts fertile, loamy soil. For plants already potted, replace an inch of the surface soil with COMMERCIAL HUMUS. Plants like ferns and others requiring large amounts of leaf mold should have the quantity of COMMERCIAL HUMUS increased. Use it in the soil of greenhouse benches and as a mulch.

If you use COMMERCIAL HUMUS on your land and in all of your plantings, the needed organic matter will be applied, plant food supplied and beneficial bacteria incorporated with the soil.

Prices: 5 lbs. 15c. 10 lbs. 35c. 25 lbs. 40c. 50 lbs. 75c. 100 lbs. $1.25. 500 lbs. $5.00. 2,000 lbs. (ton) $18.00.
The Perfect Tomato

New "Glory" Tomato

Leads All Varieties for Shipping, Canning
or Table Use

Produces at Every Joint Large Clusters of
Good Size, Smooth, Firm, Beautifully
Shaped Fruit

Grown with Success in Every Climate and
Soil Where It Is Possible to Grow Tomatoes

One Enthusiastic Grower Writes
"I would be glad if every grower knew of the
terrible merits of 'Glory' Tomato."

New "Glory" Tomato

We Are Proud Of It

On July 3, 1917, Mr. Henry A. Lund, of Harrison Co., Miss., wrote:
"I wish to report on your 'Glory' Tomato. Soon after the freeze of February
1st, ripe Tomatoes were picked from my vines. At this date they are in full
bearing still and no rain to speak of in seventy days. Early Corn is all but
lost. I had already seen here, but your 'Glory' Tomato still produces. Not
withstanding the hard freeze and other unfavourable conditions, you
and others of the four different kinds which I planted have grown badly.
Your 'Glory' Tomato is really astonishing. Long may it last. A Tomato that
will go through such a season as this here, where we can hardly keep our sweet
potatoes alive, is a 'crackerjack' and you may be proud of it."

By Their Fruits Ye Shall Know Them

On July 25, 1917, Mr. S. S. Attkeller, of Clepper Co., Va., wrote:
"I planted New 'Glory,' Earliana and Red Rock. The plants were drawn
during February and the vines were up on March 3rd. At this date they are in full
bearing still, and no rain to speak of. The New 'Glory' is growing tremendously.
I have no experience with the other two varieties."

New "Glory" Tomato

Excellent Production in Spite of Bad Season
in Kansas

On August 6, 1917, Mr. J. P. Murnex, of Wyandotte Co., Kan., wrote:
"To those who think that the New 'Glory' Tomato is not hardy and will
not grow in every climate we say: 'Come to Kansas'!! We have been
graced with a wonderful growing season and the New 'Glory' has thrived
and produced magnificent crops."

New "Glory" Tomato

New "Glory" Tomato

New "Glory" Tomato

New "Glory" Tomato
Bolgiano's New "Glory" Tomato

The Greatest Blight Resistant Tomato Ever Known
Thrives Well Either in Wet or Dry Season
Lives and Bears Abundantly When Other Varieties Die
The Handsomest Tomato Ever Grown

Bolgiano's New "Glory" Tomato—After years of toil, scientific selections, successes and disappointments, we have at last succeeded in producing and permanently fixing in type this great New Tomato. We felt so rejoiced over it we could find no word that so well expressed our great victory over almost insurmountable obstacles as the word "Glory."

"Glory" Tomato has now been tried by Tomato growers in every State of the Union and in many foreign countries. The reports we have received have been, without a single exception, full of praise and appreciation of the wonderful good qualities of this marvelous Tomato.

"Glory" Tomato produces but very few seeds; the seeds are therefore well matured, full of life and vigor and will germinate quickly and produce strong, vigorous, thrifty plants. "Glory" Tomato ripens earlier than many other varieties that are usually planted for early use and is an abundant and continuous bearer.

"Glory" Tomato produces vines that are well set with fruit, bearing from the ground to the top of the vine. At times the vines are so full that they can hardly hold all the fruit that they produce. The vines are short-jointed, vigorous and healthy. So pure in type they are almost identical in all respects. They keep vigorous and green until frost and then are full of fruit.

"Glory" Tomato produces at every joint large clusters of good size, smooth, firm, beautifully shaped fruits, uniform in shape, color and size. They ripen evenly and color up well.

"Glory" Tomato yield is marvelous. The vines are fairly loaded with beautiful fruit. Many growers say "Glory" Tomato yields more per acre than any other Tomato; it has produced over 1,000 crates per acre; many single plants produce over 35 pounds of fruit apiece. Side by side with other Tomatoes, "Glory" has outyielded them two to one. Many Tomato growers claim it produced the largest crops they have ever grown.

"Glory" Tomato is decidedly disease resistant. It has proven absolutely blight-proof when other crops side by side were ruined by blight.

"Glory" Tomato is one of the handsomest Tomatoes grown. It has an exceptionally fine Red Color. Mild, Delicious Flavor. The fine breeding and careful selection of this strain shows up in the fruit. It is entirely free from cracks.

"Glory" Tomato already has thousands of friends. They speak of it in the following terms: "A world-beater." "Has more good qualities than any other." "Outyields and outsells any Tomato on the market." "Has great value for both market and canning purposes." "By far the best ever grown." "No Tomato equal to it." "Did best of all." "Rest not in it." "Prefer it to all others." "Outyields and outsells all others." "Lives and bears abundantly when other varieties die."

"Glory" Tomato being an extremely shy seeder, we suggest sending in your order as early as possible before our limited supply is exhausted.

Prices: Pkt. $1.00. 1/2 Oz. $2.50. Oz. $4.00. 1/4 Lb. $15.00. 1/2 Lb. $25.00. Lb. $50.00. Postpaid
Bolgiano's “Crystal Springs” Cucumber

The Earliest and Best Dark Green White Spine Cucumber Ever Produced

The Best Price Getter and Most Popular. Extra Early, Heaviest Yielding, Continuous Bearer.

Mildew-Proof. Never Turns Yellow. Perfect in Shape, Color and Size.

No Misshapen Fruits or Culls. Flesh Firm, Fine Grained and Tender. The Quality is Superb.

Most Refreshing and Delightful Flavor. Entirely Free from Bitterness.

Very Few Seeds. Fine for Slicing. The Ideal Cucumber for Either Shipping, Market or Home Use.

Price: Pkt. 10c. 1/2 Oz. 30c. Oz. 50c. 2 Ozs. 95c. 1/4 Lb. $1.75. 1/2 Lb. $3.00. Lb. $5.00. Postpaid.

Bolgiano’s New “Crystal Springs” Cucumber is the result of years of reselecting and improving of the White Spine Types, and in it we believe we have perfected the Earliest and Best Deep Green White Spine Cucumber ever introduced. For many years we have grown it in our trial grounds, and for the past two years have placed it into the hands of our Leading Market Gardeners in all sections of the country. They all marvel at its earliness, prolificness and the beauty of the long deep green fruit that it produces.

The vines are of strong vigorous growth with healthy foliage, mildew-proof and maintain their luxuriance and set the extra long fruit abundantly from the earliest to the latest season. The Cucumbers are uniformly smooth and regular in form—in fact, it is the most perfect Cucumber that you have ever seen. No misshapen fruits or culls. The skin is thin and tender. An attractive rich glossy deep green in color, which it carries to the very tips. It never turns yellow, even when fully ripe. The flesh is firm, fine grained and tender, sparkling white, of the most delightful and refreshing flavor. It is entirely free of the bitter taste so often noticed in other varieties. The flesh is thick, the fruit bring two to three inches in diameter, with very few seeds. It is ideal for slicing. The quality is superb. Bolgiano’s New “Crystal Springs” Cucumber is the Earliest, Heaviest Yielding, Long Green White Spine Cucumber ever known, under all conditions of culture, whether under glass or in the open ground. It is the ideal Cucumber for either shipping, market or home use.

While it would pay you handsomely to devote your entire acreage of Cucumbers to Bolgiano’s New “Crystal Springs,” you cannot afford not to give it a trial. It always brings the highest price and is the first Cucumber in market. Bolgiano’s New “Crystal Springs” Cucumber producing such few seeds, and this being the first year of our offering the seed for sale through our catalog, our stock is very small, and would advise you to order at once to be sure of getting your supply.

“Honey Dew”—the New Muskmelon

Has the Sweetness of Honey and the Freshness of Morning Dew

The original seed of this new Melon was secured from a Melon shipped from Africa to New York City. The seed was planted at Rocky Ford, Colo., and crossed with the original, genuine Rocky Ford Cantaloupe, producing a Melon unparalleled for its sweetness of flavor. It is as sweet as honey and has the mingling of several flavors, pineapple, banana and vanilla—predominating. The average size of the melon is six inches in diameter and seven to eight inches in length. Weight averages eight to ten pounds. The skin is smooth and the rind, though thin, is very tough and so close that the excellent flesh is practically sealed up and is kept in good condition for two or three months after the crop is gathered. The late maturing ones may be kept until Christmas. It is a creamy yellow when ripe. The flesh is an emerald green, very thick, melting and very fine grained. It can be eaten to the extreme rind. The seed cavity is very small. The Melon does not shrink in weight, is not easily bruised and is a splendid shipper. It is very prolific, yields at the rate of from 8,000 to 10,000 melons per acre. The originator of this wonderful Melon netted over $2,100 per acre.

"John Baer" Tomato

The Earliest and Best Tomato on Earth—Shipping Fruit in 30 Days

Prices: Pkts. 10c and 25c. 1/4 Oz. 50c. 1/2 Oz. 90c. 1 Oz. $1.50. 2 Ozs. $2.50. 1/2 Lb. $4.50. 1 Lb. $8.00. 1 Lb. $15.00. Postpaid. We Offer Veneer Bands 50c Per 100.

Quality

Earliest and best in 28 varieties; brilliant deep red color; smoothest; no core; almost free from seed; delicious flavored, far more solid and meaty than any other; no splits; ripens even up to the stem; perfect beauty, uniform in size and ripening; picks two to one to any other variety; from 105 to 122 perfect fruit to the vine; a perfect shipper; bright display.

Good Qualities of the "John Baer" Tomato

1st—"John Baer" Tomato produces large, beautiful, solid shipping Tomatoes in 30 days from large, strong, well-matured plants grown in Veneer or Paper bands, with roots undisturbed.
2nd—"John Baer" Tomato produces the most perfect High Crown Tomatoes ever grown, entirely free from core.
3rd—"John Baer" Tomato produces an enormous crop of Tomatoes, 50 to 100 fruit to each plant.
4th—"John Baer" Tomato ripens evenly, right up to the stem.
5th—No cripples, no scalds, no blight, no cracked, no wrinkled, no one-sided, uneven, scarred fruit. When dead ripe "John Baer" Tomato will not burst.
6th—"John Baer" Tomato has a wonderful glistening, brilliant, bright red color.
7th—"John Baer" Tomato has a mild, deliciously sweet flavor. The finest flavor you have ever tasted.
8th—"John Baer" Tomato is almost seedless; it requires 6 to 8 bushes of "John Baer" Tomatoes to make one pound of seed, a marvelous Stem Seeder, often ten fruit in first cluster, solid and meaty.
9th—"John Baer" Tomato has just enough foliage—will stand plenty of manuring without going to vine. Set plants 3 x 3½ feet.
10th—"John Baer" Tomato is the most perfect shipping Tomato ever grown; 24 fruit exactly fill a six-carrier basket.
11th—Each beautiful "John Baer" Tomato weighs about 6½ ounces.
12th—"John Baer" Tomato Seed was saved only by John Baer, the originator, who personally selected and picked every Tomato from which he saved this Seed, selecting only the most beautiful, perfect fruit of the Early Set Clusters.
13th—"John Baer" Tomato is the offspring of two marvelous Tomatoes—One Great Specialist having devoted 10 years in selecting and improving one parent and Another Expert devoted five years in selecting and improving the other parent. The "John Baer" Tomato is, therefore, the result of Fifteen Generations of Improvement and Selection for earliness, quality, shape, fruit, color, and shipping quality.

Earliness

Ten days earlier than Earliana in Canada; the earliest Tomato in New Jersey; 10 days earlier than Globe in Florida; planted six weeks later but came first in Texas; 3 weeks ahead of any in Virginia; 3 weeks ahead of any in New York; 3 weeks ahead of any in Washington; 2 weeks ahead of any in Maryland; set out May 30, picked ripe fruit June 17, in New York.

14th—As a Packing Tomato, "John Baer" is a miracle—they all pack Fancy, no seconds, and all pack whole. Packers can prepare three bushels "John Baer" Tomatoes to one bushel of any other Tomato. Being such a tremendous yielder a bushel of "John Baer" Tomatoes can be gathered in one-third the time of any other Tomato. A large Baltimore Tomato Packer had all the "John Baer" Tomatoes he could secure packed separately, running them through a special process for his fanciest trade and his own private use.

JOHN BAER
Wholesale Market Gardener and Florist.
Baltimore County, Md., January 1, 1918.

A WORD OF CAUTION

To My Friends, Fellow Market Gardeners, Canners and the Public in General

The wonderful successes produced from "John Baer" Tomato Seed has caused seed to be sold under this name that is not of my production. In many cases this seed has produced very inferior crops and in no case has it been worthy of the name.

I therefore wish to inform my friends—the Market Gardeners, Canners and the Public in General—I have placed my entire 1915 supply of "John Baer" Tomato Seed, which I personally grew and selected, with J. Bologian & Son, of Baltimore, Md. Any seed offered by any other source is not my production and I cannot feel morally responsible for the results it may produce.

I have given this Tomato my greatest care and attention for many years and I take pride in seeing that my fellow market gardeners are getting only seed that represents the results of my life work.

(Signed) JOHN BAER.
The First Early

"John Baer" Tomato

The Earliest and Best Tomato on Earth

Each Beautiful "John Baer" Weighs About 6½ Ounces.

PLANTED EXCLUSIVELY BY THE LEADING AND MOST SUCCESSFUL TOMATO GROWERS AS THE BEST FIRST EARLY.

Beware of Substitutes

On December 13, 1916, Mr. C. W. Marchant, Manager Fruits Canning Co., Mena Co., wrote: "I am in receipt of your letter of November 23 quoting price on Tomato Seed. So as to be sure of getting some of your strain of "John Baer" Tomato, I am ordering now for January 1st delivery. This past year, 1916 Tomato crop, I used "John Baer" Tomato Seed purchased from another seedman, it germinated fine, but was no more like the original "John Baer" fruit raised from your strain in 1915 than a noble is like a horse. Please do not disappoint me in this seed. Give me the best you can obtain. If the above price for "John Baer" will not get me the pure original strain, let me know what price will."

"John Baer" Never Fails to Top the Market

On August 7, 1917, Mr. W. E. Gibson, Proprietor Oakville Fruit and Plant Farm, Wise Co., wrote: "It gives me great pleasure to state that 'John Baer' Tomato Seed bought of you has always given us good satisfaction, and I pronounce it superior to any other variety that we have ever tried. It never fails to top the market, which is evidence that it pleases others as well as ourselves."

"John Baer" Always Brings the Best Price

On June 5, 1917, J. Nevin Stroup, Proprietor Inwood Farm, Snyder Co., Pa., wrote: "We were exceedingly well pleased with your seeds last year, and especially with the "John Baer" Tomato, which in quality and production exceeded anything ever before seen in this country. We average freely two or more baskets per acre for our 'John Baer' Tomatoes than for any other variety. Thanking you for your fair dealings, we are."

The Earliest Tomato in Georgia

On February 29, 1917, Mr. J. S. Decker, of Augusta Co., Va., wrote: "Mr. hobby is early Tomatoes. I have grown 'John Baer' for the past two years and find it the earliest, of finest flavor and most excellent bearer.

Bolgiano's "Greater Baltimore" Tomato

The World's Greatest Canning Tomato

"John Baer" Tomato

"Bolgiano's "Greater Baltimore" Tomato

On December 13, 1916, Mr. C. W. Marchant, Manager Fruits Canning Co., Mena Co., wrote: "I am in receipt of your letter of November 23 quoting price on Tomato Seed. So as to be sure of getting some of your strain of "John Baer" Tomato, I am ordering now for January 1st delivery. This past year, 1916 Tomato crop, I used "John Baer" Tomato Seed purchased from another seedman, it germinated fine, but was no more like the original "John Baer" fruit raised from your strain in 1915 than a noble is like a horse. Please do not disappoint me in this seed. Give me the best you can obtain. If the above price for "John Baer" will not get me the pure original strain, let me know what price will.

Stands the Bight in Florida

On August 3, 1917, Mr. Wm. Fiede, of Bradford Co., Fla., wrote: "I like the 'John Baer' Tomato very much. On account of weather conditions I did not get the seed started until rather late. On April 21st, I had the plants in bloom, then a severe hail storm came along and cut them up badly. They recovered after a while but got blackened on that account very much. I have had Tomatoes from them from the last week in May until now, with no blight, which is remarkable for Florida. They are a fine flavored, nearly fruit, and I shall plant them exclusively. I have some Stone Tomato planted alongside the 'John Baer' and they blighted badly, and I never got anything at all from them. We had a severe drought after the hail."

Tomato Seed for Your 1918 Crop

Tomato Seed conditions this year are extremely serious. The early crops destroyed seventy-five per cent of the crops in every section of the country. The only good seed that we could save was from the very best varieties and best fruit. We could not sacrifice quality for quantity. It will soon not be a matter of price. It will be impossible to buy High Grade Tomato Seed at any price, and you cannot afford to risk your entire crop with inferior seed.

With these startling crop failures, uncertain shipping conditions and labor difficulties, it will be wise for you to allow your own requirements of Tomato Seed at once. Do not delay.

A pound of seed in hand at planting time is worth a bag full many miles away.

"John Baer" Tomato

"Better Baltimore" Beat the Stone Bad

On March 8, 1917, Mr. Claud McEachine, of Madison Co., Ky., wrote: "The 'Greater Baltimore' I got from you last year was the finest I ever raised. It beat the Stone best.

Fine Crop in Bad Season

On August 5, 1917, Mr. Wm. P. Hilliard, of Frederick Co., Va., wrote: "We have used your 'John Baer' Tomato Seed for the past 5 years, and we don't think in our opinion there is a better Tomato for the canner.

'Greater Baltimore' Beat the Stone Bad

On March 8, 1917, Mr. Claud McEachine, of Madison Co., Ky., wrote: "The 'Greater Baltimore' I got from you last year was the finest I ever raised. It beat the Stone best.

Can't be Beaten in South Carolina

On August 13, 1917, Mr. Wm. Johnson, of Newberry Co., S. C., wrote: "Bolgiano's 'Greater Baltimore' Tomato stood the drought better than any other variety this season. The 'Greater Baltimore' can't be beat.

After Eight Years' Trial

On July 30, 1917, Mr. C. W. Wilson, of Velvaco Co., Fla., wrote: "I have been using Bolgiano's 'Greater Baltimore' Tomato Seed for eight years with the best of success."
Bolgiano’s “Greater Baltimore” Tomato—Special Stock Seed

After twelve seasons have passed, and the “Greater Baltimore” Tomato has been grown in every Tomato State in the Union, and in many foreign countries, it is almost impossible to give a description of its merits without seeming to claim for it Supernatural Powers: so in describing it, we will, as far as practical, confine ourselves to extracts from the experience of those who have grown the “Greater Baltimore” during the past twelve years.

A Florida man writes, “It is the finest Shipping Tomato ever sold—tested side by side, and shipped side by side with five leading varieties—it beats them all.” Another writes, “Out of 13 Red varieties it was the best of all.” Very prolific—it yielded from 300 to more than 650 bushels of 60 lbs. per acre. One man raised 17,000 plants from 1/4 Lb. of “Greater Baltimore” Tomato Seed. Vigorous grower, strong, healthy plants. Fruit uniform in shape and size, large, very regular, smooth, shapely, luscious, very meaty, ripens well and evenly. Beautiful bright red color, fruit very handsome, dozens weighing 80 ounces, and several exceeding 12 ounces. Seed planted side by side with Stone has outyielded that variety four to one. Used almost exclusively by “The Giants among the Packers” throughout Indiana and Illinois. “Fine crop in bad season.” Excellent keeper—has kept until New Year’s Day. Rust and blight proof. Recommended unreservedly by a grower for “the section around Lakeland, Fla.” Had proved better than any variety tried at Peton, Canada. “Stands the heat and drought of Mississippi.” “Very valuable for South Carolina climate.” In the caging districts of Delaware and Maryland “yielded a fine crop in a bad season.” Texas says there is no better Tomato in size and taste on the market; not an acid Tomato—very fine flavored. On our own table we ate the “Greater Baltimore” Tomato like we would slice a fine tender roast beef.

Enviable Reputation from Bolgiano’s “Greater Baltimore”

On December 18, 1916, The Madonna Canning Co. of San Joaquin Co., Calif., wrote: “Please enter our order for 25 pounds of ‘Greater Baltimore’ Tomato Seed. We wish the same seed you furnished us last season. We have built on enviable reputation with our tomato pack and attribute our success in a great measure to the quality of seed furnished by you, and we feel confident that you will give our order special attention. Please ship at once.”

“Greater Baltimore” as Compared to Stone

On February 20, 1917, Mr. Charles H. Spencer, of Kent Co., Dela., wrote: “Please send me the very best ‘Greater Baltimore’ Tomato Seed you have. I grew 60 tons last season on 4 acres from seed purchased from you, and on one acre beside these acres I only grew 4 tons of Stone. I think you will find you will have large numbers of sales of ‘Greater Baltimore’ Tomato Seed from this section, because of its good yield I had last season.”
Bolgiano's "Early Bird" Pea

New 1917

A Wonderful New Early Semi-Wrinkled Dwarf Pea

Extremely Early, Very Hardy, Mammoth Poddled, Vines 2 to 2½ Feet High

1048. Bolgiano's "Early Bird" Peas are unsurpassed for their extreme earliness, superlative quality and unusual productiveness.

The dwarf vigorous vines measure 2 to 2½ feet and carry enormous crops of large, long, beautiful deep green pods.

The handsome pods measure 4 to 4½ inches long and are filled with 9 to 10 slightly indented, round, blue marrow Peas.

The Peas are large in size and of the most luscious flavor.

Bolgiano's "Early Bird" Peas can be sown as soon as the ground can be worked, for they do not rot in the ground like fully wrinkled varieties.

Bolgiano's "Early Bird" Peas can be pulled as early as the Extra Early Alaskas, with pods double the size.

A robust grower and a very heavy cropper.

We have much pleasure in introducing this most valuable Pea. After having carefully tested it in our trial grounds, we strongly recommend it to our friends and customers. It is bound to become the Market Pea of the future.

If you know the wonderful merits of Bolgiano's "Early Bird" Peas as we do you would not hesitate to put your entire crop in this Pea. You certainly should give "Early Bird" Peas a liberal trial this Spring.

The market gardeners who first plant "Early Bird" Peas are the ones who will realize the largest profits.

As a Pea for the home garden it is unsurpassed.

Bolgiano's "Early Bird" Peas. Supply of seed is limited. We therefore ask that you send us your order early. Price: Pkt. 15c., ½ Pt. 25c., Pt. 40c., Qt. $1.00. 4 Qua. $3.00. Peck $5.00.

Bolgiano's

New "Early Spring" Beet

The First Beet in Market, Where It Commands Fancy Prices

Bolgiano's New "Early Spring" Beet has now been given a trial by all the leading market gardeners. They have been wild in their praise of its wonderfully good qualities. It was the first Beet in market, where it commanded the fancy prices. Most perfect in shape and beautiful deep red color. It is much earlier maturing than Crosby's Egyptian and is of a much finer grain. Has a very small top root, also top not being quite as large as Crosby's Egyptian. Even in maturing, that is, all the Beets can be pulled one week after you start in pulling. Beets sown under glass and transplanted outdores or sown in the open field and will mature much earlier than Crosby's Egyptian. Bolgiano's New Early Spring Beet is the result of years of reselecting and improving, resulting in, we believe, the earliest and best Beet on the market. Seed is very scarce. It will pay you handsomely to give it a trial. Pkt. 10c., Oz. 25c., 2 Ozs. 15c., ½ Lb. 75c., Lb. $2.50. Postpaid.

"Early Bird" Away Ahead of Any Varieties

On August 10, 1899, Mr. F. Davis, of Trumbull Co., Ohio, wrote: "Relative to Bolgiano's "Early Bird" Peas, and my success in growing them, I would say that as an extra early good wrinkled Pea they stand away ahead of any variety of semi-wrinkled habits which I have ever planted. We have had an ideal season for growing them, as it was cool, and we had plenty of rain in our locality. They grew about two feet high, they grew as an enormous crop, just as early as 'Alaska' and other hard varieties. Hereafter I will plant them exclusively, as they are more easily taken care of than the tall varieties."

Bolgiano's

New "Early Spring" Beet

"Early Spring" Beets—The Earliest and Best

On August 10, 1917, Mr. A. H. Matthews, of Kent Co., Del., wrote: "The 'Early Spring' Beets I sowed from you last Spring have proved to be the earliest and best that I have ever grown. The weather conditions were good."

All We Claim for Them

On August 15, 1917, Mr. T. J. Hacklett, of Richwood Co., Md., wrote: "I planted Bolgiano's 'Early Bird' Peas and 'New Early Spring' Beets this season, and am very well pleased with them. In spite of the conditions not being favorable to the crop of Peas, the 'Early Birds' made a big yield. The 'New Early Spring' Beets were of fine texture and flavor. They were extra early and are all that you claim for them."

They Are a Wonder

On July 16, 1917, Mr. Geo. T. Robinson, Market Gardener, of Tolled Co., Md., wrote: "I find Bolgiano's 'Early Spring' Beets all that can be expected of early Beets. They are very early and have fine shape, and suit me very much. The 'Early Bird' Peas—as to size and yield—they are a wonder. They are a heavy yielder, and the pods are very large, even larger than the Thomas Laddon or the Croker, and the quality is fine. I shall want a good lot of this seed for 1918."

"Early Bird" Best Both for Taste and Large Crop

On July 30, 1917, Mr. Clayton Cohan, of Cecil Co., Md., wrote: "The 'Early Bird' Peas that I ordered from you in March, I must say, were the best Peas that could be planted, both for taste and for a large crop. The weather conditions were not most all the time that the Peas were growing, but in spite of this they made an excellent crop. The pods are large, and full of fine Peas. I plan to plant them next year if nothing happens. They are certainly a good yielder."
"Long Lost" Lettuce

"The Jewel Recovered"

The Most Wonderful Market Gardeners’ and Shippers’ Lettuce Produced in the Whole World During the Past One Hundred Years

Excels All Others on the Market

As a Shipper, as a Keeper, in Quality, in Sweetness, in Flavor, in Color, in Profits, in Reliability, in Hardiness

Produces the Best

Early Heads, Large Heads, Sure Heads, Solid Heads, Compact Heads, Tender Heads, Globular Heads, Firm Heads, Uniform Heads

Pkt. 10c. 1/2 Oz. 30c. Oz. 50c. 2 Ozs. 95c. 1/4 lb. $1.75. 1/2 lb. $3.00. Lb. $5.00. Postpaid

Bolgiano’s "Long Lost" Lettuce. This wonderful Lettuce was greatly prized by the leading market gardeners around New York, Philadelphia and Baltimore twenty-five or thirty years ago. For some reason unknown it was lost. More recently it was sold by an unusual Frenchman, who came around with a sack of seed on his back selling this wonderful Lettuce to the Philadelphia market gardeners. Several years ago this Frenchman went away and never returned. Fortunately, through our good friend, Mr. Oliver H. Ott, of Philadelphia, we secured a very few seed of this wonderful Lettuce and, by infinite pains, care and attention, we have grown enough seed of the "Long Lost" Lettuce to supply our wide-awake market gardeners, friends and customers, provided they order quickly before our limited supply of seed is exhausted.

"Long Lost" Lettuce is decidedly better in flavor, sweet, tender with both finest shipping and eating qualities. Leaves are of much substance and not easily torn.

"Long Lost" King of All Lettuces

On July 19, 1917, Mr. T. C. Cornville, of Tomahawk Co., La., wrote: "Bolgiano’s ‘Long Lost’ Lettuce is the king of all Lettuces I have ever seen or planted in my forty years of truck farming. I am a truck specialist, and know the value and merits of every vegetable. I planted at the same time as the ‘Long Lost’ the “Mammoth Big Boston” and they both headed about the same time, but the ‘Long Lost’ was much larger and much heavier than the ‘Big Boston’. Where my surprise came in was when they were left in the field, when Lettuce was not selling. The ‘Long Lost’ sold larger every day, while the ‘Big Boston’ sold to the seed. The ‘Long Lost’ stood at least twenty days without going to seed, and in several heads the seed stood broke in two, being so hard; some of the ‘Long Lost’ Lettuce weighed 2 1/2 pounds each. I never had seen anything in the Lettuce family to equal them in size, appearance and tenderness. This was in spite of a very hot season. I will not plant anything but the ‘Long Lost’ Lettuce hereafter."

As a splendid shipper "Long Lost" Lettuce far surpasses every other Lettuce, including the Big Boston. It is a wonderful shipper and those growers who realize it and quickly grasp this remarkable opportunity, are the ones who will profit far beyond their highest hopes.

"Long Lost" Lettuce produces large, extremely solid, compact cabbage heads. It is a reliable sure header and is very hardy. It will winter over better than Big Boston Lettuce. It stands the cold. "Long Lost" Lettuce will keep remarkably well. It is distinctly a market gardeners’ and Southern shippers’ Lettuce. Heads are large, compact, globular in shape, very firm, well-defined and beautifully blanched.

The famous Tomato grower, John Bier, says "Long Lost" Lettuce is the very best Lettuce the market gardeners ever knew. There has never been any Lettuce equal to it, for it is something extra good.

After having been tried last year by the Leading Market Gardeners, Truckers and Farmers and found to be the most wonderful Lettuce that they have ever tried, many have placed their order with us for "Long Lost" Lettuce to cover their entire acreage in Lettuce for 1918. While you can readily afford to place your entire acreage in this Lettuce, you cannot afford to pass another season by without giving it a trial. Our supply of seed is yet limited and the demand this year is very heavy. Let us have your order at once so you will be sure of securing your requirements of "Long Lost" Lettuce.

"Long Lost" Good to the Last Picking

On August 14, 1917, Mrs. Samuel Murphy, of Allegany Co., Md., wrote: "I had the best of success with Bolgiano’s ‘Long Lost’ Lettuce this season. It is beautiful in appearance and very tender, and it’s good to the last picking. The weather conditions were extremely cold, but in spite of this I had a fine crop of ‘Long Lost’ Lettuce."

Words of Praise for "Long Lost" Lettuce

On August 12, 1917, Mr. H. Mitchell, of Plaquemines Co., La., wrote: "I have words of praise for Bolgiano’s ‘Long Lost’ Lettuce. I tried them alongside of the ‘Big Boston’ and find that they are far superior, grown to a large size, very tender, and stand bad weather."
I. X. L. Makes Money Quick

I. X. L. The Best "All Round" Tomato Ever Planted

On July 27, 1917, Mr. R. H. Barber, of San Pedro, Tex., wrote: "I have been planting Tomatoes 19 years, and have been planting I. X. L. Tomatoes the last 6 years and wish to say they are the best all around Tomato I have ever planted."

Exceedingly Early

Bolgiano's I. X. L. Tomato

A Week Earlier Than Earliana. More Productive Than Chalk's Jewel

As Large as the Great B. B. As Solid as the New Century

One of the World's Leading Extremely Early Tomatoes

Price: Pkt. 10c. ½ Oz. 35c. Oz. 65c. 2 Ozs. $1.10. ½ Lb. $2.00. 1 Lb. $3.75. Lb. $7.50. Postpaid.

1. One of the Earliest, Largest, absolutely smooth Tomatoes on the Market. As much earlier than the "Earliana" and as large as the "Great B. B."

2. A beautiful brilliant red color.

3. Vines are a perfect mass of large, smooth fruit, a single plant yielding ½ bushel

4. Fruit extremely early; enormously abundant, ripens all at once.

In Market Gardener's Field Tests, I. X. L. Tomato proved to be a week to ten days earlier than the Spark's Earliana, with an abundance of fruit larger and more prolific than Chalk's Jewel; in fact, any number of specimens could be found as large as the Great B. B. Tomato. It has little more vine and leaves than the Wealthy Tomato, thus protecting the blossoms from being easily knocked off by heavy rains or winds; also protecting the fruits from being sunburned or scalded. The I. X. L. Tomato is without a single exception the Leading Extremely Early Tomato, and while many of the most experienced Tomato growers tell us we cannot say too much in favor of this excellent Early Tomato, there are many who have not yet grown it. To them, we say again, do not experiment with it but plant your entire early crop in I. X. L. Tomato. Your crop will net you big returns. We stake our reputation on I. X. L.

I. X. L. Brings Highest Price

On August 20, 1917, Mr. Herman Tice, of Pear Grove Farms, Bergen City, N. J., wrote: "I always plant Bolgiano's I. X. L. Tomato seed for early, as I do not think there is any Tomato on the market equal to it. It is the earliest Tomato I have ever had, of good size and fine quality. The weather condition this year has not been very good; in the first place, it was a little too wet and later too dry. But I have had the finest crop of I. X. L. Tomatoes this year that anyone could have, and they bring the highest price on the market."

After Thirty Years' Trial in Kansas

On August 23, 1917, Mr. J. A. Peppen, of Barber Co., Kansas, wrote: "I have raised Tomatoes in this community for 30 years, having tried many kinds, but like the I. X. L. the best of any. The I. X. L. begins ripening early, yet we get more ripe Tomatoes from them after the tops are frosted than from any other variety. We have an abundance of green Tomatoes, when cold weather compels us to pick them."

I. X. L. Tomato the Only Kind that Pays in Texas

On August 2, 1917, Mrs. J. M. Elliott, of La Salle Co., Tex., wrote: "I have been planting Bolgiano's I. X. L. Tomato for the last 8 or 9 years, along with other varieties, and find that the I. X. L. Tomatoes are the only kind that pays for this beauty. Other varieties will grow large plants and put on an abundance of blossom, but never any fruit. This has been a very dry season, not a single rain fell on my Tomatoes from the time they were planted until the crop was off, which was very good considering the weather conditions. I have decided not to plant any other kind here except the I. X. L., as my experience has taught me that they are the only Tomatoes that pay in this county."

After Ten Years' Trial in North Carolina

On August 16, 1917, Mr. W. T. Cannady, of Pender Co., N. C., wrote: "As to Bolgiano's I. X. L. Tomato I can say it is the best Tomato I have ever planted. I have been planting it for the past ten years and plant no other kind, either late or early; it makes a nice, smooth red Tomato and sells well. I find them all I desire—an Al Tomato."

Wonderfully Prolific

After Twelve Years' in Virginia

On August 29, 1917, Mr. J. J. Gill, of Alleghany Co., Va., wrote: "As regards Bolgiano's I. X. L. Tomatoes, you will find that I have bought the I. X. L. seed from you for 12 years, and have not missed a year. They are all O. K. in every respect, yield more and larger Tomatoes than any that I have ever tried."
“Prosperity Tomato”

The Wonder Among New Early Tomatoes That Has Attracted So Much Attention

Prices: Pkt. 10c. 1/2 Oz. 45c. Oz. 75c. 2 Ozs. $1.50. 1/4 Lb. $2.75. 1/2 Lb. $5.00. Lb. $10.00. Postpaid

We didn’t want to name this New Early Red Tomato “PROSPERITY,” but we couldn’t help it; no other name could tell so quickly and so thoroughly how good it was.

“PROSPERITY” means Success, Good Fortune, Entire and Complete Satisfaction; finding a Tomato possessing all these qualifications and advantages we instinctively thought of “PROSPERITY.”

Description: One of the earliest of all Tomatoes, a brilliant red, an enormous yielder, grown and developed from single plant selections covering a period of ten years; filled full of strong, sturdy, healthy, new blood. After having been tried by the Leading Market Gardeners and Largest Shippers all over the United States and Canada for the last six years, it is today thought more of than ever before.

“Prosperity” for a Money Maker

On August 7, 1917, Mr. R. T. Rogers, of Hartford Co., Md., wrote: “The ‘Prosperity’ Tomato which I grew last season from the seed I bought of you was a wonder to the neighborhood, was very early and extremely prolific. It is the best and earliest Tomato I ever grew, and I will grow no other for a money maker.”

In Florida “Prosperity is a Fine Tomato”

On June 15, 1916, Mr. Lee Wells, of Gadsden Co., Fla., wrote: “Weather conditions have been unfavorable for plant growth until recently—very dry and hot. However, your ‘Prosperity’ Tomatoes made a satisfactory growth and are now full of fruit, ripening with not a single specimen of plant wilt or fruit rot. The ‘Prosperity’ is a fine Tomato, each fruit grows to a good size and ripens evenly and thoroughly—thoroughly, that is, with no hard spots or green unripe sections, as some varieties do.

In Tennessee—The Earliest by 9 Days

On August 1, Mr. Oliea Conner, Bedford Co., Tenn., wrote: “I write to let you know that the ‘Prosperity’ Tomato seed which I bought from you this Spring were 9 days earlier than several other very early varieties planted the same day. No other seed was as early as your ‘Prosperity’, although yours came the same day and plants set out the same day. I am well pleased with your Tomato seed.”

The Wonder of Morgan County, Georgia

On February 7, Mr. J. B. Atkinson, of Morgan Co., Ga., wrote: “The ‘Prosperity’ Tomatoes that I ordered from you last year proved to be the wonder of this place. Out of a small plot I produced a surprising quantity of the best Tomatoes that I have ever seen. There was no other variety anywhere near them. The other seed ordered from you proved to be very fine and everything that you claimed for them.”

“Prosperity” Still Remains First

On August 5, 1917, Mr. G. A. Coleman, Proprietor Chestnut Grove Gardens, of Albany Co., N. Y., wrote: “Poligono’s ‘Prosperity’ Tomatoes are normal this season, both in yield and quality, and still stands first among early varieties in my experience.”

Fruit Weighing One Pound in Canada

On January 3, Mr. R. Norris Warren, of Ontario, Canada, wrote: “Your ‘Prosperity’ Tomato which I grew last year was the best Tomato that I have ever grown. Extremely early and continuing right to the end of the growing season, with many fruits scaling one pound in weight and a very small proportion of seconds.”

Nothing To Beat “Prosperity”

On July 21, 1916, Mr. Frank H. Parker, of Cherokee Co., Kansas, wrote: “There is no Tomato that is better, sooner, earlier, than that Grand Early Tomato, ‘Prosperity.’ Seed same the same day, same treatment throughout. I have seen nothing to beat the ‘Prosperity’.”

In New Jersey—“Prosperity” Stands the Hard Knocks

On October 29, Maurice A. Blake, Horticulturist of the New Jersey Agricultural Experiment Station, New Brunswick, N. J., wrote as follows: “We had two extremely hot periods of drought here this Summer, yet the ‘Prosperity’ Tomato showed considerable promise under test.”

In New York—Most Wonderful Tomato Ever Grown

On February 16, Mr. D. A. Coleman, of Albany Co., N. Y., wrote: “I grew the ‘Prosperity’ Tomatoes last year. They are the greatest early Tomatoes ever grown. They were 10 days earlier than the I. X. 1. side by side. As for yield they are most wonderful ever grown in this county. Neighbors from all over came to see them growing.”

17
"My Maryland" has surpassed the Best Yielding Tomatoes in the World More than 100 Per Cent.
A Marvelous Double Yielder

Side by side it has produced three times the crop produced by the Stone or New Century. It has even doubled the yield of the Greater Baltimore Tomato.

The vast possibilities of this New Tomato are astonishing. We believed in Greater Baltimore Tomato, the limit of productiveness had been reached, but "My Maryland" so far outyielded other varieties, that it has been proved, to the prodigious abundance of the crops it has produced. The field was literally covered with its well-shaped, perfectly formed, solid, smooth, bright red, uniform fruit, all free from roughness and cracks, much larger than any ever seen before. It is a bed of" My Maryland", and there "A Winner" and it well deserved the title. The Tomatoes are much larger and far heavier than either the Greater Baltimore or the New Century. By most careful selections for six years, we have thoroughly established the purity and trueness of "My Maryland" Tomato, and are delighted to be the introducer of a Tomato which from start to finish is "King of Them All." A real "Double Yelder" that is known as the best second early and main crop Tomato the world has ever produced.

Prices:
Pkt. 10c. 1/4 Oz. 35c. Oz. 50c. 2 Ozs. $1.10.
1/4 Lb. $2.00. 1/2 Lb. $3.75. Lb. $7.50.
Postpaid.

No Tomatoes but "My Maryland"

On August 14, 1917, Mr. Wm. Sellers, of Dorchester Co., Md., wrote: "If I had not planted your "My Maryland" this year I would not have had any Tomatoes at all, for all the other varieties which I planted were total failures, owing to the extreme drought, but the "My Maryland" are holding their own and producing a fine crop. I take pleasure in writing you this short statement, for every farmer should be grateful for good seed."

Fine Crop in Bad Season in Canada

On July 30, 1917, Fonthill Canning Co., of Ontario, Canada, wrote: "Regarding Bolgiano's "My Maryland" Tomato seed, wish to state that this seed has done very well so far this season with us, and we have had a very set time up to the last couple weeks. "My Maryland" plants have stood it wonderful and are now reaching a very vigorous growth and bearing fine. We have growers here who will not grow anything but "My Maryland" Tomatoes."

"My Maryland" Superior to all Others

On July 30, 1917, Mr. W. E. Griffin, of Dade Co., Fla., wrote: "Bolgiano's "My Maryland" Tomato are the best we have ever grown there is no doubt in our minds that they are superior to all others."

Proved Best out of 28 Varieties Tested in Expert Tests in New Mexico

On November 1, 1916, Mr. James W. Rigby, Assistant Horticultural, New Mexico College of Agriculture and Mechanic Arts, State College, N. Mex., wrote: "As to Bolgiano's "My Maryland" Tomatoes, I am quite enthusiastic over this Tomato. We have 28 varieties in our tests this year and of course many of them were from different localities and not in my opinion 'My Maryland' were quite superior to all of the others, both in quality and productiveness."

Always True to Name

On August 6, 1917, Anderson Bros. Canning Co., of Muskato Co., Iowa, wrote: "The "My Maryland" Tomato seed purchased from you last Fall for this season's use are as nearly perfect for germination as any seed we ever purchased, and judging from past experience with your seeds, we have every reason to believe that they are true to name."

"My Maryland" Tomatoes in Florida

On August 9, 1917, Mr. W. J. Walker, of Levy Co., Fla., wrote: "As regards our success with the 'My Maryland' Tomato seed which I purchased from you last March, I beg to state that it has been a roaring success, especially considering the fact that we had the worst drought in Florida this Spring than we have had for years, having only two light showers in two months. An acre of 'My Maryland' Tomatoes planted on rich soil, pruned to stakes, yielded at least 550 crates to the acre. I tell you they were a sight to behold, growing 6 to 7 feet high, filled with nice large Tomatoes from bottom to top. I consider the 'My Maryland', and Florida Special', Tomatoes the very best combination that could be planted in this State. 'My Maryland' is very vigorous, fruitful and very prolific."

"My Maryland" Outgrow Doubly, Outbore and Outsold All Others

On July 5, 1916, Mr. W. O. Rogers, of Orange Co., Fla., wrote: "In regard to your 'My Maryland' Tomatoes, it has undoubtedly the best practical introduction for 20 years. It has evidently been brought to its high standard by scientific selection. I find this vigorous grower, blight-proof, earlier ripening, more productive than any variety that I have ever planted. I have some neighbors who are professional market gardeners, a few plants; their voluntary statement to me was that they outproduce doubly, outbore and outsell the other varieties that they had planted. Just hold 'My Maryland' to its present standard and it will be sufficient."
Bolgiano's French Golden Self-Blanching Celery

This Wonderful Celery is Used Exclusively by the Largest and Most Experienced Celery Growers all over the World, and annually produces Enormous Profit.

This is the Finest Stock in the World. Stand Shipment better than any other.

11. While you can readily afford to put your whole crop in your stock of the most valuable Celery, you cannot afford to let this year go by without growing some of it. We have refused to sell any Self-Blanching Celery Seed except this wonderful stock. The Celery it produces will not only ship well, but will bring the highest market price. It will create a new price for you; your commission man can get outside figures for it, and he will sell quickly all you can ship. Try our stock; YOUR PRICES will be higher than ours. Perfect, solid, crisp, vigorous stalks; thrifty, compact growth, self-blanching to a very remarkable degree; even the outer ribs become a home, fresh, clean yellowish color, with a heart that is large and solid, of a beautiful rich golden-yellow color. It never becomes stringy or pithy. To fully appreciate its beauty and attractions, it must be seen. Many customers place their orders with us six months before planting time in order to be sure of this perfect stock of seed.

Postpaid. Pkt. 5c. 1/2 Oz. 25c. 1 Oz. 45c. 2 Oz. 75c. 3/4 lb. $1.75.

Bolgiano's "New Victory" Celery

The Most Solid and Most Profitable Winter Celery

81. Our French Grown "New Victory" Celery is the Best Celery on Earth. It has a great amount of heart, is heavier, stouter and thicker than many of its rivals. It is the most economical Celery yet introduced, every particle being solid, crisp and of a delicious flavor. Its beautiful large golden heart and compact growth make an ornament hard to surpass. It is a remarkable keeper, maintaining its firmness as late as May. Critical market gardeners pronounce it to be the finest quality, best keeper and most salable Celery they have ever raised. It is ready for market by December. Pkt. 10c. 1/2 Oz. 20c. Oz. 35c. 20s. 65c. 1/2 lb. $1.25. 3/4 lb. $2.25. 1 lb. $4.00. Postpaid.

Bolgiano's "Sweet Nut" Celery

76. For home gardens and nearby markets Bolgiano's New Celery, "Sweet Nut," is the most delicious, sweet, nutty, crisp Celery that has ever been offered to the public. "Sweet Nut" Celery has been developed by one of our most careful French growers for many years. The most rigid selection has been made to get this surpassingly delicious strain thoroughly fixed. It is absolutely solid, a most excellent Winter Keeper, of vigorous, sturdy growth, making fine, large, tender, beautiful roots, with a large, full creamy-yellow heart. It is necessary to Blanch it by earthing up or storing it for the Winter. It blanches to a beautiful creamy-yellow, delicateness is one of its most desirable features. Pkt. 10c. 1/2 Oz. 35c. 20s. 65c. 1/2 lb. $1.25. 3/4 lb. $2.25. 1 lb. $4.00. Postpaid.

Bolgiano's "Sunbeam" Extremely Early Carrot

14. The earliest and most delicious Carrot ever grown. Matures long before any of the other varieties are near ripe. It is tender, fine flavored and beautiful color. Especially suited for forcing for the very earliest Spring Market, and for very early home use. Pkt. 10c. Oz. 25c. 20s. 30c. 1/2 lb. 85c. lb. $2.75. Postpaid.

Klondike or Coreless Carrot—Produces Money Crops for Trucrers and Market Gardeners

8. We have been developing "Klondike" Carrot for a number of years, and have succeeded in raising a handsome, uniform, tender, medium long Carrot of a most attractive, deep, rich orange-red color. It is smooth and shapely, very tender, without core and of a delicate flavor. It is a model in shape and size; grows 6 to 7 inches long by 1 1/2 inches in diameter, the healthy tops are small and the Carrot tapers gracefully to a single small tap root. It is the truest, purest, most attractive, most salable market Carrot that has ever been offered the Critical Market Garden Trade. Pkt. 10c. Oz. 25c. 20s. 40c. 1/2 lb. $1.25. 3/4 lb. $2.25. 1 lb. $4.00. Postpaid.

Bolgiano's Pride of the Market Carrot

This Beautiful, Shapely, Half-Long Carrot Will Come Almost as Early as the Ox-Heart. It is the Most Popular Carrot That Grows

61. It is the most perfect, finest colored, most tender and best flavored Carrot that was ever placed in your hands. Pride of the Market because it is the best. You must have the best of everything. In Carrots, to get the best we select roots that resemble our ideal, and from them grow seed for you. The Pride of the Market is half long; deep, rich color free from small side roots, solid, thick and uniform and graceful. As an early Carrot it is all your heart could wish. In Midsummer we have seen it outsell every other variety, on account of its superior merits and quality; for Otherwise there is none like it. Its attractive tops remain a rich green. Pkt. 10c. Oz. 25c. 20s. 40c. 1/2 lb. 75c. lb. $2.50. Postpaid.

Bolgiano's "King" Carrot

91. We name this excellent new Long Orange Carrot "King" Carrot because it is best of all long Carrots. In Germany it has a wonderful reputation among truckers and market gardeners, and only by paying a very high price we were able to secure any for our customers. The flesh is deep in color, tender and delicate in flavor. It is much better than the regular Long Orange Carrot that we are sure when "King" Carrot becomes thoroughly known it will drive Long Orange Carrots out entirely. Being entirely new stock, the seed has been saved with the greatest care and the Carrots are uniform in shape, of fine texture and almost entirely free from core usually found in Carrots. It produces the most attractive specimens in deep soils. Pkt. 10c. Oz. 25c. 20s. 50c. 1/2 lb. 85c. lb. $2.75. Postpaid.
Bolgiano's "Florida Special" Tomato
Greatest Blight Resisting Tomato On Earth
Extra Selected Proven Stock

311. Not a single grower of Tomatoes in Florida or in any locality where blight has injured the Tomato crops, should go through this season without trying this most excellent new Tomato. We call it "Florida Special," for it has been most carefully bred up to resist the ravages of blight which has been so discouraging to our Florida custom- ers. It is red in color, large in size, fine flavored, firm and meaty, very prolific, and about as early as the Earlana. It is a most excellent shipper in fact, during our entire time of selecting and breeding up the Florida Special, we took the utmost pains in selecting such Tomatoes as would stand the long shipment to the Northern Markets from Florida. We are confident Bolgiano's Florida Specia Tomato is going to make a record that will put it head and shoulders above any Tomato that has ever been introduced excepting the I. X. L. Tomato. Pkt. 10c. 1/2 Oz. 30c. Oz. 50c. 2 OZS. 95c. 3/4 Lb. $1.60. 1/2 Lb. $2.55. Lb. $5.00. Postpaid.

Bolgiano's "Florida Special" a "Perfect Success"

On August 1, 1917, Mr. J. E. Lawson, of Sauanpe Co., Fla., wrote: "I am glad to report perfect success with Bolgiano's "Florida Special" Tomato. Plants were set in Spring and have stood the test of drought in June, and at present the bushes are green and are still bearing delicious fruit. The bushes have shown to blight whatever. The Tomatoes are finely flavored and I consider them excellent for market."

New "Red Rock" Tomato

Extra Selected Proven Stock

572. This is one of the finest large red Tomatoes ever introduced. It ranks among the later varieties, requiring about 110 days from seed- sowing to ripe fruit. It is very solid and free from any excess of water, smooth and of a very fine and red color. Superior in texture and flavor. It is an extraordinary heavy producer and excellent shipper. Twenty-five bushels have been grown to the acre. It is especially recommended to truckmen and grocers as it is very showy and productive. It has a very strong, vigorous vine protecting the fruit from sun and rain. Pkts. 5c and 10c. 1/2 Oz. 30c. Oz. 50c. 2 OZS. 90c. 1/4 Lb. $1.60. 1/2 Lb. $2.55. Lb. $5.00. Postpaid.
Livingston’s Globe Tomato

BOLGIANO’S RESELECTED AND IMPROVED STOCK

Realizing the adaptability of Livingston’s Globe Tomato to our Southern soils and its wonderful shipping qualities, we have spent several years in reselecting and improving our stock of this wonderful Tomato. We believe we have the purest and truest type of Livingston’s Globe Tomato ever produced.

Thousands of dollars are made annually by the Southern shippers on Livingston’s Globe Tomato. The size and shape of Livingston’s Globe makes it a wonderful seller. It is among the earliest, and on account of the toughness of its skin it stands long shipments to Northern markets.

In shape it is distinct from all others, being a beautiful globe, with quite a good percentage of elongated (stem to blossom) fruits. It is among the first to ripen. Fruit of large size, and good marketable size is maintained throughout the season; always smooth, firm-fleshed, and has very few seeds. Ripes evenly through and from a fine glossy skin in color, tinged with purple. The plant is always loaded with fruit, as it has loots at frequent intervals and each joint produces large clusters of from 3 to 7 fruits. Especially adapted for slicing or eating from the hand, as the flavor is very delicate and agreeable.

Bolgiano’s Stock Superior

On November 29, 1916, Mr. J. J. Fussell, of Sumter Co., wrote: “In our Bolgiano’s stock of Livingston’s Globe Tomato Seed every season, I have tried Globe Tomatoes from other houses, but find yours the best yield. Record crops for this season were grown by me from your Livingston’s Globe Seed. Fire acres on much hand yielded five thousand crates.”

Did Well in Bad Season

On July 29, 1917, Mr. A. Heinrich, of Orange Co., wrote: “The Livingston’s Globe Tomato Seed I bought from you this Spring was all right. They came up fine and grew well and bore well, although the weather was very unfavorable for Tomatoes. They kept on bearing through a three-week period.”

June Pink Tomato—Extra Selected Proven Stock

288. **The June Pink Tomato** in habit of growth is similar to the Earliana. The plant is neat and compact, branching freely with fruit hanging in clusters of from 5 to 10 fruits both in the crown and at the ends of the branches. Under some of the same conditions as given Spark’s Earliana and Chalk’s Jewel, the June Pink yielded as much fruit as either, and the vines after the crop had been harvested were greener and brighter, and showed no tendency to blight. It ripens fully as early as Spark’s Earliana and quite 10 days to 2 weeks ahead of Chalk’s Early Jewel. The fruit is of medium size, uniform, smooth, and attractively shaped, without cracks or any green color. The fruit will average 2½ to 3 inches in diameter, from 2 to 2½ inches in depth. The skin is reasonably tough, so that it is excellent for shipping purposes. In color it is a bright pleasing pink, and in markets where a pink Tomato is desired will bring 25 to 50 per cent more in price than any red variety. The flavor is rich, well-shaped, and quite early. June Pink has medium size, uniform, and attractive shape; and makes it especially desirable for private use, continuing to bear and ripen fruit until the lastcrop. Pkt. 10c. ½ Oz. 30c. Oz. 50c. 2 Oz. 80c. ½ lb. $1.40. LB. $5.00. Postpaid.

Burpee’s Earliest Pink, one of the newest Tomatoes, exceptionally early, of the finest flavor, abundant and continuous bearer. Should be grown by every Tomato grower in the country. Also splendid for the Home Garden. Pkts. 5c and 10c. ½ Oz. 25c. Oz. 50c. 2 Oz. 80c. ½ lb. $1.40. LB. $5.00. Postpaid.

“Royal Purple” New Early Tomato

409. A truly wonderful yielder—being of large size and wonderfully prolific; and continues to yield abundant large fruit longer than the Globe, Acme, or Beauty. Very distinct in shape, firm-fleshed, and of delicately and delicious flavor. It is a very beautiful variety; in quality there is nothing more to be desired in a pink Tomato. It has already become a favorite variety with Tomato growers who have tried it. It is as smooth as an apple, color up nicely, continues in bearing condition longer than any other pink variety, and meets with ready sale on all markets. Pkt. 10c. ½ Oz. 30c. Oz. 50c. 1 lb. $1.75. LB. $6.00.

“Early Detroit” Tomato

219 This excellent variety, introduced several years ago, has been tried out by many growers of Tomatoes for shipment. It has been found that in earliness, uniformity, freedom from blight, and cracking and blistering of fruit, “Early Detroit” meets the most exacting requirements. Vine vigorous and very productive. Fruits very smooth, uniform in size, nearly globeshaped, firm and of excellent quality. We consider “Early Detroit” one of the best large purple-blotch Tomatoes yet introduced. Pkt. 10c. ½ Oz. 25c. Oz. 50c. 2 Oz. 80c. ½ lb. $1.40. LB. $5.00. Postpaid.

“Duke of York” Tomato—Genuine Old-Type Blue-Stem Tomato—Extra Selected Proven Stock

Duke of York Tomato is one of the grandest Tomatoes ever introduced, color rich, glossy scarlet, splendid cropper, round in shape, flesh very firm, large size, excellent for the market and eating. Ripens together, with perfection in color, and large size. The fruit is particularly well suited to the Eastern market. Ripens evenly through and from a fine glossy skin in color, and is an excellent variety for the market and eating. We have selected and reselected Duke of York for two years, and we can assure you that it is a variety of great merit and will be a great success in the East. Pkt. 5c and 10c. ½ Oz. 25c. Oz. 50c. 2 Oz. 80c. ½ lb. $1.40. LB. $5.00. Postpaid.

Bolgiano’s New Century Tomato

Extra Selected Proven Stock

287. **Bolgiano’s New Century Tomato.** When we first introduced this New Century Tomato, we felt as though the limit for improvement in Tomatoes had been reached, and judging from the letters we are receiving every season and from the great quantities of seed we annually sell, the New Century is still held in highest esteem by thousands of the market gardeners and shippers all over the country. If you hesitate to plant your entire crop in the newer varieties, try a few and you will be thoroughly satisfied. The New Century Tomato is better today than it ever was. New Century will outyield many other kinds; it will carry for two weeks without hurting its beauty; it will attract attention and pay you; it will not crack; it is of a beautiful red color, of large, handsome size from first picking until last Tomato is taken from the vine. Pkts. 5c and 10c. ½ Oz. 25c. Oz. 50c. 2 Oz. 80c. ½ lb. $1.40. LB. $5.00. Postpaid.
Bolgiano’s “Truckers’ Reward” Wax Beans

1183. We have been developing this wonderful New Flat Wax Bean for a number of years, and believe we have practically a perfect Market Gardeners’ and Shippers’ Flat Wax Bean. It is bound to take first premium over all competitors wherever exhibited on account of the great beauty of its pods and enormous productivity of its healthy, vigorous bush. The type is so well fixed and so pure and true it is almost impossible to locate a wrong plant in an acre of “Truckers’ Reward” White Wax Beans. The beautiful, long, straight, attractive, flat, golden pods range from 2½ to 3½ inches in length; in quality they are particularly fine, remaining tender and crisp a longer time than any other variety. As a money-making crop, and to sell either on the retail market stall or on the wholesale markets of the great cities—they will invariably catch the eye of the most critical buyers and on account of their superior attractiveness will sell themselves.

Do not delay if you want to secure some of our “Truckers’ Reward” Wax Beans; our supply is limited, so please order early. Pkt. 10c. ½ Pt. 25c. Pt. 45c. Qt. 85c. 2 Qts. $1.55. 4 Qts. $2.55. Pk. $5.50.

They Are Indeed A Wonder
On July 30, 1917, Mr. John F. Gore, of Hillsborough, Ca., Fla., wrote:

“In reference to Bolgiano’s ‘Mighty-Nice’ Bean seed, will say they are all that you claim for them. They sold on the market as well as any other Bean and produced more than any Bean I ever planted. They are indeed a wonder. Will send in my order later for early Spring planting.”

Recommend Them To All Gardeners
On August 8, 1917, Mrs. B. E. Ellison, of Fairfield Co., S. C., wrote:

“The ‘Mighty-Nice’ Bean seed bought of you last Spring gave great satisfaction and I take pleasure in recommending them to all gardeners. Notwithstanding a very hot dry spell we had, they were profusely. It is a nicely flavored Bean and very tender.”

Bolgiano’s New “Pearl Bean” Wax Beans

A Wonderful Long-Pod Wax Bean, Enormous Plant, Enormous Pod, Enormous Yield. Never Affected by Rust or Blight

1031. If you had grown it in your field, as we did, when for almost two solid months we had copious rains every day, and it showed no signs of blight or rust, you would agree with us when we say that a bean that will yield a fine crop of beautiful, long, flat, clean wax pods under such adverse circumstances certainly cannot be praised too highly. It is a PEARL of great value. Although a flat bean the seed looks somewhat like a Valentine Bean; the plant grows 2½ feet high by 2 feet across. It is a remarkably sturdy, rank, vigorous grower, well loaded with pods. The luxuriant foliage shelters the pod from the hot sun, and is free from blight and rust. The pods are long, slim, flat, plump, handsome and meaty; they somewhat resemble those of the Davis and Wardwell’s Wax Beans, but are plumper, longer and straighter. They average from 7 to 8 inches long and are of a clean, light wax-yellow color. As to quality, the pods are exceptionally tender, brittle and fine texture, free from fleshy, and if picked when ripe they are entirely stringless. Both for Shippers, Market Gardeners and the home garden, this exceptionally good quality of Bolgiano’s New Pearl Wax Bean renders it of the greatest value. Pkt. 10c. ½ Pt. 25c. Pt. 45c. Qt. 85c. 2 Qts. $1.55. 4 Qts. $2.55. Pk. $5.50.

Bolgiano’s New “Home, Sweet Home” Bean

1134. A most delicious bean for the home garden, very productive, large, long, handsome flat pods, full of big, rich, tender, sweet beans. The beans when dried make the finest kind of Winter dried beans and when hulled will fillly melt in your mouth. If you once try the Home, Sweet Home Beans, you will always have it in your kitchen garden. Market gardeners will also find this a very lucrative bean to sell to fancy market or grocery store trade. Pkt. 10c. ½ Pt. 25c. Pt. 45c. Qt. 85c. 2 Qts. $1.50. 4 Qts. $2.75. Pk. $5.25.

“Truckers’ Reward” Wax Beans
Bolgiano’s “Enormous” Early Bush Limas

1055. This wonderful new Bush Lima is the earliest, largest and best of all Large Limas; its vigorous bushes are crowned with enormous pods. The delicious green beans are larger than any other Lima Bean. It yields continuously from June until frost. Both the pods and the luxuriant flavored beans are much larger and considerably thicker than the Large Bush Lima. The plants grow upright about 30 inches high and 24 inches across, with luxuriant lasting foliage, and are very sturdy. Often live to eight pods, measuring 5 to 6 inches long by 1.5 inches wide, are borne in clusters on one stalk. The shells are much thicker than the large Bush Lima. "Enormous" Bush Lima will out-yield Large Bush Lima by 33 1/3 per cent, on account of the greater size of both pods and beans. The Seed Beans are greenish and very handsome, while the dried beans of the Large Bush Lima are pure white. Pkt 9c, 1/2 Oz. 25c, Qt. 60c. Qt. $1.00. 2 Qts. $1.75. 4 Qts. $3.00.

"Fordhook" Bush Lima

The only sturdily erect bush form of the popular "Potato" Lima. Both pods and beans are twice the size of Dreer’s Bush Lima and more than half as large as the Dreer’s Pole Lima.

1119. Fordhook Bush Lima is altogether unique. Nothing like it has ever been seen before. Of strong, erect, true bushlike growth, never running, the bushes averaging 20 to 30 inches in height by 20 to 24 inches across the top. The foliage is of heavy texture and very dark green in color. The stalks that produce the blossoms are thrown out from the lateral and main stalks; the pods are borne in “clusters” of 5 to 8, or four to eight. The pods resemble those of the Bush Lima, but average more than double the size, measuring from 4 to 5 inches long, about 1 1/2 inches wide, by as much as three-fourths of an inch thick. The pods contain three to five large beans, with an average of four.

Fordhook Bush Lima is fully 33 1/3 per cent heavier and therefore bound to entirely displace the Dreer’s Bush Lima. In season it is from four to six days earlier.

Giant Potted “Emerald Isle” Pole Lima

1052. A marvelous yielder of great clusters of gigantic pods filled with extra large, thick-bean of the sky flavored green Lima Bean. Plants branch freely and tender, but will not crack when shipped to market. Emerald Isle Limas are the largest potted, largest seeded, heaviest and rounder of all Limas. They are earlier, more prolific, and much larger potted than the King of the Garden. The mammoth pods measure 7 to 8 1/2 inches in length and 1 1/2 to 2 inches in width, and are borne in great clusters that stand out from the foliage. The vines branch or stand out from the main stalk close to the ground, each stem producing 10 to 15 lateral branches. These produce tremendous growth of exceptionally vigorous vines, which continue to grow and produce pods, 10 to 12 feet in height and produce tremendous crops of immense well-filled pods from the bottom to the top. Emerald Isle Pole Lima Beans continue to bear most abundantly until killed by frost. This is the most perfect Pole Lima Bean introduced. It grows green; it dries green; it stays green. It excels all others.

Pkt 10c. Pt. 15c. Qt. 50c. 4 Qts. $2.75. Pkt. $5.25.

Extra Early “Black Beauty” Egg Plant

Two Weeks Earlier Than Any Egg Plant

2. An entirely new variety and a splendid shipper. 2. A novelty of remarkable merit. As large as the New York Spineless Egg Plant. 4. Two weeks earlier than the New York Spineless Egg Plant. 5. Fine flavor. 6. Most productive and productive. 7. Plants branch freely near the ground. 8. Skin is a rich, lustrous black with a silvery sheen. Perfect shape and color and adding greatly to the beauty of the fruit. 10. The intense, brilliant color is uniform over the entire fruit, and does not fade or change to a lighter color at the blossom end. 11. The heavy leaves which attach the fruit to the stem are bright green, making a beautiful contrast with the fine dark green color of the fruit. 12. Thoroughly free from spots or scars. 13. Fruit sets freely. 14. Coming two weeks earlier than the New York Purple Egg Plant they readily bring double the price.

Pkt 10c. 1/2 Oz. 25c. Qt. 50c. 2 Qts. 95c. 1 lb. $1.75. 1/2 lb. $3.25. 1/4 lb. $6.00. Postpaid.

Florida “High Bush” Egg Plant

The Florida High Bush Egg Plant has proved the greatest value to the Southern trackers and shippers. It has been grown in Florida for the past three or four years. It is remarkable for its vigorous growth and productivity, and is very hardy and will stand more cold weather than New York Improved. The hot sun does not blight the blossoms; the plant has a characteristic leaf, unlike any other Egg Plant we know of. Grows from 3 to 6 feet high, erect and sturdy, free from thorns. Fruit is large, oblong in shape and purple, though not so deep a color as the New York Improved. It resists drought and wet weather to a wonderful degree, partly on account of its strong upright growth. It stands the cold weather better, and is the only Egg Plant that stands shipping from this section to the Northern markets under almost all circumstances. It is of a large size, best-class shape and superior flavor.

Pkt 10c. 1/2 Oz. 25c. Qt. 50c. 2 Qts. 95c. 1 lb. $1.40. 1/2 lb. $2.75. 1/4 lb. $5.00. Postpaid.
Bolgiano's
New Century Cauliflower

It is by far the best Cauliflower Seed in the world. If you grow Cauliflower, give it a trial. Large growers who have tried it by the ounce, are now buying it by the pound. It is in a class by itself—it stands supreme.

New Century Cauliflower

54. The Best in the World

1. It heads when others fail. 2. Large, perfect heads, measure from 12 to 14 inches in diameter. 3. The beautiful white heads are compact, deep and solid. 4. Heads will outsize those of any other strain. 5. It is the earliest of all Cauliflower. 6. One-third more can be planted on the same space than can be done with other varieties because of its close growing, compact habit. 7. It is the Most Carefully Grown Cauliflower Seed in the World. 8. The best is the cheapest, receiving all care and attention which is absolutely necessary for the growing of this special Stock. We cannot sell it for less than Pkts. 10c and 25c. 1/2 Oz. 35c. 1 Oz. $1.50. 3 Oz. $2.50. 1/4 Lb. $8.00. 1/2 Lb. $13.00. Per Lb. $30.00. Postpaid.

New Century Heads Weighing 4½ Pounds

On September 15th, Mr. Frank L. Olden, Gardener for Mr. Jas. J. Reynolds, Baltimore Co., Md., wrote: "It may be of some interest to you to know of the fine success I had with the garden seed purchased from your firm this year. All of the seed came up fine and had splendid cobs. I wish to tell you something about your New Century Cauliflower. It is the best I have ever seen. I had beautiful, solid, white heads, weighing as much as 4½ pounds. Everyone who saw it said it was the finest they ever saw grown in this part of the country.

New Century Cauliflower Superior to All Others

On August 25th, Mr. Hugh Goldner, of Hillsboro Co., Fla., wrote: "For the last 8 or 10 years I have been planting Cauliflowers. For the last three years I have planted New Century, alongside of The Gift Edge, Henderson's Early Snowball, and under the same treatment and cultivation the New Century has proved the superior to all others. This season I am planting New Century exclusively. New Century beat anything I have ever seen. Everything headed solid and very large. Many of the heads were 12 to 14 inches in diameter and weighed 8 to 12 pounds."

Bolgiano's New Century Cauliflower. The Best Cauliflower in the World

105. This splendid new Cauliflower will succeed and make fine crops in the driest kind of weather. When other varieties fail, it produces large, solid, pure white heads, weighing from 3 to 8 pounds. The soil should be made quite rich and thoroughly cultivated. It will succeed in any dry weather States as Arizona. Be sure to give it a trial, as you are never sure of the weather conditions through which your crop will have to go. Pkts. 10c and 25c. 1/2 Oz. 35c. 1 Oz. 70c. 1/4 Lb. $1.25. 1/2 Lb. $2.00. 1 Lb. $7.50. 1/2 Lb. $14.00. Lb. $28.00. Postpaid.

"Bonfire"—Bolgiano's New Very Early Beet

205. Entirely new and distinct, the bulbs develop in a remarkably short time and can be used or sold when very young. Absolutely perfect in shape, almost round, and of good size, with a very short tap root. The small green colored leaves are ribbed dark crimson. Color of both skin and flesh is an unusually rich deep crimson color. "Bonfire" Beet holds this splendid color when cooked, making it very valuable for canning, pickling, and simply perfect for table use. "Bonfire" Beet in quality and color is without an equal. It is very fine grained, tender and sweet; it is never woody or stringy. There is a great treat in store for you if you plant some of this new Beet. Seed is in very limited supply. Pkt. 10c. 1/2 Oz. 2 Oz. 45c. 1/4 Lb. 75c. 1/2 Lb. $1.25. Lb. $2.50. Postpaid.

Bolgiano's Deep Blood Beauty Beet

The Best Beet That Grows

For Ten Years This Splendid Beet Has Led All Others

18. Our long experience in the growing of Beets has shown this new strain of Beet to be the Best Extra Early Deep Blood Turnip Beet. Its small upright growing top, extra early maturing, splendid shape and deep crimson color, make it popular with everyone. The rows may be grown close together. Stem and leaves dark red, blade green. Roots are globular and peculiar smoothness; color is of blood red, very crisp, tender, fine-grained and sweet, remaining so for a long time. We believe this excellent new stock will produce a crop more uniform in shape, color and quality than any beet ever placed in the hands of the Truckers. Pkt. 10c. 1/2 Oz. 2 Oz. 45c. 1/4 Lb. 75c. 1/2 Lb. $1.25. Lb. $2.50. Postpaid.

Bolgiano's New Very Early "Bonfire" Beet

“Lucullus”—New Swiss Chard or Spinach Beet

165. This delicious and useful vegetable should be in every garden and on every Market Stall. It is really two distinct vegetables; first the leafy part of the foliage is cooked and served the same as Spinach, while the stalks are cooked and served with drawn butter like tender Asparagus. It grows about 2½ feet high, the stalks are thick and broad like Rhubarb, the leaves are much larger than those of the regular Swiss Chard, they are very finely crumpled like Savoy Spinach. Crisp and tender, pleasing flavor. Pkt. 10c. 1/2 Oz. 2 Oz. 45c. 1/4 Lb. 75c. 1/2 Lb. $1.25. Lb. $2.50. Postpaid.

Big Success in Several Ways

On August 7, 1917, Mr. B. J. Eoder, of Frederick Co., Md., wrote: "In regards to your Deep Blood Beauty Beet I think I found some a big success in several ways. First, quick maturity; second, uniform size; third, deliciously tender. My wife claims they are the best of all the Beets I have ever grown. Personally, I intend to plant next season only Deep Blood Beauty variety. As to weather conditions, same has been favorable here, to garden truck especially."

No Better Endorsement is Needed

On August 10, 1917, Mrs. L. C. Barre, of Richland Co., S. C., wrote: "In regards to your Deep Blood Beauty Beet I think we have grown them every year for perhaps 5 or 10 years, no better endorsement of this particular variety is needed."
Bolgiano's “Big Winner” Wakefield Cabbage

25. Several years ago we introduced the Big Winner Wakefield Cabbage and it has become very popular with Cabbage growers both large and small. It is as large as the Big Charleston Wakefield Cabbage and as early as the Early Jersey Wakefield. Handsome in appearance, massive and graceful. The heads are solid and heavy, making a perfect shipping Cabbage. It is fine form and in flavor deliciously good when the Wakefield comes in, large, thoroughly matured, solid, round, flat heads. In quantity it is the “New Leader,” the heads of the leaves are extremely fine; its rapidity of maturing, compact growth, gives it a flavor unequaled. The demand for such a Cabbage in Northern Markets is becoming greater and greater each year. People want an extremely early slow-heading Cabbage. The “Leader” supplies their wants. Pkt. 10c. ½ oz. 30c. Oz. 50c. 2 oz. 95c. ¼ lb. $1.75. ¼ lb. $3.25, lb. $6.00. Postpaid.

Extra Early Express Cabbage
Suitable for Market Gardeners for Very Early Crops—10 Days Earlier than the Wakefield

27. What pleasure there is in growing a uniform attractive, solid crop of Extra Early Cabbage! Bolgiano’s Extra Early Express is the best Extremely Early Cabbage on Earth. Praised in all its merits come from the most experienced growers. They remember a good thing when they plant them. Earliest, uniform, solid, fine color, brings top prices. No soft heads, 10 days earlier than the Wakefield. Pkt. 10c. ½ oz. 30c. Oz. 50c. 2 oz. 95c. ¼ lb. $1.75. ¼ lb. $3.25, lb. $6.00. Postpaid.

Bolgiano’s “New Leader” Cabbage

26. An early as the Wakefield, yields 12,000 heads, or one-third more per acre than any other extra early Cabbage. The outer leaves are so few and so small that they can be planted very close. The heads are compact and solid from time a head is formed and keeps so until thoroughly matured, thus enabling extremely early cutting of small hard heads, or later when the Wakefield comes in, large, thoroughly matured, solid, round, flat heads. In quantity it is the “New Leader,” the veins of the leaves are extremely fine; its rapidity of maturing, compact growth, gives it a flavor unequaled. The demand for such a Cabbage in Northern Markets is becoming greater and greater each year. People want an extremely early slow-heading Cabbage. “The Leader” supplies their wants. Pkt. 10c. ½ oz. 30c. Oz. 50c. 2 oz. 95c. ¼ lb. $1.75. ¼ lb. $3.25, lb. $6.00. Postpaid.

Bolgiano’s “Square Deal” Cabbage

Bolgiano’s New “Square Deal” Cabbage—The Best on Earth

134. Without a single exception, Bolgiano’s New “Square Deal” Cabbage is the Best Cabbage ever offered the American Grower. It is a strong assortment—at least 100,000 people will read it, so you can read it. We could not afford to make such a statement unless we were sure of our ground. The “Square Deal” Cabbage matures immediately after New Leader Cabbage. It is absolutely a “Square Deal,” as we have seen ten fields without a single irregular head. The uniform heads are of excellent size for shipping, larger than the New Leader and yet not so large as to be unwieldy. The color is a fine fresh green and is retained during long shipments. The heads are solid and compact with very few outer leaves. For a fine Solid, Tender, Uniform, Early Flat Cabbage, Bolgiano’s New “Square Deal” Cabbage is the best in the world. The demand for a fine Cabbage of this character led us by the most rigid and careful selection, during the past five years, to mature this Cabbage, which we are confident will give all our friends and customers a “Square Deal” every time. Pkt. 10c. ½ oz. 30c. Oz. 50c. 2 oz. 95c. ¼ lb. $1.75. ¼ lb. $3.25, lb. $6.00. Postpaid.

Bolgiano’s “Ring Leader” Cabbage
Ensemble Distinct—The Most Magnificent and Most Profitable Main Crop Cabbage Ever Created

65. By crossing Bolgiano’s “Square Deal” Cabbage with Bolgiano’s Extra Flat Dutch, we produced this wonderful new Cabbage. For five years we have most carefully selected and reseeded the finest specimens of this Grand Cabbage, until now we have a stock that is going to make every wide-awake grower of Cabbage in the country marvel at its remarkable features. It grows strong and vigorous, being entirely wormproof. It has a dark bluish green color, showing a thrifty, robust constitution. It forms very large, hard, thick, solid, flattened heads, uniform in shape and color, and of a handsome appearance. The stem is smooth and bears under the head, but tapers off to a point where it enters the ground. “Ring Leader” Cabbage heads are very large, solid, and of most excellent quality and delicious flavor, entirely free from any features of course. The outer leaves are large, and the inner leaves have a rich flavor. The heads are firm and hard, extra good keepers, splendid shippers, and most popular sellers. Pkt. 10c. ½ oz. 30c. Oz. 50c. 2 oz. 95c. ¼ lb. $1.75. ¼ lb. $3.25, lb. $6.00. Postpaid.

“Copenhagen Market” New Early Danish Cabbage

266. As Early as Charleston Wakefield. This new Cabbage is very heavy and solid, like the Danish “Ballhead” type of Cabbage; makes a fine, large, globe-shaped head with well-developed outside leaves, but is much earlier in maturing than any of the Danish Cabbage and makes for us a fine second-year variety, coming in about two weeks later than the “Early Jersey Wakefield”. The heads weigh 14 to 16 pounds each. The seed is very scarce this year. Pkt. 10c. ½ oz. 50c. Oz. 95c. 2 oz. $1.00. ¼ lb. $1.85. ¼ lb. $6.50. Postpaid.
“Scarlet Mammoth” Pepper

The largest, earliest maturing and most productive, very large sweet pepper. The plant is vigorous and upright, growing larger than that of the Chinese Giant and produces much more fruit. The fruits ripen earlier than any of the very large sorts on the market, and average heavier, as the flesh is unusually thick. Color deep crimson when mature; flavor very mild. We consider this without a doubt the most desirable very large Pepper yet introduced. Pkt. 10c. 1/2 Oz. 75c. 1/2 Lb. $2.75. 1 Lb. $5.00. 2 Lbs. $9.00. Postpaid.

World Beater
A Grand New Variety.

It is a cross between Chinese Giant and Ruby King, having the shape of the Ruby King, except that it is broader at the pointed end and almost the size of the Chinese Giant. It is far more prolific than Chinese Giant, some plants producing as high as twenty-four marketable peppers, and it is fully as early as Ruby King. It is exceedingly mild and can be sliced and eaten raw without any fear of burning. Color of fruit green at first, turning to a beautiful shade of scarlet. The flesh is thick, which enables it to hold up a long time and makes it an excellent shipper. Pkt. 5c and 10c. 1/2 Oz. 10c. Oz. 75c. 2 Ozs. $1.50. 1/2 Lb. $2.75. 1 Lb. $5.00. 2 Lbs. $9.00. Postpaid.

Early Prolific Neapolitan Peppers

New Early Large “Neapolitan” Pepper

The Earliest of All Large Mild Peppers

From seed started February 15, and plants set out May 20, the first Peppers were picked for market on June 21. These first fruits measured four inches long and four and a-half inches in circumference; the later fruits are slightly larger—see illustration from a photograph. No other large Pepper develops so quickly—by ten days to two weeks.

The strong, vigorous plants grow 2 feet high by 18 inches across; they are completely laden with large, handsome fruits, and bear continuously until frost. Single plants carry from 35 to 50 marketable fruits at one time. The Peppers grow upright until they become so heavy that their own weight turns them down. The skin and flesh are bright red; they are thick and meaty and “mild as an apple;” they carry well and keep in prime condition a long time. So unusually productive is this variety that twelve plants will furnish an abundance of red and yellow fruits for a family throughout a season. Pkt. 10c. 1/2 Oz. 10c. 0z. 75c. 2 Ozs. 90c. 1/2 Lb. $1.60. 1 Lb. $2.55. Lb. $5.50. Postpaid.

Mammoth Ruby King Pepper

Extra Selected Stock. This magnificent variety is now recognized as one of the best Red Peppers for market or family use. Pkt. 10c. 1/2 Oz. 10c. Oz. 75c. 2 Ozs. $1.50. 1/2 Lb. $2.75. 1 Lb. $5.00. Lb. $9.00. Postpaid.

Chinese Giant Pepper
“Cream and Honey”—Bolgiano’s New Extremely Early Sugar Corn

1192. The name of this new luxury among table delicacies immediately carries the mind back to the “Promised Land” flowing with “Milk and Honey.” Our efforts to bring you a rare treat have never been so abundantly rewarded as they are in our successful production of this surpassingly delicious flavored Sugar Corn. If you appreciate and enjoy the best things the garden grows, then start a patch of “Cream and Honey” Sugar Corn. Plant it the same time you do Early Adams Corn; although it is a pure and true Sugar Corn it is so wonderfully hardy it will stand the hard knocks of early Spring. Rich, delicious, sweet flavor, beyond comparison with any Sugar Corn; earliest of all Early Table Cobs, of wonderfully fine quality. Grows 4 feet high; ears 3 to 4 inches long and 2 to 3 ears to the stalk; can be planted quite close in the rows.

“California Golden” Country Gentleman Corn

1136. This corn is a wonderful combination of the “Cream and Honey” and the well-known “Country Gentleman” Sugar Corn. Could you possibly think of anything more delicious to eat than the good qualities of these two Cobs combined into one? The kernels are long and pointed and are borne on a very slender cob in zig-zag rows. The kernels are light yellow, but cook to a bright golden yellow. Stalks grow 5 feet high, with 1 ears, Ears 3 to 6 inches long. Delicious, sweet and tender. Early as the “Cream and Honey.”

Early “Butter-Nut” Sugar Corn

1005. Yields from 3 to 6 ears on each stalk. One of the most delicious Sugar Cobs grown. Kernels plump, pearly white, milky and so tender they fairly melt in your mouth. It is deliciously tender, even when a little old. Ears average 8 to 10 inches long. Cob small, plump and filled with big kernels, good quality. Per Ear 15c. Dоз. Ears 1.75. Pkt. 10c. Qts. 35c. 2 Qts. 1.25. 4 Qts. 2.25. Pk. 4.00. Bu. 16.00.

“Country Gentleman” Sugar Corn

1106. White as snow and 3 days earlier than Stowell’s Evergreen. 2 or 3 beautifully shaped ears to a stalk. Deliciously flavored and a delight to eat. Each ear has 10 or more rows of large, tender plump white kernels. Being Snow-White it is extremely attractive when served on the table. When put up in cans it retains its whiteness and does not have that yellowish edge of the regular Stowell’s Evergreen. Stalks straight and vigorous, 6 to 6 feet high. Ears are uniform, very large and completely filled to the tip. Market gardeners, canners and all who know Sugar Corn will pronounce “Bolgiano’s Snow-White Evergreen” the best Corn on the market. Ear 20c. Dоз. Ears 4.25. Pkt. 10c. Qts. 65c. 2 Qts. 1.25. 4 Qts. 2.25. Pk. 4.00. Bu. 16.00.

Bolgiano’s “65-Day” Corn, White Cob

1194. A new and late variety of Sugar Corn. We have been growing this Corn for many years and have found it a splendid variety. It is a late Corn, and matures at the same time as the late Evergreen Cobs. The Cob is large and filled with big kernels, good quality. Per Ear 10c. Qts. 1.00. Pkt. 10c. Qts. 25c. 2 Qts. 75c. 4 Qts. 1.40. Pk. 2.50.

“Truckers’ Favorite” Sweet Corn

1222. A new and late variety of Sweet Corn. It is a late Corn, and matures at the same time as the late Evergreen Cobs. The Cob is large and filled with big kernels, good quality. Per Ear 10c. Qts. 1.00. Pkt. 10c. Qts. 25c. 2 Qts. 75c. 4 Qts. 1.40. Pk. 2.50.

California Golden Country Gentleman Sugar Corn
Bolgiano's “Prosperity” Cucumber

17. We are not surprised from our careful observation of this wonderful new White Spine Cucumber in our Test Gardens during the last six years that it immediately jumped into the utmost favor with the Shippers, Market Gardeners, Private Gardeners and Home Gardeners. Its good qualities have never been equaled.

As to Color—Intense, rich, deep green color, which it retains during a month longer period of growth than any other Cucumber. The flesh is sparkling white.

As to Earliness—The Earliest White Spine Cucumber, bearing from the earliest to the latest season.

As to Flavor—Most refreshing and delightful flavor, being delicate and entirely devoid of the latter taste so frequently noticed in other varieties.

As to Shapeliness—Uniformly large, symmetrical fruit. Handsome and most attractive; runs very close to type. In symmetry of form it is so regular, so uniformly one like the other, as to create favorable comment wherever it is seen. Bears no misshapen fruit or clubs.

As to Productiveness—Very prolific. A great and continuous producer.

As to Quality—Ideal for slicing; flesh compact, fine grained, exceedingly brittle and crisp.

As to Vines—Vines are vigorous, healthy and mildew-proof.

Pkt. 20c. Oz. 15c. 2 Oos. 25c. ½ Lb. 40c. ½ Lb. 75c. Lb. $1.25. Postpaid.

A Fine Crop in a Bad Season

On August 20, 1917, Mr. R. T. Reeves, of Mt. Denis, Ontario, Canada, wrote: "I cannot speak too well of your Prosperity Cucumber seed I got from you this year. It is doing first rate under dry weather conditions. It is the biggest crop of Cucumbers I ever had. We had lots of rain when the seed was sown, but we have had it very dry for this last five weeks or more. We are seeing rain very bad. I must say that all the seeds I get from you seem to turn out good."

Bolgiano’s “Lord Baltimore” Cucumber

The Wonderful Dry Weather Cucumber

82. Think of producing a good crop of the handsomest and most profitable long, dark green Cucumbers you have ever seen during one of the driest Summers on record—that’s what was done last Summer by those who tried our “Lord Baltimore” Cucumber. It just don’t pay any attention to dry weather, but goes on growing and producing beautiful fruit. The “Lord Baltimore” Cucumber is of the true white spine type, about 15 inches long, very dark green and of exceptionally fine flavor. The sturdy drought-resisting vines produce enormous crops of beautiful firm crisp and delicious flavored Cucumbers. The pure white attractive flesh composes most of the fruit, leaving an extremely small space for the seed. If you have failed to get a crop with other Cucumbers, “Lord Baltimore” will not only produce a crop for you, but will produce a crop you will be proud of. Our supply of “Lord Baltimore” Cucumber Seed is limited, so if you want any, please place your order early. Pkt. 5c and 10c. Oz. 15c. ½ Lb. 25c. ½ Lb. 60c. Lb. 1.00. Postpaid.

New Klondike Cucumber

135. This valuable variety is one of the best slicing, and will produce Cucumbers equal in appearance to the hot-house grown specimens. The color is rich dark green, and the fruits grow to a uniform size, measuring about 7 inches in length and 2 inches thick when in good condition for use. It matures early and continues bearing for a long time and the vines make such a healthy and vigorous growth that they produce a good crop even in poor season, when many other varieties fail on account of unseasonable weather. Pkt. 5c. Oz. 10c. ½ Lb. 25c. ½ Lb. 45c. Lb. 85c. Postpaid.

New Davis Perfect Cucumber

544. Davis Perfect Cucumber resembles a hot-house Cucumber so closely that dealers cannot tell the difference, it being equally good for hot-house or outdoor culture. It is ideal in shape, rich, dark green color, uniform and regular in size. It’s exceedingly tender, and as a slicing Cucumber for the table is unsurpassed. It is almost seedless one-third of its length from the stem end, and the seeds contained in it, when in slicing condition, are so small and tender that they are almost unnoticed. Exceedingly productive. Pkt. 5c. Oz. 10c. ½ Lb. 25c. ½ Lb. 45c. Lb. 85c. Postpaid.

The Wonderful New Lemon Cucumber

342. Every family garden should have several hills of this delicious Cucumber, having tasted it once you will prefer it to the common Cucumber. We are safe to predict that the Lemon Cucumber will become a great favorite as a table delicacy. It’s an excellent slipper, as proved at Spring, when it appeared on the market ahead of all other varieties. We shipped a box to Chicago, it was four days in transit and retained its crispness for several days after its arrival. Pickled as a gherkin it is delicious. Eight hills will supply the table for ten in family all season, besides furnishing plenty for pickling. Pkt. 10c. ½ Oz. 15c. Oz. 25c. ½ Oos. 45c. ½ Lb. 75c. ½ Lb. $1.35. Lb. $2.50. Postpaid.
Bolgiano’s Early Fortune White Spine Cucumber

The Great Money-Making Cucumber. The Ideal Cucumber for Home or Market
The Earliest, Best, Rich Dark Green, White Spine Cucumber on Earth
Bolgiano’s Early Fortune White Spine Cucumbers All Pack Fancy
and are Far Superior to other Sorts

First Shipments of Early Fortune bring from $3.50 to $4.00 per Hamper

You Can Always Depend on Early Fortune

84. Thousands of expert growers everywhere have proven by actual test that Bolgiano’s Early Fortune Cucumber is the earliest and by far the best, rich dark green White Spine Cucumber on Earth. Early Fortune is the Best Cucumber for table, Market or Shipping purposes. It is the greatest producer of all varieties and at all stages of its growth it is a model in shape, being the handsomest and most attractive Cucumber ever grown. The exquisite color of its skin is retained during a much longer period of growth than any other variety; it is so regular in form, one so much like the other, growers marvel at the purity and trueness of our stock—in fact, in selecting our Stock Seed these Cucumbers are so perfect it is almost impossible to say which is best. The quality is superb, flavor delicate, refreshing and delightful, entirely free from any bitterness; being fine-grained, the flesh compact, it is exceedingly crisp and brittle, making it an ideal slicing Cucumber.

As a shipping Cucumber “Early Fortune” cannot be surpassed, as it holds up in color and quality longer and better than any other variety.

Early Fortune for Main Crop

On August 4, 1917, Mr. E. B. Van Camp, of Pinellas Co., Fla., wrote: “I planted your Early Fortune Cucumber Seed exclusively last Spring. My first planting was frozen down on February 2nd, which made my crop a little late, as we had little rain during the Spring. I had few calls and much of the crop graded fancy. Will stick to the Early Fortune for my main crop.”

After Ten Years’ Trial

On July 17, 1917, Mr. V. Linden, of Hillsborough Co., Fla., wrote: Your Early Fortune Cucumber did well considering the dry Spring we had. Have been planting a few Fortune Cucumbers every year since we have bought seed from you—for 10 or 12 years now—and have never had any fault to find with your Fortune Cucumber.

Planted Two Weeks Later—Shipped Same Time

On August 5, 1917, Mr. M. W. Daniels, of Brow Co., Wis., wrote: “I have had your Early Fortune Cucumber Seed for the last six years and find them O. K. for earliness and production.

Early Fortune Best in Thirty Years’ Trial

On July 17, 1917, Mr. H. J. McCullay, of Marion Co., Fla., wrote: “This season was my first experience with your Early Fortune Cucumber. They are a good bearer and I consider did fine under the weather conditions. They are of a uniformity in size and have the deepest green color of any Cucumber I ever saw with my 30 years of experience growing Cucumbers. They are a little earlier than any Cucumber I have ever planted. Don’t think anyone would make a mistake by planting the Early Fortune Cucumber.”

Bought $3.50 Per Hamper on New York Market

On June 25, 1915, Mr. James Armadon, of Volusia Co., Fla., wrote: “Bolgianos’s Early Fortune Cucumber Seed turned out fine. Produced the finest Cucumbers that I have ever seen. I sold 50c. per dozen right here at home, and shipped some to New York to Mr. John N. Voorhees on the 27th day of May, and they sold for $3.50 per hamper.”

Bought $3.00 Per Hamper in Baltimore

On June 15, 1916, Mr. Thomas H. Chapman, of Brunswick Co., Fla., wrote: “I expect to order on to fifteen pounds of Bolgianos’s Early Fortune Cucumber Seed this Fall, as they proved to be the best Cucumber raised here this season. All packed fancy stock and were far superior to other brands planted here. Weather on crop was very dry and cold. Schley and Richard-son, Baltimore Commission Merchants, bought from me here at $2.50 to $3.00 per hamper all season.”

Bolgiano’s Green Mountain Triple Parsley

A Table Adornment of Rare Beauty

221. Never before have we been able to offer to the public a gift of Nature equal to our beautiful Green Mountain Parsley. Always alert, always ready to appreciate any seed of exceptional merit, we saw that everybody would want our New Green Mountain Parsley when they heard of its wonderful beauty, Hardy, immensely productive, deep velvet-green. The leaves are densely curled and borne in abundance. It is exceptionally easy to grow, and with very little care everybody can have the finest flavored Parsley in cultivation. If you want a real superior you can raise sufficient Parsley to supply your table with decoration and your soup with fine fresh flavor. Pkts. 5e and Dec. Oz. 25c. ½ lb. 75c. Lb. $2.50. Postpaid.

Produced a Splendid Crop

On November 8, Mr. William H. Perkins, of Washington Co., Md., wrote: “The Green Mountain Triple Curled Parsley bought of you last March came up fine and did very well. We had an extremely severe drought, which stopped it growing for a while, but later it freshened up and we had lots more than we could have reasonably expected.”
"Long Potted" Alaska Peas

1087. An entirely new, vigorous, Extremely Early, handsome, long-potted, deliciously flavored Alaska Pea. It has become extremely popular, for it has all the good qualities of our Famous Extra Early Alaska Pea and in addition it has a well filled pod almost twice as long, which fills the basket in half the time, and while it is not a distinctly sugar pea yet it has a much sweeter flavor than the Alaska. It is an abundant yielder. Our supply of seed is limited, so place your order early.

Pt. 10c. Qt. 35c. 2 Qts. $1.25. 4 Qts. $2.25. Pak. $4.25.

"My Those Peas"

On August 24, 1917, Mrs. S. C. Brewer, of Carroll Co., Md., wrote: "In regard to Bolgiano’s Long Potted Alaska Peas I wish to say I began planting as soon as the ground was at all fit, and continued plantings two weeks apart until I had four different lots, all about two weeks apart in rotation. As the Spring passed along we failed to get rain for quite awhile. Bolgiano’s Long Potted Alaska Peas grew all the same. The amount of these long, healthy vines and peapods coming into my place would say ‘My Those Peas.’ We had quite a quantity of the finest and most delicious Peas. Each planting came along gradually and we had Peas for quite awhile. The first planting was several inches high when the big snow of March came, but this did not hurt them a particle."

Bolgiano’s New Pea—"The Hustlers"

1029. By crossing our Extra Early Alaska Peas with our Long Potted Alaska Peas we have secured this wonderful new Pea—it has developed the good qualities of both parents and is sure to become very popular as soon as its great value becomes known. It is as early as the Extra Early Alaska, pods as long as the Long Potted Alaska. A magnificent, thrifty, vigorous grower, it is literally loaded with handsome pods, which retain their fresh showy color, and have ample, lumpy in shipment than either of its parents. Being an entirely new blooded strain it is very uniform in growth. For three years we have been growing "The Hustlers" and in our seed stock this year we have been forced to value to value higher the vast money-making possibilities that are in this Pea, for both market gardeners and Southern Shippers. It is a very successful variety for the home garden. The beautiful, rich green seed Peas will justly lead you to expect great things of "The Hustlers. We have endeavored to grow enough seed to meet the requirements of our trade, but to be sure of some of them this season, we hope you will order as early as possible.

Pkt. 10c. Pt. 35c. Qt. 65c. 2 Qts. $1.25. 4 Qts. $2.25. Pak. $4.25.

Bolgiano’s "100% Profit" Peas

1218. This is the most marvellous Pea ever introduced. Only grows one foot high, but quickly produces an abundance of immense beautiful long green pods, filled with large delicious Peas. "100 Per Cent Profit" Peas are much earlier, dwarfer, more prolific, deeper green color, and more delicious in flavor than either the Thomas Lowson or the Gradus Pea. It is certain a wonder. "100 Per Cent Profit" Pea will make a lot of money quickly for the market gardener and shippers to northern markets. As a Pea for the home garden it is beyond description. No Pea has ever approached it in earliness, abundance, delicious flavor. 1/2 Pt. 25c. Pt. 10c. Qt. 75c. 4 Qts. $2.25. Pak. $5.00.

"Good Luck"

Bolgiano’s Iew Extremely Early Prolific Pea. 1. Almost as early as the Extra Early Alaska Peas. 2. On same land will yield 100 bushels to every 50 bushels of the Alaskas. 3. Single plants contain 10 to 50 well developed pods. 4. Pods one-half longer than Alaska pods. 5. Pods are a deep green color. 6. Plants strong and vigorous. 7. Deliciously flavored. S. Pea slightly larger than Alaskas. 9. Supply extremely limited. Pkt. 10c. Pt. 35c. Qt. 65c. 4 Qts. $2.25. Pak. $5.00.

"Wonder Worker"

Bolgiano’s Earliest Wrinkled Pea

1083. The most delicious Pea you have ever eaten. They fairly melt in your mouth. If you have ever eaten a "Wrinkled Wonder Worker" Pea you don’t know what a good Pea tastes like. Six weeks from planting, this wonderful delicious Large Wrinkled Pea can be marketed. In earliness, great size and excellent flavor it is unequalled. The vines grow 2½ feet high, and are very hardy, resisting pests and cold weather. It bears an abundance of large, deep green pods. It is claimed the Wonder Worker Peas are superior in earliness, hardness, and large size pods to the Gradus or Prosperity Peas. It is the finest Pea yet introduced. Pkt. 10c. Pt. 35c. Qt. 65c. 4 Qts. $1.00. 4 Qts. $1.50. Pak. $3.50. Bu. $14.00.

Gradus, or Prosperity Peas

1072. $3.60.00 made from one peck of Peas is remarkable, but that is what one market gardener netted. I planted the same day side by side with the earliest of the Extra Early Peas, this delicious large, wrinkled Pea will mature at exactly the same time. The extra large, dark-green pods quickly fill a bushel box or basket, and readily retail around $2.50 per bushel when the Extra Early varieties bring $1.50 per bushel. It withstands an extraordinary amount of cold and wet weather, so plant it early and your returns will surprise you. It matures and is marketed before the Pea loses its chance at it. Besides being so attractive, the sweet, delicious flavor and excellent quality bring back a customer who has once bought them. Pkt. 10c. Pt. 35c. Qt. 65c. 4 Qts. $1.80. Pak. $3.25. Bu. $13.50.

"Cracker Jack"

Bolgiano’s Second Early Wrinkled Pea

"CRACKER JACK" continues to bear an abundance of most delicious Peas, when all other varieties are dried up from the hot Sun of the early summer.

1089. A wonderful yielder. 2. Vines 2 feet 2 inches high. 3. Growth hardy, robust and vigorous. 4. Extremely large pods, have a handsome dark-green color and are home even more abundantly than on the Dwarf Prolific Green Marrow Pea. 5. Ready for market just as the Wonder Worker Peas are over. 6. If planted a little late will stand the warm weather excellently. 7. It Pea market gardeners have been looking for, and it’s a "Cracker Jack." Pkt. 10c. Pt. 35c. Qt. 65c. 4 Qts. $1.80. Pak. $3.25. Bu. $13.50.

"Cracker Jack" Peas

After Five Years’ Trial

On August 1, 1917, Mrs. H. C. Lynch, of Washington Co., Md., wrote: "I have been buying the 'Cracker Jack' Peas from you for the past five years and I cannot give them too much praise, as for the ground second Pea I ever saw, and the best flavored Peas I ever tasted. Everybody who saw them wanted to know why it was that I had the healthiest and largest Peas they had ever seen. One old gentleman had his planted two weeks before I did mine, but I hast Peas to eat two weeks before him. He wanted to know why. I told him what kind they were and he wanted to buy seed like them another year. I have had four people to ask me to order for them this same kind of seed another Sprig. My garden is hit and dries out quick, but I find the 'Cracker Jack' Peas come out strong and dry weather. We had a severe dry spell when mine were planted but they turned out grand and I will have on other."
Bolgiano's "Millionaire" Lettuce

The Earliest Fine Large Solid Head Lettuce On Earth. Very Hardy. Produces Handsome Crops Either Out of Doors Or Under Glass

100. This valuable new Lettuce is an extremely profitable variety for both Market Gardeners and Shippers to grow. It is a very solid, delicious variety for the Home Garden. If we could meet every one of our customers face to face we would persuade each one of them to love the "Millionaire" Lettuce. It is the very first thing this Spring. We recommend it unreservedly as one of the best Lettuces, and one of the most profitable that has been grown anywhere. It is a very quick growing, hardy Lettuce and will stand much damp, cold weather. "Millionaire" Lettuce can be planted outdoors or under glass, and in either case will produce fine round compact heads 6 to 7 inches in diameter, which weighs from 1 to 10 ounces, much sooner than any other variety. It is an excellent market variety, the heads are a clear, light green, the outer leaves slightly tinged with brown and closely folded around the head, making it all head; the inner leaves are a clear, bright, rich golden yellow. In quality "Millionaire" Lettuce is unequalled. We strongly recommend it to our customers, who grow for the house market. We have tried it in Spring, Summer, Fall and have even Wintered it outdoors here in Baltimore. It is a sure leader, good seller, excellent shipper, hardy and always reliable. Color is bright, leaves are golden. Plants large, compact, firm heads. The leaves overlap each other, forming a beautiful well-branched head. The leaves are large, compact, firm heads. The leaves overlap each other, forming a beautiful well-branched head. We strongly recommend "Best of All" Lettuce to our customers. Pkts. 5c and 10c. Oz. 20c. 2 Ozs. 35c. ½ lb. 60c. 1 lb. $1.00. Postpaid.

Bolgiano's "Tender and True" Lettuce

Found Tender and True Very Satisfactory

On July 24, 1916, Mr. H. E. Shaw, of Lenox Co., N. C., wrote: "Am glad to have tried your Lettuce, Tender and True, and found it very satisfactory; indeed, although the weather was dry, having planted about the 10th of March, it remained fine and tender. In fact, we found it just what you claimed it to be and shall be glad to plant it again."

Bolgiano's "Best of All" Lettuce

131. This grand New Lettuce truly deserves the name "Best of All," for it has certainly proven to be "Best of All" Lettuces in our trial grounds. It matures just after "Millionaire" when planted early, but can be planted at any time. It is especially desirable for a late Spring or early Summer crop, as it will not shoot to seed as early varieties often do. We have tried it in Spring, Summer, Fall and have even Wintered it outdoors here in Baltimore. It is a sure leader, good seller, excellent shipper, hardy and always reliable. Color is bright, leaves are green. Plants large, compact, firm heads. The leaves overlap each other, forming a beautiful well-branched head. The leaves are large, compact, firm heads. The leaves overlap each other, forming a beautiful well-branched head. We strongly recommend "Best of All" Lettuce to our customers. Pkts. 5c and 10c. Oz. 20c. 2 Ozs. 35c. ½ lb. 60c. 1 lb. $1.00. Postpaid.

Bolgiano's "Frozen North" New Lettuce

112. This new Lettuce is so good it will make your mouth water—its silver white leaves are as crisp and brittle as the finest Celery, forms very large, hard head 12 inches across and will not run to seed for an extra long time. "Frozen North" Lettuce will produce successful crops of tightly folded crisp heads, 6 to 8 inches in diameter during Spring, Summer, and Autumn. In the hottest summer months it retains its crispness and mild flavor. It is very showy and inviting in appearance; the outer leaves are a soft, bright green. As a home and market Lettuce it is delicious and valuable, but it is too crisp and tender to ship long distances. Pkts. 5 and 10c. Oz. 20c. 2 Ozs. 35c. ½ lb. 60c. 1 lb. $1.00. Postpaid.
Indian Chief

"Indian Chief"—Bolgiano's Remarkable New Delicious Watermelon

172. Victory is sure for this grand new Watermelon. It has more successful qualities than any other melon ever grown. If you are a grower of Watermelons, this new Melon offers you an opportunity to coin money, such as you have never had before.

"Indian Chief" is entirely different from all other varieties. It is large, oblong, dark-green Melon, with a thick netting all over it. The rind is thin but tough. The flesh is a bright, attractive red. The flavor is delicious, sweet and satisfying. It is very productive, a perfect shipper, the quickest and best seller that has ever been placed on any market. As a table melon it always brings repeat orders. In fact, as a first-class melon it is ideal. Seed is limited; demand will be heavy, so order quick. Pkts. 5c and 10c. Oz. 15c. 2 Oz. 25c. ½ Lb. 35c. ½ Lb. 60c. Lb. $1.00. Postpaid.

Goliath”—The New Giant Watermelon

Immense Size, Extremely Productive, Rich Deep-Green Color, Excellent Quality, Splendid Shipper

146. These beautiful melons will average around 50 pounds; an 80-pound melon can often be found. Its attractive, rich, dark-green skin quickly proves to the experienced market man its excellent selling qualifications. Its wonderful productivity and giant size quickly indicates its ability to produce handsome profits. As a shipper it rivals the Kohl Gem, even surpassing this old standard variety on account of its earlier ripening. This new Watermelon unquestionably destined to be one of the greatest leaders and most popular melons ever developed and placed in the growers and shippers' hands; in addition to this it will soon win the esteem of the market gardeners located near the large cities; also it cannot be excelled in the home garden. "Goliath" is not only a giant in size, but it is a giant in Delicious Table qualities and market qualities. Our supply of seed is limited, so please order this Watermelon early. We don't like to disappoint. Pkts. 5c and 10c. Oz. 15c. ½ Lb. 30c. ½ Lb. 60c. Lb. $1.00. Postpaid.

Bolgiano's Black Striped Kolb's Gem Watermelon

Famous Anne Arundel County Stock

174. Ten Points of Merit: 1. A fine shipper. 2. Melons uniformly large. 3. Thick, oval form. 4. Color is a rich, dark green with fine stripes of lighter shade. 5. Much darker and richer in color than the Kohl's Gem. 6. Flesh rich, deep pink, crisp and melting. 7. Ripens to within 1⁄3 of the rind. 8. Rind is exceptionally strong, making it an excellent shipper. 9. Flavor remarkably sweet and sugary. 10. Our seed has been very carefully saved from the choicest melons. Pkt. 5c. Oz. 10c. ½ Lb. 25c. Lb. 50c. Postpaid.

Bolgiano's Cold Mountain Spring Watermelons

Several years ago we were spending our vacation in the mountains; during our absence one of the leading Watermelon growers, living about 180 miles from Baltimore, wrote us he had for a number of years been developing an extra selected strain of Watermelon, and the results of his efforts had gone far beyond anything he had ever hoped to produce. Were we interested? He shipped us several samples; these came on boat to Baltimore 100 miles, then on the railroad through the mountains 250 miles, reaching us in perfect condition after traveling 350 miles through rough country and roughly handled. These melons attracted the attention of everyone by their beautiful, deep-green color, stately size and excellent shape. We had them on exhibition, then took them with us back into the mountains. We put the melons in a Cold Mountain Spring and in a few hours we cut them. The melons were in perfect condition, "Red to the Rind," and entirely free from stringiness. We immediately inspected and purchased the crop. The Cold Mountain Spring Watermelon is a winner as a shipper, as a table melon and as a Money-Maker. Our supply of seed is necessarily limited and only the seed produced by the originator, so order quickly. Pkts. 5c and 10c. Oz. 10c. ½ Lb. 25c. Lb. 50c. Lb. 85c. Postpaid.

The New "Excel" Watermelon

One of the Best Watermelons Ever Grown

838. Named EXCEL because it excels all others. When Georgia, the greatest Watermelon State in the United States, introduced the Tom Watson melon it was recognized as one of the best Watermelons ever introduced. EXCEL Watermelon for yield, size, profitable growing qualities as well as shipping qualities stands as far above the Watson melon as the Watson stands superior to many of the hyjgene varieties. The Excel is a long, green melon with visible stripes, the most handsome melon ever introduced. It possesses every quality essential to make it the greatest melon ever grown.

Bolgiano's Black Striped Kolb's Gem Watermelon

Extra Selected Proven Stock

215. In the Tom Watson we have a decidedly good thing directly from the State of Georgia, the "Home of the Watermelon," where the Watermelon grows to a greater state of perfection probably than in almost any other part of the United States.

The Tom Watson is an extra long melon of attractive appearance, uniform in shape and quality; the luscious crimson flesh is "as sweet as honey," melting and of superb flavor. The average melon will weigh 35 to 40 pounds and measure 28 inches long and about 12 inches in diameter. Very prolific. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 25c. ½ Lb. 40c. Lb. 75c. Postpaid.
“Junior” Rocky Ford Cantaloupe

16. Without a single exception the biggest Money-Making Melon ever offered. Two weeks earlier, a little larger, twice as productive as Rocky Ford. More thoroughly and deeply netted. Rust and Blight Proof. Packs in crates better and carries better than any other melon. This greatest of Money-Making Cantaloupes had for its parents the exceptionally fine stock of Rocky Ford Melons. It has been bred by our expert growers to be entirely blight and rust proof. “Junior” is a wonderfully prolific yields, single plants producing an average of 16 fine melons. It will develop soft fruit ten days to two weeks before the Rocky Ford. In form it is ideal, being just the right shape to pack to best advantage into crates. In size it is little larger than the Rocky Ford. Its setting is close and deep, thoroughly covering the melon, protecting its keeping and shipping qualities and lessening the loss of weight from evaporation. In quality it is most deliciously sweet and spicy, creating a largely increased demand on account of these excellent points. The seed is very small and well-filled with seed, the attractive, green flesh is thick, smooth and firm, combining together to make it the best melon for carrying long distances that the grower has ever had. Pkt. 5c and 10c. Oz. 15c. 2 Ozn. 25c. ½ Ib. 40c. ½ Ib. 80c. $1.50. Postpaid.

132 Crates Per Acre
On August 11, 1917, Mr. T. F. Horal, of Summer Co., Pkts. seed: “Junior Rocky Ford Cantaloupe” certainly satisfies me better than any other Cantaloupe that I have ever grown. Although we had a very dry Spring, I raised a very great crop, running in size from 20 to 55 Cantaloupes per crate. I shipped 132 crates per acre and they averaged me $2.00 per crate and I had nothing under them but broken ground. All parties that I sold and shipped to seemed to prefer them to any other Cantaloupe. They grow large, red or dry. The large Cantaloupes is what zeta best. I can rest assured that I will order more. This is the best producing Cantaloupe that we have ever grown next Spring.

Bolgiano’s “Melting Gold” Cantaloupe

51. Did you ever eat anything so exceptionally delicious, the very pleasant memory of it often comes back to you? That’s what will happen if you once eat one of Bolgiano’s New “Melting Gold” Cantaloupes. The delicious, tender, golden flesh simply melts in your mouth. It is the sweetest and most delicious melon that has ever been grown. The flesh is thick, very tender and of a beautiful, deep-golden color; it ripens close to the skin, the thin skin is of a rich, dark-green color contrasting attractively with the golden flesh which is exceptionally sweet and tender. The melons are well ribbed and covered with a grayish netting; they are 6 to 7 inches long by 4 ½ to 5 inches in diameter. “Melting Gold” Cantaloupe is an excellent shipper and it is so good that the Eastern Markets eagerly take every melon grown. As a melon for home garden it is the greatest addition its size, maturity, and quality, a melon can be grown. 2 Pkts. 15c. 100 Pkts. 25c. ½ Ib. 40c. ½ Ib. 80c. $1.50. Postpaid.

Henderson’s “Bush” Cantaloupe

334. The only Bush Cantaloupe in the World. Produces an abundance of desirable melons, requires very little ground. A wonderful novelty, everyone should try it. Especially valuable for a small garden. Pkt. 10c. Oz. 30c. ¼ Ib. 80c. $3.00. Postpaid.

New “Knight” or Maryland Cantaloupe

337. This superb green-fleshed Muskmelon has for five successive years broken all records, selling without regard to market conditions for other melons at Norfolk, Va., as well as here in Maryland, where it has a wonderful reputation. In quality, it quite catches all other green-fleshed melons, having a taste that is indescribably delicious with a remarkable aroma. While this melon has had a wonderful reputation around Baltimore and Norfolk markets, it fully deserves to be known over a wide territory. It is slightly pointed at the stem end, while being rather flattened at the blossom end. They grow uniform in shape and size, averaging about six inches in length from stem to blossom, and 4½ to 5 inches in diameter. It is the most valuable sort to plant where there is demand for this melon in great quantities. The large green netting is a great demand by many of the most successful market gardeners and shippers.

Watters’ Solid Net Rocky Ford Cantaloupe

297. This is one of the earliest strains of Rocky Ford Cantaloupes. About 90 per cent of the melons are solid net. This variety set a heavy first crop, so that within a few days after the first melons are ripe, large numbers ripen and heavy pickings can thus be made at a remarkably early time. These melons average about 90 per cent standard size to pack 45 to the crate, 12 x 12 x 24 inches. It is the most valuable sort to plant where there is demand for this melon in great quantities. The large green netting is a great demand by many of the most successful market gardeners and shippers.

Burrell’s Gem Cantaloupe

548. It has a tough, thin rind, well-arched ribs, covered with a closely-laced and interlaced gray netting. The blossom end is protected with a well-developed bud. The melon is a solid net throughout, and is of a size and color that will win favor here. The diameter from stem to blossom is 5½ inches, more than from top to bottom. Flesh of a reddish orange, very thick, fine-grained and spicy. Seed cavity small and triangular, the seed closely held in place in three lobes. The average weight is about 2½ pounds, the length 6 inches and the thickness 4½ inches. The standard crate is 15½ inches wide, 3½ inches deep and 21 inches long, holding twelve melons. About 80 per cent of the crop consists nearly in the above size crates. Pkt. 10c. Oz. 10c. ¼ Ib. 25c. ½ Ib. 50c. $1.50. Postpaid.

“Thoroughbred” Rocky Ford Cantaloupe

157. Oblong, measures from top to bottom four inches; weight, 1½ pounds. Ten distinct ribs covered with a well developed gray netting which is closely-laced and interlaced. The integuments between the netted very smooth. The sutures between the ribs very narrow but well defined from stem to blossom end. Blossom end well developed and smooth. Color of rind in intextures and sutures light green, turning toward grayish white when ready to ship, which is early. The ribs are quite abundant, the diameter from stem to blossom 5½ inches; more than from top to bottom. Flesh of a rich orange, very thick, fine-grained and spicy. Seed cavity small and triangular, the seed closely held in place in three lobes. The average weight is about 2½ pounds, the length 6 inches and the thickness 4½ inches. The standard crate is 15½ inches wide, 3½ inches deep and 21 inches long, holding twelve melons. About 80 per cent of the crop consists nearly in the above size crates. Pkt. 10c. Oz. 10c. ¼ Ib. 25c. ½ Ib. 50c. $1.50. Postpaid.

Bolgiano’s “Honey Sweet” Cantaloupe

A Delicious Improved Strain of Casaba Cantaloupe

127. The juicy, light green flesh frequently measuring two inches thick, entirely stringless and especially juicy in flavor, most tender and practically melting in the mouth. It is as sweet as honey. This delicious flavor extends practically to the very rind. The rind is mottled. The seed is hard and about ½ inch thick. There is no seed cavity. The seeds are imbedded in a jelly-like pulp. Plant the same time you would any other Casaba. When the side of the melon becomes a golden yellow it is ready to take off. By storing in a cold, dark place in sand, being careful not to allow them to touch each other, they can be kept until Christmas. Pkt. 10c. Oz. 15c. 2 Ozn. 25c. ¼ Ib. 40c. ½ Ib. 80c. 1 lb. 1.50. Postpaid.

Hoodoo Cantaloupe

549. Medium size, round shape, of deep orange color, exceedingly luscious. A healthy grower and heavy producer. As a Cantaloupe for the private garden this variety will please all who plant it. Pkts. 5c and 10c. Oz. 15c. 2 Ozn. 25c. ¼ Ib. 40c. ½ Ib. 80c. $1.50. Postpaid.
Mammoth “Prizetaker” Onion

Its Mildness of flavor and Tenderness are Unexcelled Even by the Bermuda Varities. In Size it is not Exceded by the Enormous Varieties from Spain.

Eight hundred to one thousand bushels to the acre, and a single specimen weighing as much as a 6 pounds 2 ounces is one of the things this handsome Globe Onion will produce. It has a bright, clear, true color, and grows a perfect globe-shape. It is by far the handsomest, most productive, most profitable, and best of all Yellow Globe Onions. Large Onions can always be raised in a single season directly from seed. It has always brought much better prices than any other Onion in the market; it never fails to attract attention on account of its beauty, and it has completely taken the place of the large Spanish Onions. The Prizetaker Onion is gifted with strong dormant resisting ability, and we consider this one of its strong merits. People who wish to make money should plant the Prizetaker Onion. It is admitted by the most critical Onion growers to be the largest, finest flavored and most superior Yellow Globe Onion under cultivation. Pkts. 5c and 10c. 1 oz. 25c. Ozs. 50c. ½ lb. $1.75. 1 lb. $3.00. ½ lb. $5.00. Postpaid.

Boligiano’s Prizetaker Onion Seed is the Best

On August 30, 1917, Mr. W. D. Hoffman, of Somerton Co., Md., wrote: “Boligiano’s Prizetaker Onion seed is the best I have ever used. My neighbors will have no others when they can get them. I grow this seed almost exclusively of choice sets for Spring planting from seed bought of you. They are all sold now at the top market price. It pays to plant the best seed. That is why I order from you.”

“Crystal Wax” Bermuda Onion Seed

578. Teneriffe grown. Possesses much finer qualities than the White Bermuda. It is a mild and delicate flavor of a pure crystal white wax color. It quickly produces full grown Onions from the smallest seed. Pkts. 5c and 10c. Ozs. 25c. Ozs. 50c. ½ lb. $1.00. ½ lb. $2.00. 1 lb. $3.50. Postpaid.

Boligiano’s Extra Early Dawn Squash

321. 2, Ten days to two weeks earlier than any other stock of White Bush Squash. 2. Always brings the first Fancy Prices of the earliest market. 3. Extremely productive. 4. Beautiful white color, entirely free from any green cast. 5. Solid and heavy, with small spottiness, making an excellent shipper. 6. Delicious flavor and an excellent cooker. 7. Growth is bumpy with absolutely no runners. 8. A great improvement over all other stocks. Pkts. 5c and 10c. Ozs. 15c. ½ lb. 35c. ½ lb. 70c. Lb. $1.25. Postpaid.

Boligiano’s Hollow Hub Parsnip

210. As we predicted several years ago, when we first introduced the Hollow Hub Parsnip, it has taken the leading place among Parsnips. Its merits alone have brought it so prominently to the front. No Parsnip seed ever offered is grown so carefully as Hollow Hub. Each individual root is carefully selected by hand and critically examined; if it does not come up to the highest standard it is discarded. Hollow Hub Parsnip is hollow crowned to a remarkable degree; it has firm, tender flesh, a delicious delicate flavor, almost entirely without core. In growth it is small and uniform. In fact, Hollow Hub Parsnip is as perfect as it is possible to produce by the most careful selection and breeding. Grow the best, it costs but little more and it pays so much better. Pkts. 5c and 10c. Ozs. 15c. ½ lb. 10c. ½ lb. 80c. Lb. $1.50. Postpaid.

Boligiano’s Great Giant Salsify

275. By far the largest, smoothest, most tender Salsify ever sold to the trucker. Its delicious flavor and attractive appearance bring the buyers and holds their trade. It easily outsells every other Salsify. “For It Is The Best.” It outgrows all other varieties. Truckers who have tried the “Great Giant” Salsify will use it, it is ideal; it is the Salsify they will always grow in preference to all others, for they readily sell all they bring to the market at better prices and much quicker than their neighbors. Grow the best. It pays. Pkts. 5c and 10c. Ozs. 25c. ½ lb. 70c. ½ lb. $1.25. Lb. $2.25. Postpaid.

Extra Early Purple Top Milan Turnip

315. Earliest Turnips in cultivation; a week sooner than any other. Flat, smooth, of medium size, with bright purple top and few leaves. Flesh white and choice, adapted to Spring or Fall. A good keeper.

Pkt. 5c. Ozs. 20c. 2 ozs. 35c. ½ lb. 60c. ½ lb. $1.15. Lb. $2.00. Postpaid.

Extra Early White Milan Turnip

205. Pkt. 5c. Ozs. 20c. 2 ozs. 35c. ½ lb. 60c. ½ lb. $1.15. Lb. $2.00. Postpaid.

Improved Curled Long Standing Spring Spinach

100. Of a perfect, rich, attractive green color, distinct from all other varieties, and easily recognized. Its growth is abundant, and will retain a fresh, luxuriant appearance for three or four weeks after the first killing. All seedling varieties have become yellow and gone to seed. Your early Spring garden will be incomplete without a generous sowing of Improved Curled Long Standing Spinach. This Spinach combines the extremely curled leaf of our Bloomsdale Curled Savoy Spinach and its own unequalled long standing qualities, with a beautiful green which will invariably draw customers your way and bring you the top prices. Our oldest and most popular customers pronounce this Spinach the best they have ever grown for Spring, Summer, Fall or the coldest Winter. From our careful tests we have learned that it will stand the hardiest winters. Spring Spinach, and likewise Spinach, on April 20th for a few weeks longer than March Spinach; but before the middle of June the Spinach will be continuous throughout the entire Summer. The leaves are a rich, dark green color, very thick, cramped and of splendid quality. Pkts. 5c and 10c. Ozs. 20c. ½ lb. 50c. ½ lb. $1.00. Lb. $1.75. Postpaid.
“Tip Top” White Tip Radish

9. We challenge the world on this wonderful and useful distinct new stock of Radish—its beauty and attractiveness are almost beyond description. Results seem almost miraculous as new produced by hybrids who patiently watch, wait and work hand in hand with Nature. Nature’s wonderful artist has painted the tops of each one of these delicious, crisp, tender, round little Radishes a brilliant carmine-red and the bottom a beautiful snowy-white. The contrast is startling and delightfully pleasing. If you have ever hoped for an ideal stock of extremely Early Brilliant Scarlet Globe Radish with a beautiful Snowy-White tip you will find the “Tip Top” White Tip Radish in beauty goes far beyond your greatest expectations. It certainly is a thing of beauty. Pkts. 5c and 10c. Oz. 20c. 1/4 lb. 60c. 1/2 lb. $1.15. Lb. $2.00. Postpaid.

Delicious “Strawberry” Radish

238. A delicious, crisp, brilliant red Radish. The very earliest, often ready for market in less than three weeks. It is a perfect globe shape and so uniform that all the Radishes look like they have been made in the same mold. If you have a home garden nothing will please you more, or give you quicker returns for your efforts than this beautiful Radish. If you grow for market, no matter how many of these attractive Strawberry Radishes you bring to market, you can always sell every bunch of them at prices that will both please and pay you. As a frame Radish it is the best of all because it grows short tops, its brilliant red color attracts and draws customers, who pay high prices for the vegetables. Pkts. 5c and 10c. Oz. 25c. 1/4 lb. 75c. 1/2 lb. $1.35. Lb. $2.50. Postpaid.

Two Weeks To Maturity—French Grown

“Ruby King”—Bolgiano’s Famous Radish

230 Bolgiano’s Extremely Early Ruby King Radish. “KING OF ALL” Extra Early Scarlet Radishes would be an appropriate name for this most excellent Radish. We claim without fear of challenge, Bolgiano’s Extremely Early Ruby King Radish is (without a single exception) by far the MOST BEAUTIFUL Extremely Early Scarlet Button Radish that has ever been brought to any market. The color is a bright, glossy, shining scarlet, and when the dust or soil is washed from it it fairly glows in its brilliant color. No Radishes on earth will mature as quickly as the Ruby King, and have such small foliage. It will stand forcing without becoming in the least pesty. The flesh is delicious, tender, juicy and mild. Equally good for open ground culture as for forcing. It is at its very best when permitted to grow quickly. We have offered this Money-Making Radish for 10 years, and each year our sales so marvelously increase we feel satisfied that the wide awake Market Gardeners are leading the very earliest markets all over the country with the Ruby King Radish. We again place Bolgiano’s Extremely Early Ruby King Radish at the head of all Radishes. Pkts. 5c and 10c. Oz. 20c. 1/4 lb. 50c. 1/2 lb. $1.00. Lb. $1.75. Postpaid.

Bolgiano’s “Long Red Glass” Radish

The Earliest and Best Long Red Radish

230. This is the best of all Long Radishes. It requires deep, well-worked, loose ground, and will quickly grow to beautiful, uniform, long, almost transparent, brilliant red Radish, with a pure white tip. No home garden is complete without it, and those market gardeners who have deep ground will be able to grow the most desirable Radishes they have ever seen with this seed. Pkts. 5c and 10c. Oz. 10c. 1/4 lb. 25c. 1/2 lb. 40c. Lb. 75c. Postpaid.

Bolgiano’s “Pearl White Forcing” Radish

The Earliest and Best Long White Radish

249. In our trial grounds, this most attractive, appetizing, cool, crisp Radish matured in the remarkable short time of 13 days. In size and form it is a duplicate of our famous Glass Radish, but, having a clear, pure white, waxy appearance from top to bottom, is perfectly sound and will remain so longer than any other White Radish. The Early White Vienna, or Lady Finger Radish, does not compare with it. Any trucker once planting this Radish will undoubtedly use it to the exclusion of all other early, long, white varieties. Pkts. 5c and 10c. Oz. 10c. 1/4 lb. 40c. 1/2 lb. 80c. Lb. $1.50. Postpaid.

Short White “Chinese Celestial” Radish

A Grand Fall and Winter Radish

256. New Short White Chinese Celestial Radish. In 1897 we placed this very attractive White Radish in the hands of our truckers and since then we never have had seed enough to supply the demand. It is solid and juicy as an apple; pure white flesh and delicious flavor—a very choice variety. We never sent out a Winter Radish that gained so much popularity in so short a time. Sown any time after July 1 to the middle of August, it will keep all Winter in prime condition; mild in flavor, brittle. Never gets woody as do most Winter varieties. Market gardeners have found it to be a splendid seller and have always made money with it. Pkts. 5c and 10c. Oz. 15c. 1/4 lb. 35c. 1/2 lb. 70c. Lb. $1.25. Postpaid.

Giant Solid “Crimson King” Radish

French Grown

248. Eight Reasons Why This Splendid Radish Should Be Used: 1. Extremely early in maturing. 2. Will remain solid at all times, and will never become hollow or pesty. 3. Bright, deep crimson color. 4. Mildest flavor. 5. Oval in shape and very attractive. 6. Flesh sparkling white, solid, crisp and juicy. 7. Entirely new type, different and far better than any other Radish. 8. Greatest value for both forcing and open ground culture. Pkts. 5c and 10c. Oz. 20c. 1/4 lb. 50c. 1/2 lb. $1.00. Lb. $1.75. Postpaid.
Owing to the unsettled condition of the market on Potatoes it is impossible for us to make prices at the time this Catalogue goes to press. Please write us for lowest quotations on those varieties in which you are interested.

"Plucky Baltimore" Potatoes

On December 11, Capt. E. S. Cooper, of Northumberland Co., Va., wrote: "Plucky Baltimore Potatoes that I bought of you last March were the best I ever planted, although we had it very dry here. They beat every other kind here. I will want more of them next Spring."

**Gray's Mortgage Lifter Potatoes Extra Fine in Florida**

On July 2, 1916, Mr. Veldon Lott, of Lake Co., Fla., wrote: "Regarding Bolgiano's Gray's Mortgage Lifter Potatoes, boy to say they do extra fine here in Florida; in fact, they are a good deal better than the Bliss or Spalding's, No. 4, on the same ground."

**Beat It If You Can**

Mr. Frederick W. Boslin, Harford Co., Md., wrote: From a plot of ground 90 x 100 feet planted in Gray's Mortgage Lifter Potatoes, I harvested 131 bushels of the nicest looking and finest cooking Potatoes I ever saw, and at the same time, on the same piece of ground I grew two rows of Corn. Beat that if you can."

**Best Yielder and Seller**

A. B. Prevatt, Volusia Co., Fla., wrote: "I have given your Gray's Mortgage Lifter Potatoes a good trial and found them to be one of the best yielding and selling Potatoes I have ever grown."

---

**Bolgiano's "Plucky Baltimore" Potatoes**

Bolgiano's Wonderful New Prolific Extremely Early Seed Potatoes

1. Ten days earlier than the Red Bliss Triumph. With the Plucky Baltimore Seed Potatoes which we purchased from you this Spring. They are certainly all they are claimed to be, and are the largest and finest I have ever seen grown. They are the wonder of the neighborhood. The two bags which we purchased from you yielded about 75 baskets. It was from 5 to 9 in a hill."

**Gray's "Mortgage Lifter" Potato**

Mr. Gray has grown several bumper crops of Gray's "Mortgage Lifter" Potatoes; he says they were so large they reminded him of young pigs, and they were certainly splendid sellers at high prices. We wish everyone of our customers who grow Potatoes could talk with the growers who have grown a crop of this Grand New Potato. It certainly is something to marvel at, and yet if all of our customers realized its great value our limited supply would not be a drop in the bucket. It is an early variety, maturing a little later than the Crow's Jewel; it is a pure white, large, handsome size, distinctive in shape, being long, well filled and tapering at both ends. Eyes are strong and well set, not too deeply, however.

It certainly is a beauty and one grower says they grow so large it doesn't take many to fill a barrel; no culls, and by the earload they brought over $20 a car more than the best Potato on the market. Mr. Prevatt of Volusia Co., Fla., after giving this Grand Potato a thorough trial, ordered eight barrels in the place of one he planted last year. Mrs. Wm. G. Harev, of Baltimore Co., Md., calls it the "Farmers' Favorite." Among other names it was called are "Maryland Beauty," "Money-Maker," "Virginia Wonder," "The Excedior," "Gold Standard," "Silver King," etc. We finally selected Gray's "Mortgage Lifter," as suggested by Mr. J. T. Gray, of Baltimore Co., Md., because Mr. Gray actually paid off 4 good size mortgages on his farm with the proceeds from the Wonderful Crop of this Grand New Potato. We hope that the mission of Gray's "Mortgage Lifter" Potato will not be ended until it has helped to clear more farms of their mortgages.

Bolgiano's Prosperity Potatoes

The Best Second Early and Main Crop Potato on Earth

This magnificent Potato has become the most popular middle-crop Potato of the newer varieties, and certainly one of the most worthy. Yields great crops of fine, smooth, large Potatoes, even under the most unfavorable circumstances, and can be relied upon to bring in good money. It is undoubtedly the handsomest large Potato ever produced, and will only outyield any other Potato and practically every Potato of marketable size. It is ahead of all others in yield and smoothness, and is of excellent quality. Every farmer will, after growing this most wonderful Potato a trial, discard every other kind and plant nothing but Bolgiano's Prosperity Potato for his main crop. It grows a very strong, upright top with dark-colored stalks and purple blossoms, and is very little affected by drought, blight or blase. The flesh is as white as snow, and cooks dry and meaty. The eyes are even with the surface, the skin white with rich yellowish-creaminess cast, and considerably ruffled or notice. This Potato will astonish old Potato growers in its abundant yields and fine qualities, and every person who is ambitious to make the most money out of his crop cannot afford to let this year pass without obtaining seed of our crop of New Prosperity Potatoes. Please write us for lowest prices.

Prosperity Three Times Better than the Best

On November 27, 1917, E. Hooper, of Montgomery Co., Pa., wrote: "Your Prosperity Potatoes were planted in the garden side by side with five other varieties and yielded three times as many Potatoes as the best of the others. Three years ago we had Prosperity Potatoes in the garden, it yielded at the rate of 700 baskets to the acre. The quality and appearance of Prosperity far exceeded any of those planted with it."

Planted 5 Barrels—Shipped 100 Barrels

W. L. Mills, Valdosta, Ga., wrote: "I have just finished shipping my crop of Prosperity Potatoes. They beat anything I have ever seen for turnover in fine, large, smooth Potatoes. Planted 5 barrels of the "Prosperity" and shipped 100, making an average of 20 to 1. Shall want more of them another year. We find no other as good or yield so heavy.

"Trust Buster"

Bolgiano's New Extra Early Seed Potato

The great success of this New Potato is assured from the wonderful reports we have received from a large number of expert Potato growers who tried it during the last few years. It has produced most excellent results in all kinds of soil. It is not only early but it is a heavy producer of Potatoes of the very finest texture and quality. "Trust Buster" Potatoes are vigorous growers and prolific yielders of handsome, smooth Potatoes, cream white in color. These Potatoes are uniform in size, color, excellent quality and fine flavor. They are quickly prepared for cooking, as the skin peels readily and they cook dry and meaty. The table qualities are unequalled. Our supply is limited. To avoid disappointment please send in your order as early as possible. We are anxious for you to try this best of All Potato this season. Please write us for lowest prices.

Produces Big Crops Bad Seasons

Wm. Butler, Grant Co., Ind., wrote: "Bolgiano's Famous Prosperity Potato is the best Potato I ever grew, its cooking qualities cannot be beat. It is the best yielder, and does better on poor ground than any other variety, at does better year after year than any other variety, wet or dry season, and you are sure to make a crop if you plant Bolgiano's Famous Prosperity Potato. The big stalky vines are a good thing in wet weather to hold the seeds down after they are laid by, and are a good thing in dry weather to hold moisture in the ground."

Finest, Earliest Potatoes I Have Ever Eaten

On April 25, 1917, Mr. R. W. Jones, of Ontario Co., N. Y., wrote: "I bought a barrel of Bolgiano's Trust Buster Potatoes from you last year, and I think they are the finest, earliest Potatoes I have ever eaten. In just eight weeks after I planted them they were ripe and ready to eat. Can anyone beat that?"

Five Bushels From One Peck

On August 1, 1917, Mr. David F. Faro, of Frederick Co., Md., wrote: "From one peck of Irish Cobbler Seed Potatoes bought from you last January I raised five bushels on ground that was used for a school ground for 20 years. Good, don't you think so?"

Well Pleased with Trust Busters in Virginia

On October 23, 1916, Mr. J. T. Warn, of Prince William Co., Va., wrote: "I am sending you four "Trust Buster" Potatoes, which I have grown from a barrel of Trust Buster Potatoes I purchased from you. These four Potatoes are from a barrel of Trust Busters which I planted July 20, 1916, and they are dug October 20, 1916, Potatoes being dug in 30 days after planting. From one barrel of Potatoes I raised 5,500 pounds of Potatoes. They were grown in Elizabeth City Co., Va."

Nice Size and Good Quality

On November 11, 1917, Mr. S. A. Jarvis, dealer in general merchandise, of Sussex Co., Del., wrote: "I sold the two bags seed Potatoes I bought from you in Spring to the section foreman of this place. He had a lot of about one-half acre where he planted one bag of Prosperity and one bag of Green Mountains. The land was only of medium fertility, but he used good fertilizer and gave them the best of cultivation. He raised 150 ½ baskets, they were nice size and good quality. Twenty-six filled a peach basket."
Asparagus Seed

**Asparagus**

1. New Palmetto. Is very early, large yielder, and very regular and even in growth. Average bunches contain 15 shoots, measuring 15½ inches in circumference; weighs 2 pounds. It is equally well adapted for all soils and situations. Pkt. 5c. Qt. 10c. ½ lb. 20c. 1 lb. 30c. 5 lbs. at 45c.

2. Conover's Colossal. A well-known variety. Pkt. 5c. Qt. 10c. ½ lb. 20c. 1 lb. 30c. 5 lbs. at 45c.

3. Columbian Mammoth White. Pkt. 5c. Qt. 10c. ½ lb. 20c. 1 lb. 30c. 5 lbs. at 45c.

4. Barr's Mammoth. Pkt. 5c. Qt. 10c. ½ lb. 20c. 1 lb. 30c. 5 lbs. at 45c.

Asparagus Roots—Horse Radish Roots—Rhubarb Roots

**Culture.** Beets are somewhat tender, but it often pays to take some risks. Plant in warm, loamy soil at the beginning of settled, warm weather in April and at intervals for success until August. Rows may be made 2 feet apart, and the Beets planted not more than 2 inches deep and several inches apart in the drills, of or 1 Beets in hills 6 to 8 inches apart. Cultivate and hoe frequently, always, however, when the vines are perfectly dry. In boiling draw the soil up towards the rows or plants. For String Beets gather the pods clean as fit for use. The plants will remain all the longer in bearing.

1001. **Boligano's New Early "May Queen."** (Specialty, see page 22.) Pkt. 10c. Qt. 35c. Qt. 65c. 2 Qts. $1.35. 4 Qts. $2.50. Pk. $4.75.

1139. "Home Sweet Home," Boligano's New Beet. A most delicious addition for the home garden. (Specialty, see page 22.) Pkt. 10c. ½ lb. Qt. 75c. 1 lb. $1.50. 6 Qts. $6.25. Pk. $12.50.

1008. **New Giant Stringless Valentine.** This is a great improvement on the old time popular favorite Valentine Beet. The pods are fully one-third longer, averaging 5 to 6 inches in length, absolutely stringless, very crisp, round, and full flavored. It is eminently productive, its handsome pods being ready for market a few days earlier than old Valentine. We confidently recommend it either for the home garden or as a market beet for market. (Specialty, see page 22.) Pkt. 10c. ½ lb. Qt. 25c. Qt. 40c. Qt. 75c. 2 Qts. $1.40. 4 Qts. $2.50. Pk. $5.00.

1009. **Burpee's New Stringless Green Pod Beets.** Crisp, tender, luscious flavor. Handsome light green pods, ready to market TWO WEEKS EARLIER than the Red Valentine. Pods are full, fleshy, and produced in great abundance, remaining long in edible condition. Pkt. 10c. ½ lb. Qt. 35c. Qt. 65c. 2 Qts. $1.40. 4 Qts. $2.60. Pk. $5.00.

1005. **Extra Early Round Green Pod Beet.** Has pods of a beautiful, attractive light green color, round, tender, and of a luscious flavor. Pkt. 10c. Qt. 40c. Qt. 75c. 2 Qts. $1.40. 4 Qts. $2.60. Pk. $5.00.

1013. **Hopkin's Earliest Red Valentine Beans.** One of the earliest and most prolific round green podded Beets. Comes into bearing earlier than the old stock of Valentine's, is a wonderful producer of a perfect sleeper. It will remain in a perfect condition for nearly two weeks after picking. Pkt. 10c. Qt. 65c. 2 Qts. $1.35. 4 Qts. $2.50. Pk. $5.00.

1164. **White Navy or Pea Beas.** Pkt. 10c. Qt. 30c. Qt. 50c. 2 Qts. $0.75. 4 Qts. $1.50. Pk. $3.00.

1004. **Late Refugee or 1,000 to 1.** Exceedingly productive for medium and late use. The young pods are tender and of fine flavor; the color is a silver green. Pkt. 10c. ½ lb. Qt. 25c. Qt. 40c. Qt. 75c. 3 Qts. 2 Qts. $1.40. 4 Qts. $2.60. Pk. $5.00.

1010. **Dwarf Horticultural or Cherry Bean.** A crop of these beans has never failed to pay. This is a broad, long, flat, mealy Bean, very productive, delicious flavor. It also makes a good dried Bean for Winter. Pkt. 10c. ½ lb. Qt. 5c. Qt. 65c. 2 Qts. $1.50. 4 Qts. $2.75. Pk. $5.00.

1317. **Longflowell Green Podded Round Bush.** Long, round, green pods, exceedingly prolific, always solid. Remarkably early. Pkt. 10c. Qt. 35c. 2 Qts. $1.35. 4 Qts. $2.50. Pk. $5.00.

1017. **Extra Long Yellow, Six Weeks.** Pods flat and green; a leading market sort. Pkt. 10c. Qt. 40c. Qt. 75c. 2 Qts. $1.40. 4 Qts. $2.50. Pk. $5.00.

1003. **Broad Windsor Beans.** The largest and best. Pkt. 10c. ½ lb. Qt. 5c. Qt. 35c. Qt. 65c. 2 Qts. $1.40. 4 Qts. $2.75. Pk. $5.25.

1006. **Hopkin's Earliest Red Round Green Pod Valentine Beas.**
We supply Pkts. of all Beans at 5c and 50c each, postpaid

Wax Pod Bush Beans

1831. New Pearl Wax Beans. A distinct, unusually prolific and prodigious growing Wax Bean. Every grower should try it. It will soon become a popular and lucrative variety to grow. Will not rust in the wettest kind of weather. (Specialty, page 22.) Pkt. 10c. 1/2 Pkt. 25c. Pt. $1.15. Qt. $3.25. 2 Qts. $5.50. Pk. $5.50.

1832. "Truckers’ Reward," Bolgiano’s New Flat Wax Bean. (Specialty, see page 22.) One of the most valuable and important Bean introductions in many years. Unequaled as an enormous, beautiful crop producer and money maker. Pkt. 10c. 1/2 Pkt. 25c. Pkt. 35c. Qt. $1.35. 2 Qts. $2.50. Pk. $5.50.

1879. New Hudson Wax Beans. A very sturdy grower, prolific; free from rust and blight. Vigorous plants are loaded with long handsome, straight pods. Grown in large masses, color, of a clean, tight, yellow. When picked young they are stringless. Pkt. 10c. Pt. $1.15. Qt. $3.25. 2 Qts. $5.50. Pk. $5.50.

1821. Round Podded Kidney Wax Bean. (Brillié wax.) This handsome wax-podded Bean is an improved Wardell’s Kidney Wax, besides having that popular variety luxuriant growth, it is entirely stringless. The pods are long, straight and extremely handsome. It is an exceedingly bean bearer, and is fully as early in maturing as the Wardell’s Kidney Wax, and is of excellent quality. Pkt. 10c. 1/2 Pkt. 25c. Pkt. 35c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1822. New California Rust-Proof Dwarf Wax. One of the hardiest and most productive flat podded Wax Beans ever grown. The vines are of vigorous growth, leaves dark green, hardy and yield enormous quantities of large, handsome, flat, meaty pods, borne well up from the ground and has not shown any disposition to rust, no matter where grown. It is eight to ten days earlier than the Valentine. Pkt. 10c. 1/2 Pkt. 25c. Pkt. 35c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1893. Currie’s Rust-Proof Bean. Is the earliest bulk beans before the Green or Wax Beans. It is ready for market in 25 days from date of planting. Its beautiful, pure green, long, flat pods of extra fine quality are borne in abundance and attract the admiration of both the planter and the consumer. Entirely free from rust and blight. Pkt. 5c and 10c. Pt. 45c. Qt. $1.35. 2 Qts. $2.85. 4 Qts. $5.50. Pk. $5.50.

One Qt. to 150 Hills 10 to 12 Qts. to the acre

Bolgiano’s "New Pearl Wax Beans"

Bush Lima Beans

1855. Bolgiano’s Enormous Ear Bush Lima Bean. This wonderful new Lima is the earliest largest and best of all Bush Lima Beans. (Specialty, see page 23.) Pkt. 10c. Pkt. 35c. Pt. $1.00. 4 Qts. $3.00. Pk. $5.00.

1869. Fordhook Bush Lima New, Both pods and Beans are twice the size of Dreer Bush Lima. (Specialty, see page 25.) Pkt. 10c. Qt. $1.55. 4 Qts. $2.85. Pk. $5.50.

1881. Wood’s Prolific Bush Lima. An “Improved Hooded Bush Lima.” Earlier than the Burpee’s Bush Lima, but somewhat smaller in size of Beans. Prolific, the Pods and Bean is extremely large. Plant grows more erect than Burpee’s Bush Lima and is more productive. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1891. Burpee’s “Improved” Bush Lima. Pods and Beans are extremely large. Plant makes a larger growth than others; stems are loaded down with Beans in great clusters. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1890. Dreer’s New Wonder Bush Lima Bean. It is a fine strain of neat dwarf growth producing pods a week earlier than the regular stock of Burpee’s Bush Lima. The plants are earlier, the pods and Beans are large, thick and heavy, and the Beans are more uniform. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1892. Burpee’s “Large” Bush Lima Bean. An immense yielding, every bush bearing from 50 to 200 of the handsome, large, thick, well-filled with very good flavor, which is tender in size and luxurious flavor to the well-known large Pole Lima. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1898. Burpee’s "Large" Bush Lima Bean. A very productive and delicious Stringless Pole Bean. The Pods and Beans are abundant and almost continuous. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1898. White Creasaback or Best of All. The best early Stringless Green Podded Pole Bean. Producible. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1892. Point Market Prolific Pole Beans. A very productive and delicious Stringless Pole Bean. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1892. White Creasaback or Best of All. The best early Stringless Green Podded Pole Bean. Production. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1892. Horticultural Pole, Cranberry or Wren’s Egg. This is the popular pole cherry bean, grown for either snap short or dry shell Beans, especially adapted for short seasons and cool locations. Productive; pods four to five inches in length, half-inch thick, and luscious. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

1895. Duchess Beans. Early, long, green, flat pods, white seed. Pkt. 10c. Pt. 45c. Qt. $1.35. 4 Qts. $2.85. Pk. $5.50.

4 Qt. to 150 Hills Pole or Running Beans

10 to 20 Qts. to the Acre

Burpee’s "Large" Bush Lima Bean
10 Pakts. at 50c each, Postpaid.

14. Early Ox-Blood. 6 Reasons Why We Introduce This New Beet. 1. It is extra dark blood color from end of its tap root to top of its short graceful leaves. 2. Early as the Crosby Egyptian. 3. Almost globe shape. 4. Small amount of even foliage of deep crimson color. 5. Beets are very smooth and free from side roots. The root is deep crimson, for the dwarf foliage. Root is bright glossy red. Pkts. 5c and 10c, Oz. 25c, 1/2 lb. 75c, Lb. $2.50.

4. Early Extra Eclipse. Remarkable for its very rapid growth, the perfection of its form—which is globular—of its beautiful crimson flesh, and for its dwarf foliage. Beets are bright glossy red. Pkts. 5c and 10c, Oz. 20c, 2 oz. 35c, 1 lb. 60c, Lb. $2.00.

5. Crosby's Improved Extra Eclipse Beet. An improvement on Early Extra Eclipse, being as early, but of more desirable shape, color and quality. It is very sweet and tender; a most valuable sort for early market, as it is ready before any other Beet of equal quality. Pkts. 5c and 10c, Oz. 25c, 1/2 lb. 75c, Lb. $2.50.

6. New Crimson Globe Beet. This is one of the best Bunching Beets yet introduced. A handsome variety of medium size, almost globe shape, and entirely free from side roots, a grand second early or main crop sort. The roots are of medium size. Beets average 10 inches in circumference, very handsome in shape, being a little rounder than a doze ball, with a remarkably smooth surface. The foliage is small and of a rich bronze purple, borne on slender stems which occupy but a small portion of the root. Flesh is a rich blood color, and it is as well shaped or as well colored in a most handsome manner, making it very attractive in appearance. No stringy. Pkts. 5c and 10c, Oz. 25c, 1/2 lb. 75c, Lb. $2.50.

7. Detroit Red Beet. A splendid beet of a deep red color, for home or market. By far the best for canning, on account of its beauty. Small, upright tops and perfectly small roots. Flesh colored with lighter and darker bands; tender and sweet. Pkts. 5c and 10c, Oz. 25c, 1/2 lb. 75c, Lb. $2.50.

11. Extra Early Dark Red Flats Egyptian Beet. The Egyptian Beet is one of the most popular varieties among market gardeners for favoring purposes. Juicy and nuty it is considered to be the earliest of all. It certainly will keep close planting in the valuable space under glass or in a warm garden in early Spring. It is turpae-shaped, as when talking about a turpae. It is very smooth and tender in color. It is difficult to grow; a preference for Egypt we offer the best strain of seed now on the market. Pkts. 5c and 10c, Oz. 25c, 2 ozs. 40c, 1/4 lb. 70c. Lb. $2.50.

12. American Beauty Beet. The skin and flesh of "American Beauty" Beets are both deep rich blood crimson color. It matures just after the Eclipse, has a most beautiful form, being a little deeper than round, medium in size, generally about three inches in diameter, has a remarkable surface and a small tap root. Pkts. 5c and 10c, Oz. 25c, 1/2 lb. 75c, Lb. $2.50.

13. Early Model Beet. This is a fine selection of blood red Beet, extremely smooth and of symmetrical growth, rich color and desirable shape. It makes a rapid growth and matures very early. The shape is nearly round, and color of flesh, red. Pkts. 5c and 10c, Oz. 25c, 1/2 lb. 75c, Lb. $2.25.
Mangel Wurzel

Culture. Sow 5 pounds to the acre in April or June, in rows 3 feet apart, and thin to 3 inches in the row. Cultivate frequently with horse tools and you will have an abundant crop of roots for Winter use.

1101. New Jumbo Mangel. For milk cows and cattle generally the new Jumbo Mangel has no equal. It is a milk producer of the highest quality and at the same time produces it in great quantities. It will mvny other Mangel two to one. It is easy to grow, producing immense roots in great quantities, and this makes it easily marketable. Pkts. 5c and 10c. Oz. 15c. 1 Lb. 50c. 1 $1.00. 5 Lbs. at 85c Lb.

1102. Gate Post Mangel. The name indicates the immense size of this fine Mangel. Among the yellow Mangels it stands supreme. The milk it produces when fed to cows is of the richest character. As one experienced farmer put it: "The Gate Post Mangel is a butcher and milk producer of first merit." If you want the best Yellow Mangel you ever grow buy Bolgiano's Gate Post Mangel. Pkts. 5c and 10c. Oz. 15c. 1 Lb. 30c. 1 $1.50. 5 Lbs. at 85c Lb.

1103. Giant Mammoth Long Red Mangel. Our stock is a great improvement on the old variety. The roots are very large, uniformly straight and well formed. Color deep red, roots solid, tops small. Roots attain a large size. We received several reports last season of Mangels weighing 20 to 25 pounds each. Picked from an immense bulk and turned out. Pkts. 5c and 10c. Oz. 15c. 1 Lb. 30c. Pkt. $1.00. 5 Lbs. at 85c Lb. 10 Lbs. at 80c Lb. 25 Lbs. at 75c Lb.

1104. Improved Golden Tankard Mangel. We have for years insisted that this was the best Mangel grown, and each year the season strengthens our position. We recommend it as the best Mangel for by far the leading farmers. It combines all the fine points possible to condense into a Mangel. The color is a deep rich yellow. The flesh is firm and solid and a rich, golden yellow in color. On account of its shape enormous crops are grown, and it easily lifts from the ground. Pkts. 5c and 10c. Oz. 15c. 1 Lb. 30c. 1 $1.00. 5 Lbs. at 85c Lb. 10 Lbs. at 80c Lb. 25 Lbs. at 75c Lb.

Golden Giant Intermediate. Root intermediate between the Jumbo and the globe Mangels, firm and sweet, much liked by cattle. Pkts. 5c and 10c. Oz. 15c. 1 Lb. 30c. 1 $1.00. 5 Lbs. at 85c Lb. 10 Lbs. at 80c Lb. 25 Lbs. at 75c Lb.

Bolgiano’s New Jumbo Mangel

Stock-feeding Beets. It is not so sweet as the French Sugar Beets grown especially for sugar making, but the roots are longer and the tops more slender, very sweet. Pkts. 5c and 10c. Oz. 15c. 1 Lb. 30c. 1 $1.00. 5 Lbs. at 85c Lb. 10 Lbs. at 80c Lb. 25 Lbs. at 75c Lb.

Beets—Continued

Bolgiano’s "Big Crop" Vegetable Seeds for 1918

Sugar Beets

For Stock Feeding

Culture. Sow and cultivate same as Mangel except that they should be thinned out to 6 to 8 inches in the row.

1105. Giant Feeding Sugar Beet or Half Sugar Mangel. This magnificent Sugar Beet, while giving nearly as large a yield of easily grown and harvested roots as a Mangel, supplies a food of very much higher nutritive value, the roots for feeding purposes being really more valuable, pound for pound, than those of the very best strains of Sugar Beet, and the yield under equally favorable conditions being more than double. Roots are partly eaten, and partly grown for stock feeding. The roots can be harvested and stored at less expense than any other root crop. We are certain that every one who plants this variety and grows it for stock feeding will be much pleased with the crop. Every farmer should try it. Pkts. 5c and 10c. Oz. 15c. 1 Lb. 30c. 1 $1.00.

1204. Klein-Wanzleben Elite. This variety at present possesses probably a wider cultivation than any other Sugar Beets. It may be distinguished by its bright orange color and the lighter colored leaves, which are beautifully undulating and scalloped around the edges while not, as a rule, equal to the Yilmorin in Sarachin richness, it is considerably more productive. Pkts. 5c and 10c. Oz. 15c. 1 Lb. 30c. 1 $1.00.

160. Lane's Improved Sugar. An American variety and the best stock feeding Beet known.
Bolgiano’s High-Bred American-Grown Cabbage Seed Will Produce the Best Crop You Have Ever Grown

No vegetable is of greater importance to the market gardener than the Cabbage, and to many growers the success or failure of this crop means gain or loss for the year. Cabbage seed, therefore, is the last seed in the list to buy because it is cheap. Much of the seed sold at a low price is imported from European countries where, owing to the climate, it produces large quantities of seed; but it is practically worthless in America. We exercise exceptional care in growing and selecting our Cabbage seed, and after a thorough inspection at the hands of our Seedsmen, it is put under the care of the best results, such as the Danish DANISH.

Culture. Soil for Cabbage should be rich and heavy loam, with good drainage. On such a soil, with an abundance of stable manure, excellent crops are sure to be grown. For early Spring sow in fall, not too early, or the plants are liable to bolt in the Spring, instead of heading. In a month the plants will be fit to transplant to cold frames where they are wintered, taking care in planting to set the young plants down to the first leaves. Transplant in Spring as soon as the ground can be worked, setting the plants 2 feet apart one way and from 12 to 18 inches the other, according to the variety. For late or Winter crops, the seed is sown in May, and the plants set out in July. In this case they are set in rows 2 by 3 feet, so as to work them with a horse and cultivator

Extra Early Cabbage

25. **“Big Winner” Wakefield.** (Specialty, page 25.) We introduced this remarkable Cabbage eight years ago. It met with a hearty reception from every one who grew it. Every year we receive a great many letters of praise and congratulation regarding the Big Winner Wakefield Cabbage. No other Cabbage of which we have knowledge has aroused such enthusiasm among Cabbage growers as has our Big Winner Wakefield. It has the same general characteristics of other Wakefield Cabbages, the heads being conical with a rounded or blunt point. It is, however, far superior to other strains of Wakefield Cabbage, being nearly double the size and better quality, and at the same time as fully as early. It has few outer leaves, permitting close planting, so that more heads can be grown to the acre than with other sorts. Large Pts. 5c and 10c. 1/2 Oz. 30c. Oz. 50c. 2 Ozs. 95c. 1/2 lb. $1.75. Lb. $6.00.

26. **New Leader.** (Specialty, page 25.) As early as the Wakefield, yields 12,000 heads, one-third more per acre than any other. This is the very best Cabbage—large, round, solid, and delicious. The heads are so few and so small that they cannot be planted very close. The heads are compact and solid from the time a head is formed and keeps so until thoroughly matured, thus enabling extremely early cutting of small, hard heads, or later when the Wakefield comes in, of large, thoroughly matured, solid, round, flat heads. Pkts. 5c and 10c. 1/2 Oz. 30c. Oz. 50c. 2 Ozs. 95c. 1/2 lb. $1.75. Lb. $6.00.

373. **Enkhuizen Glory.** Is a valuable, early variety. It produces fine, marketable heads and is a splendid sort for the private garden and market gardener who grows for high-class trade. The heads are very solid with few outer leaves and of such compact growth to permit close planting. The quality is excellent. Pkts. 5c and 10c. 1/2 Oz. 30c. Oz. 50c. 2 Ozs. 95c. 1/2 lb. $1.75. Lb. $6.00.

28. **Extra Early Jersey Wakefield, American Grown.** An excellent, early sort. Heads formed like a Wakefield, but ten days earlier; habit vigorous, short stem and most profitable to grow. Pkts. 5c and 10c. Oz. 50c. 1/2 Oz. 95c. 1/2 lb. $1.75. Lb. $6.00.

376. **Eureka Cabbage.** An extra early flat variety. Pkts. 5c and 10c. Oz. 50c. 1/2 oz. $1.75. Lb. $6.00.

---

20. **Extra Early Pilot Cabbage, American Grown.** Three weeks earlier than the Jersey Wakefield. Pkts. 5c and 10c. Oz. 50c. 1/2 lb. $1.75. Lb. $6.00.

30. **Early Jersey Wakefield Cabbage.** Bolgiano’s Selected Stock. True Type. The most popular early Cabbage with market gardeners all over the country. It is grown in vast quantities for shipment to Northern cities. Unquestioned for size, solidness, uniformity and trueness, is the universal verdict of Cabbage growers. Our Stock of Wakefield is the earliest in cultivation. Every Cabbage grower should use our Wakefield. Our seed is ordered by large Cabbage growers long in advance of the time of sowing seed in order to secure our fine stock, which has never failed to produce satisfactory crops. Our seed is used in all the States where early Cabbage is grown. Pkts. 5c and 10c. 1/2 Oz. 30c. Oz. 50c. 2 Ozs. 95c. 1/2 lb. $1.75. Lb. $6.00.

32. **The Charleston or Large Wakefield, The Best Large, Early Cabbage.** This Cabbage has created a sensation with the Cabbage growers all over the country on account of the decided advantage it has over all other sorts. It can be the first variety SENT TO MARKET, and on account of its handsome appearance will invariably bring the top-top prices. If, however, the early market prices are low, it can be safely left standing in the field to mature to an extra large, compact, solid, magnificent Cabbage, which has never failed to attract the admiration of the most skilled gardeners, and always brings better prices than any other sort harvested at the same time. Our stock is thoroughly reliable. Pkts. 5c and 10c. Oz. 50c. 1/2 lb. $1.75. Lb. $6.00.

265. **“Copenhagen Market,” New Early Danish Cabbage.** (Specialty, see page 25.) As early as Charleston Wakefield This New Cabbage is very heavy and solid, like the Danish “Ball Head” type of Cabbage; makes it the finest sort of Cabbage known. The heads are round, heart-shaped and firm. Its dwarf growth will permit them being planted closely together. Pkts. 5c and 10c. Oz. 50c. 1/2 lb. $1.75. Lb. $6.00.

33. **Early Large York.** This is a very valuable, early variety and follows the Express and Jersey Wakefield in heading. The heads are round, heart-shaped and firm. Its dwarf growth will permit them being planted closely together. Pkts. 5c and 10c. Oz. 50c. 1/2 lb. $1.75. Lb. $6.00.

34. **Early Winninsdargt—the Prussian Prize Stock.** The popularity of Winninsdtad Cabbage in all sections of the world is proverbial, but there is a great difference in the quality of the stocks. Some will produce heads of twice the size of others; the finest is grown in Northern Prussia. It is from this section that our famous stock was introduced a few years ago. It has become very popular with our market gardeners. Pkts. 5c and 10c. Oz. 50c. 1/2 lb. $1.75. Lb. $6.00.
Cabbage
Second Early Varieties

Boligiano’s “Big Crop” Vegetable Seeds for 1918

154. Boligiano’s Early “Square Deal” Cabbage. The best on earth. (Specially, see page 25.) The heads are solid and compact with very few outer leaves. For a fine, solid, tender, uniform, early, flat Cabbage, Boligiano’s “New Square Deal” Cabbage challenges the world. The demand for a Cabbage of this character led us by the most rigid and careful selection during the past five years to mature this Cabbage, which we are confident will give all our friends and customers a “Square Deal” every time. Pkts. 10c. ½ Oz. 30c. Oz. 50c. 2 Ozs. 95c., 3½ Lb. $1.75. 3½ Lb. $5.00.

155. Boligiano’s “New Early” Cabbage. It forms solid, compact, round, flatheads, the leaves growing close to the head, thus allowing more cabbage to be grown to the acre than any other sort. Its earliness a week before other early, flat varieties is one of its best marketable features. It heads so hard and so quick it becomes waterproof. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

36. Florida Header Cabbage. In color, shape and size the heads are most uniform. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

37. All Head Early Cabbage. For uniformity, reliability of heading, size, earliness and quality it is very superior. Its heads grow compact and free from spreading leaves. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

148. Brunswick, Fotteller’s Cabbage. In this vicinity the Brunswick is considered second to none by the market gardeners. Plants are very short stemmed; large leaves and very compact. Heads are large, solid and of fine quality. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

38. Henderson’s Early Summer Cabbage. In size, form, earliness and size this is truly a model Cabbage. It heads just after our Jersey Wakefield. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

39. Long Island, Early, Flat Dutch Cabbage. The heads are large and solid and mature very early—put after the Jersey Wakefield, and may be marketed at the same time with the Wakefield. In every respect it is a Cabbage worthy of cultivation. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

40. Early, Short Stem, Drumhead Cabbage. It is ready for marketing 2 or 3 weeks earlier than the late Drumheads, forms large, solid, rounded heads weighing from 15 to 25 pounds. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

41. Henderson’s Early Succession Cabbage. A wonderful Cabbage for solidiity, productiveness and size, large heads. Matures early; it has handsome color and fine quality. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

42. Sure Head Cabbage. (Pedigree Stock.) True American grown. Produces large, round, flattened heads that are all head, with fewer outer leaves, very uniform, firm and weighs from 10 to 15 pounds each. Splendid shipper and of an excellent quality. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

512. Solid South. This is one of the purest and finest Cabbages ever bred. Produces very large, shapely, solid heads. It is crisp, fine grained and of delicious flavor. An excellent shipper. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

49. Mammoth Red Dutch. It is the largest Red Cabbage, and heads very solid and is deep red in color to the very center. No Cabbage is better for boiling or sauerkraut, and its beautiful red color specially fits it for pickling. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.75. Lb. $6.00.

375. Volga. One of the earliest, main crop cabbage of superior quality. Round head, short stem, compact growth; exceptionally hardy and a good keeper. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

374. All Seasons. An “all-season” variety, equally good for Fall and Winter as for Summer use. The heads are large, solid, round, flattened on top, and of best quality. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

Boligiano’s “Ringleader” Large, Late, Flat Dutch Cabbage

Late or Winter Cabbage

96. Boligiano’s “Ringleader” Large, Late, Flat Dutch Cabbage. Will always produce heads of enormous size and of the very finest quality. (Specially, see page 25.) Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.75. Lb. $3.25. Lb. $6.00.

43. Boligiano’s Extra Large, Late, Flat Dutch; Market Gardener’s Choice Stock. Can be planted later than the deline varieties and matures more quickly into a handsome, EXTRA LARGE, solid, uniform Cabbage of perfect keeping qualities. It has of its own superior merits become a favorite everywhere. If you want the best Flat Dutch that grows, try Boligiano’s Extra Flat Dutch. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

50. Louisville Drumhead. (Best of all Drumhead Cabbages) There is no Cabbage of the Drumhead type which can be compared with this beautiful representative in shape, color, firmness and excellent quality. Heat and moderate drought have little effect upon it on account of the peculiar short stem and low habit of growth. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

372. Pe-Tsai Chinese or Celery Cabbage. (Specially, see page 25.) Improved Chinese Cabbage. This vegetable is new to the public although old to the Horticulturists. Plant in July. Sow in drills 16 to 20 inches apart and the seedlings thinned two or three times. Profitable both as a shipping and market Cabbage. Pkts. 5c and 10c. Oz. 50c. 2 Ozs. 95c., 1 ½ Lb. $1.75. 1 ½ Lb. $3.25. Lb. $6.00.

45. The Lupton Cabbage. It is a splendid late sort, heading after the second early sorts, and sooner than the Late Flat Dutch. It is particularly uniform in shape and size, holds its dark green color better than the late sorts. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

46. Premium Flat Dutch. It has long been the favorite sort for cold sauerkraut and sauerkraut. It matures just before severe frost and keeps perfectly good over winter. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

47. Large, Late, Drumhead Cabbage. This splendid Cabbage produces enormous heads, its good keeping quality makes it a first-class sort to carry over Winter for long distance shipping. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

48. Henderson’s Autumn King Cabbage. It is often from 3½ feet in circumference, and weighs from 25 to 50 pounds each. Interior crisp, close, fine-grained, tender and white. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

48. Danish Head Cabbage. This is the most excellent Cabbage, is very solid and outweighs any other Cabbage of equal size. The head is round with flattened top; a good keeper; first-class shipper and sells everywhere. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

Brussels Sprouts

Culture. Sow in May, in the same manner as Cauliflower, and transplant in July. 1 foot apart in rows 1½ feet apart. Brussels Sprouts is the very best Winter vegetable that can be grown. It is as hardy as the common Curled Greens. When cooked through, such sprouts melt in the mouth like the tenderest Cauliflower, and are equally as good. If more widely known, Brussels Sprouts would be as popular as it is valuable.

Boligiano’s Matchless Love Island, Improved Brussels Sprouts. Pkts. 5c and 10c. Oz. 50c. ½ Lb. $1.40. Lb. $5.00.

365. Paris, Half Dwarf, Brussels Sprouts. Pkts. 5c and 10c. ½ Oz. 15c. Oz. 25c. ½ Lb. 90c. Lb. $3.00.

Collards

23. Georgia Southern, or Creole. Forms a large, loose, open head, or a mass of leaves on a tall stem. Freezing does not injure, but makes their quality better. They are excellent for stock feeding when 4 inches high, or sow in drills where the plants are to remain and thin to 2 or 3 feet apart in the row when of proper size. In the South sow from January to May, and August to October. Pkts. 5c and 10c. Oz. 15c. ½ Lb. 40c. ½ Lb. 50c. Lb. $1.50.
**Cauliflower**

**Culture.** For earliest Cauliflower, raise plants by sowing in hotbed or greenhouse during January or February, and transplant to flats or cold frames, 2 or 3 inches apart each way. Set in open ground as soon in Spring as the land can be put in good order. Soil to be warm, very rich, fibrous loam, well supplied with humus and moisture. Copious water application during dry weather, especially when the plants are heading, and light dressing of nitrate of soda and potash are of much help. Set plants 2 to 2½ feet apart each way. For late Cauliflower to mature during picking season (August 15 to October 10) start plants in open ground like late Cabbages, and handle them like that crop. After the heads begin to form, draw leaves over and pin or tie them together to protect the head from the sun.

**Choi-Fleur**

**Culture.** For Choi-Fleur, follow the same directions as for Cauliflower, except that the plants will be more tender and will not stand the cold as long. You may raise them in hotbeds, greenhouses or very early cold frames. Pkts. 5c and 10c.

**Bloemenkool**

**Culture.** For Bloemenkool, follow the same directions as for Cauliflower, except that the plants will be more tender and will not stand the cold as long. You may raise them in hotbeds, greenhouses or very early cold frames. Pkts. 5c and 10c.

**MOROCCO**

**Candle**

**Zamuraria**

**Culture.** Carrots do best in warm, deep, rather light and fairly fertile soil that is well supplied with humus, or on strong loam, having been in clover and broken before tillage. For earliest crops, sow seed of the Belgian Carrot, rooted sorts in April or May, in drills a foot apart and thin to 2 inches. For main crop, sow in May or June, or for succession even in July, using the long rooted varieties. The rows for these may be 16 to 20 inches apart, and 12 plants thinned to 3 or 5 even inches. 1. New King Carrot. The greatest Carrot introduced in the last 10 years. (Specialty, see page 19.) Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 50c. 1 Lb. 75c. ½ Lb. $1.50. $2.75. Postpaid. 51. Scarlet Beauty Carrot. A handsome and prolific Carrot. 2. Rich deep scarlet in color. In length, between long and half-orange. 4. Very straight roots. 5. Very little foliage for size of roots. 6. Delicious flavor. 7. Heavy yeder. 8. Uniform in size. 9. Often 2½ to 3 inches at the top and 10 to 12 inches long. Pkts. 5c and 10c. Oz. 15c. 2 Oz. 30c. ½ Lb. 55c. ¼ Lb. $1.50. $2.25. Postpaid. 61. Half-Long Orange Carrot. The skin is clear, bright in color and the flesh is close in texture, of very fine grain, with very small core. For bunching the handsome appearance is a marked advantage. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 50c. ¼ Lb. 70c. ½ Lb. $1.50. $2.25. Postpaid. 62. Improved Long Orange Carrot. Uniformly a deep orange color, growing a long, smooth, symmetrical Carrot. Remarkable for the absence of the destructive side roots and deformities. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 50c. ¼ Lb. 70c. ½ Lb. $1.25. Postpaid. 63. St. Valery, Long Red. Color, orange-red. Roots large and handsome, intermediate in shape, between Danvers and Long Orange. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 50c. ¼ Lb. 70c. ½ Lb. $1.50. $2.25. Postpaid. 64. Early Scarlet Horn. A very popular sort; quick growing; deep orange in color; blunt rooted; six to eight inches in length. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 50c. ¼ Lb. 70c. ½ Lb. $1.25. Postpaid. 65. Danvers Half Long. One of the heaviest croppers, roots dark orange color; eight to ten inches in length, thick and ending in a somewhat abrupt point. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 50c. ¼ Lb. 70c. ½ Lb. $1.25. $2.25. Postpaid. 66. Chantenay or Model. Early, scarlet color, stump rooted, broad, thick shoulder, heavy cropper. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 50c. ¼ Lb. 70c. ½ Lb. $1.25. $2.25. Postpaid. 67. Nantes, Half Long, Stump Rooted. Roots 8 or 10 inches in length, thick shoulder, deep orange and good cropper. Pkts. 10c. Oz. 15c. Oz. 25c. 2 Ozs. 40c. ¼ Lb. 70c. ½ Lb. $1.25. $2.25. Postpaid. 68. Rubicon. Early, half-long, stump rooted; color deep orange; of finest quality. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 40c. ¼ Lb. 70c. ½ Lb. $1.25. $2.25. Postpaid. 69. Intermediate Scarlet. Roots similar in shape and size to Danvers Pointed; color scarlet; nearly coreless. Pkts. 5c and 10c. Oz. 25c. 2 Ozs. 40c. ¼ Lb. 70c. ½ Lb. $1.25. $2.25. Postpaid. 70. White Rainbow. Produces large roots four inches in diameter at the top and ten inches in length. It has a white skin and flesh. These Carrots are grown for feeding stock during Winter; they keep in stock in fine condition. Pkts. 5c and 10c. Oz. 15c. Oz. 25c. 2 Ozs. 40c. ¼ Lb. 70c. ½ Lb. $1.25. $2.25. Postpaid. 71. After Seven Years’ Trial

On June 19, 1916, Mr. E. C. Harper, of Tangipahoa Co., La., wrote: “The Pride of the Market Carrot which you supplied me with last October came up fine. In spite of the weather conditions last Fall were very bad for Carrots in South Louisiana, but my seed came up when my neighbor’s failed. Now I have been planting your Pride of the Market Carrot for seven years and find them better than any other Carrots I ever planted.”
Culture. One ounce will produce about twenty-five hundred plants and sow about two hundred feet of row. Sow the last of March or early in April, in an open border, in rich mellow ground in shallow drills, watering freely in dry weather. By rolling or pressing in the seed, the result will be more satisfactory than when only covered. Cut the tops off once or twice before planting out, to make them stocky. When the plants are 6 or 8 inches high, transplant the dwarf varieties 3 feet and the taller sort 4 feet between the rows; plant 6 inches apart in the rows. Cultivate well and when large enough, Blanch by earthing up. The first operation of that is called, "handing," generally done in August and September. After the soil has been drawn up with the hoe, it is drawn around each plant by hand to keep the leaves in upright position and prevent spreading. When plants have become "set" in an upright position and the Celery is wanted for early use, it is best by throwing the soil up as close to the plants as possible with a plow and finishing it with a spade, bringing the earth nearly up to the tops of the plants. The method employed now for protecting it is by covering the tops of the banks with waterproof felt paper.

Bolgiano’s French Golden Self-Blanching Celery

It is used Exclusively by the Largest and Most Experienced Celery Growers and annually produces Excess of Profits. This is the finest stock of Celery Seed ever grown. We ship nothing but what will bring the highest market prices. It will create a new price for you, your commission man can get outside figures for it, and he will sell quickly all you can ship. Our stock; YOUR PHAIRES will be the best. Celery is a perfect, crisp, vigorous stalk; fluffy, compact growth, self-blanching to a very remarkable degree; even the outer dirs become a handsome, fresh, clean, yellowish-white color; with a heart that is large and solid, of a beautiful rich, golden-yellow color. It never becomes stringy or pithy. To fully appreciate its beauty and attractiveness, it must be seen. Many customers order their stock six months before planting time in order to be sure of this stock of seed. (Specialty, see page 19.) Pkt. 10c., 1 oz. 25c., 1/2 lb. $1.00. 1 lb. $5.00. Postpaid.

Golden Self-Blanching. (Self-Blanching Dwarf Turnip-Rooted Celeriac.) Early sort, requiring but little labor to blanch. Heart rich, golden-yellow, with light yellowish-green outer leaves. This Celery is in condition for use early in the Fall. Pkt. 5c. and 10c. 1/2 oz. 25c. Oz. 50c. 1 lb. $1.00. 1/2 lb. $0.50. Postpaid.

Sweat Nut Celery. Most delicious celery grown. We recommend it for nearly markets and home use. (Specialty, see page 19.) Pkt. 10c. 1/2 oz. 25c. Oz. 50c. 2 oz. 65c. 1 lb. $1.00. 1/2 lb. $0.50. Postpaid.

Giant Pascal Celery. This is a large, solid, excellent sort. It blanches very quickly to a beautiful, yellowish-white color, is very solid and crisp, and a fine nutty flavor. Stalks grow broad and thick, a single branch making a large bunch. Pkt. 5c. and 10c. 1/2 oz. 25c. Oz. 50c. 2 oz. 65c. 1 lb. $1.00. 1/2 lb. $0.50. Postpaid.

Produced a Fine Crop—The Dry Season in Florida

On June 16, 1916, Mr. Otto Gofffried, of Mander Co., Fla., wrote: "In regard to Bolgiano’s French Golden Self-Blanching Celery Seed, will say that we have passed through the dry season 1916. Our Celeriac did not wilt or dry up, without irrigation, and under the hot and dry weather conditions was unexpectedly surprised at the results. Had a good crop and none of my Celery sold for less than 50c. in the short season market (July and August) in Charlotte (N. C.) market. I shipped every day through the whole season from January 1st to May 15th, and stopped shipping only because the weather was too hot, and the crop was not up to the standard. This season I expected to lose heavy by the Bolgiano Celery Company, but did not find one plant in that condition.

Best Crop Ever Had—1,100 Crates Per Acre

Mr. W. C. L. H., of Grant Co., Ga., writes: "I planted your Golden Self-Blanching Celery Seed last season and am now cutting the best crop I ever made, about 1,300 crates per acre, and I want the price of 4 pounds of the same stock of seed."

Best in Forty Years

On December 15th, Mr. Chas. A. Frazee, of Madisonville, Ohio, wrote: "The Golden Self-Blanching Celery seed I bought from you is certainly the best I have ever had and I have been in business for forty years. Do not fail to save me some seed for next year."

Corn Salad

Mache—Mache a Verzierolle

Culture. Sow during August or early in September, in drills 1/2 inch deep and 6 inches apart. If the weather is dry when the seed is sown treat it lightly to insure germination. Keep down weeds with hoe. Just before the Winter, cover thinly with straw or leaves.

Large German Corn Salad. Used as a salad and for garnishing. Pkt. 5c. Oz. 10c. 1/2 lb. 25c. Lb. 75c.

Cress

Cress—Berro o Mastruro—Kraut. Culture. Sow curled or pepper grass thickly, in shallow drills, in a very rich soil and water well. It should be cut often and will continue to grow. It is useful for salad and for garnishing, and it is much finer. They will thrive well in damp hothoops. Highlgy managed, their culture is very profitable. To obtain early salad it is a good plan to sow with Water Cress Seed a strip 4 inches wide on the upper margin of the blasted, in rows, 1 inch apart, where it is always cool. Oz. 25c. 2 oz. 40c. 1/2 lb. 75c. Lb. 2.50. Postpaid.

Fine Curled or Pepper Grass. Pkt. 5c. Oz. 10c. 1/2 lb. 20c. Lb. 65c.

Celeriac, or Turnip-Rooted Celery

Culture for Root Celery. Sow the seed at the same season and give the same treatment as Celery. Transplant the young plants to moist, rich soil in rows 2 feet apart and 6 inches apart in the rows.

Large Smooth Prague Celeriac. A large Celery flavored root used exclusively for flavoring soups, pickles, etc.; also relished alone as a salad with pepper and vinegar. It is also used to flavor chicken and potato salad. Pkt. 5c. and 10c. Oz. 25c. 1/2 lb. 75c. Lb. 2.50. Postpaid.

New Giant French Celeriac

Large German Corn Salad

Bolgiano’s “Big Crop” Vegetable Seeds for 1918
Snow White Evergreen Sugar Corn

Sweet or Sugar Corn

We supply packages of Sweet Corn at 5¢ and 10¢ each, Postpaid. One Quart will Plant 20 Hills; 8 to 10 Quarts for an Acre in Hills. Sugar Corn, weight by Parcel Post, 1 Lb., Qts. 2 Lbs., 5 Qts. 6 Lbs., Pkt. 11 Lbs.

Parcel Post Rates, see Page 5.

Culture. Seed of the sweetest varieties is liable to rot if planted in wet or cold ground. Yet if we have an early warm spell in Spring, it may pay us to take some risks. Often the plants, when once up, will escape injury by a belated light frost. Plant in warm soil 3 or 4 kernels to a hill, making the rows 3 feet apart for the dwarf or early sorts and 4 feet apart for the taller late sorts. Hills to be 2 to 3 feet apart in the rows, thin out to three plants in a hill. Seed often and draw soil up to the stem, break off side shoots.

Extra Early

1002. Double XX Extra Early Adams' Sweet Corn. Two weeks earlier than Extra Early Adams', large ears completely filled with 10 to 14 strips of snow white deep grains. Per ear 10¢. Doz. ears $1.00. Pkt. 25¢. Qt. 40¢. 4 Qts. $1.50. Pkt. $2.75.

1053. Second Early Adams'. Ears are larger and later than Adams' Extra Early. Pkt. 25¢. Qt. 40¢. 4 Qts. $1.50. Pkt. $2.75.

1050. Gillespie's First Early Patapsco Neck Corn. The very First Good Size Corn that can be brought to market. It is so hardy that it can readily be planted as soon as the ground is in good working order, and will, from the day of its germination, hurry forward to meet the early demand for fresh Corn, which is always very keen and causes this delicious, attractive and superior Corn to bring profitable prices. Pkt. 25¢. Qt. 40¢. 4 Qts. $1.40. Pkt. $2.50.

1136. California Golden Country Gentleman Corn. (Specialty, see page 27.) This is a wonderful combination of the "Cream and Honey" Sugar Corn and the well-known "Country Gentleman" Sugar Corn. Could you possibly think of anything more delicious than the good points of these two corns combined into one? Don't take chances of forgetting it—send in your order today certain. Pkt. 10¢. Qt. 40¢. 4 Qts. $1.50. Pkt. $2.75.

12214. Cory White Cob. A selection from Red Cory, having white kernels and white cob. Pkt. 25¢. Qt. 45¢. 4 Qts. $1.50. Pkt. $2.75.

12241. Red Cory. A very early variety, with good-sized ears and large red grains. Pkt. 25¢. Qt. 45¢. 4 Qts. $1.50. Pkt. $2.75.

1226. Metropolitan. Handsome, large ears, Pkt. 25¢. Qt. 45¢. 4 Qts. $1.40. Pkt. $2.50.

1182. Bolgiano's New "Cream and Honey" Sweet Corn. (Specialty, see page 27.) Extremely early, most delicious flavor, exceptionally fine quality. Should be tried by every wide awake market gardener and in home garden, where the "best" of everything is enjoyed. Per ear 15¢. Doz. ears $1.75. Pkt. 10¢. Qt. 45¢. 4 Qts. $1.25. 4 Qts. $2.25. Pkt. $4.00. Bu. $15.00.

1005. Early "Butter-Nut" Sugar Corn. (Specialty, see page 27.) New Variety, follows "Cream and Honey" Sugar Corn by four to seven days. Ears seven to nine inches long, with fourteen rows of good size "Butter-Nut" pearlly white grains. Stalks grow about five feet high and produce two fine ears per ear. Pkt. 15¢. Qt. 40¢. 4 Qts. $1.25. 4 Qts. $2.25. Pkt. $4.00.

1049. 65-Day White Cob Corn. This Extremely Early Corn looks like Snow White Evergreen Corn, but is ready for the market in 60 to 65 days from planting. (Specialty, see page 27.) Per ear 10¢. Doz. ears $1.00. Pkt. 10¢. Qt. 45¢. 2 Qts. 75c. 4 Qts. $1.40. Pkt. $2.50.

Second Early

1108. Peep-o'-Day. The two points to this remarkable Corn are its extraordinary earliness and unparalleled sweetness. So marked is its sweetness and delicacy of flavor that many of our best and tastiest sorts have been exclusively, arranging the plantings a few days apart so as to have this delicious Corn throughout the season. It will make very large ears, and the growth being dwarf—about 4 feet—admits of a very close planting. Prices: Pkt. 30¢. Qt. 50¢. 4 Qts. $1.75. Pkt. $3.00.

12194. Champion Sweet Corn. Ears nearly as large as Evergreen and pure white. Nearly as early as Minnesota. Pkt. 30¢. Qt. '50¢. 4 Qts. $1.75. Pkt. $3.00.

1035. Early Crosby. Early, matures after Minnesota; fair-sized ears of good quality. Pkt. 35¢. Qt. 60¢. 4 Qts. $2.00. Pkt. $3.75.

1039. Earliest Sheffield Sweet Corn. Planted as early as Adams', it will stand light frost, makes a very fine market corn with abundant foliage, growing about 3 feet, bearing usually 2 ears of handsome appearance, entirely free from sour, exceptionally fine flavor and juicy. Per ear 15¢. Doz. ears $1.00. Pkt. 30¢. Qt. 50¢. 4 Qts. $1.75. Pkt. $3.00.

1100. Extra Early Evergreen. Ears like Evergreen—very large, with about 18 irregular rows and a very long grain of the very best quality; remains in condition for use longer than any other variety. Doz. ears 15¢. Qt. 45¢. 4 Qts. $1.50. Pkt. $2.75. Bu. $10.00.

12215. Shaker's Early. Early, large ears, excellent quality; fine market sort; follows Minnesota. Pkt. $3.00. Bu. $10.00.

1222. Truckers' Favorite. Not a sugar corn, but used largely in Baltimore and the South as a table Corn. (Specialty, see page 27.) Per ear 10¢. Doz. ears $1.00. Pkt. 25¢. Qt. 40¢. 4 Qts. $1.10. Pkt. $2.50.

General Crop

1106. Snow White Evergreen. (Specialty, see page 27.) Per ear 20¢. Doz. ears $2.00. Pkt. 10¢. Qt. 35¢. Qt. 60¢. 2 Qts. $1.10. 4 Qts. $2.00. Pkt. $3.75. Bu. $14.00.

1107. Stowell's Evergreen. The earliest strain of the leader of all Corns is in our possession. It remains longer in first-class marketable condition than any other variety. Doz. ears 15¢. Qt. 45¢. 4 Qts. $1.50. Pkt. $3.50. Bu. $13.00.

12205. Perry's Hybrid. Large, twelve-rowed ears; a little later than Minnesota; popular. Pkt. 25¢. Qt. 45¢. 4 Qts. $1.50. Pkt. $2.50.

12214. Shaker's Early. Early, large ears, excellent quality; fine market sort; follows Minnesota. Pkt. $3.00. Bu. $10.00.

1117. Zig-Zag Evergreen Corn. An exceptionally sweet, delicious flavor Sugar Corn. The grains run zig-zag instead of in straight rows. Pkt. 35¢. Qt. 55¢. 2 Qts. $1.00. 4 Qts. $3.50. Bu. $13.00.

1144. Hickory Improver. A sugar corn, white and of very rich flavor. Pkt. 30¢. Qt. 50¢. 4 Qts. $1.75. Pkt. $3.00.

Late Crop

1105. Country Gentleman Sugar Corn. (Specialty, see page 27.) Per ear 15¢. Doz. ears $1.75. Pkt. 10¢. Qt. 35¢. Qt. 60¢. 2 Qts. $1.25. 4 Qts. $2.25. Pkt. $4.25. Bu. $16.00.

1106. Large Late Mammoth Sugar. Pkt. 30¢. Qt. 50¢. Gt. $1.75. Pkt. $3.00.

1100. Shoe Peg or No Plus Ultra. Per ear 15¢. Doz. ears $1.75. Pkt. 30¢. Qt. 50¢. 4 Qts. $2.25. Pkt. $4.25. Bu. $16.00.

1104. Rice Pop Corn for Popping or Seed. Pkt. 20¢. Qt. 30¢. 4 Qts. $1.00. Pkt. $1.75. Bu. $5.00.
Bolgiano's Famous New Early Fortune Cucumber

**Cucumber**

The prolific, vigorous, and productive variety is well suited for home gardens and market production. It is highly recommended for both home and commercial use due to its excellent flavor, disease resistance, and ease of cultivation. The description includes details on its use in cooking, such as for pickling or fresh consumption. The variety is also noted for its compatibility with other vegetables in the garden.

**Pkt., Oz., and 1/4 Lb. Delivered Free**

**Parcel Post Rates, see Page 5**

---

**Culture**

For early, full, and high yields, follow a few simple steps:

1. **Direct Sowing**
   - Sow seeds directly into the garden in early spring, ensuring a warm, sunny location.
   - Ideal soil temperature for germination is 65-75°F (18-24°C).
   - Space plants 18-24 inches apart and 6-8 inches high.

2. **Transplanting**
   - For earlier harvest, transplant young seedlings into the garden at least 6 weeks before the last frost date.
   - Use well-drained soil and avoid planting in heavy, clay soils.
   - Provide adequate spacing to allow for growth and airflow.

3. **Irrigation**
   - Water regularly but avoid overwatering, as cucumbers are sensitive to waterlogged soils.
   - Water deeply once a week or more, depending on soil type and weather conditions.

4. **Fertilization**
   - Apply a balanced fertilizer in the planting bed or use compost to enhance soil fertility.
   -Monitor soil pH to ensure optimal growth conditions.

5. **Pest Management**
   - Monitor for common cucumber pests such as aphids, mildew, and cucumber beetles.
   - Use insecticidal soap or neem oil for natural pest control.

**“Best of All” Kohl-Rabi**

Kohl-Rabi is a versatile vegetable that can be grown in a variety of conditions. The following are key characteristics:

- **Tender and crisp**
- **Resistant to diseases**
- **High yield**
- **Suitable for salads, stir-fries, and soups**

**Comes in a wide range of colors and sizes.**

---

**317. Earliest White Vienna**

This variety is known for its early maturing characteristics. It is ideal for cooler, shorter growing seasons and yields large, round, white cucumbers that are perfect for pickling or eating fresh.

---

**343. Purple Kohl-Rabi**

This variety is a deep purple color, adding a unique visual appeal to the garden. The dark color of the leaves and stems can attract attention and make it a focal point in any garden design.

---

**“Best of All” Kohl-Rabi**

This variety is highly recommended for its excellent flavor, disease resistance, and overall performance. It is a great choice for both home gardeners and commercial growers.

---

**Sage**

Sage is a versatile herb that can be used in various dishes, from poultry to desserts. It has a strong, aromatic flavor that pairs well with many other herbs and spices.

---

**Notes:**

- **Transplanting:** Use peat pots or grow bags to ensure healthy root growth.
- **Harvesting:** Pick cucumbers when they are 6-8 inches long and the skin is smooth and shiny.
- **Storage:** Cucumbers can be stored in the refrigerator for up to 5-7 days, but for longer storage, consider pickling.
- **Pickling:** Use a 1:1 ratio of cucumbers to salt, and add spices like dill, garlic, and hot peppers for added flavor.

New York Improved Purple Egg Plant

One Ounce Will Produce About 5,000 Plants

Culture. The Kale is more hardy than Cabbage, make excellent greens for Winter and Spring use, and are improved by frost. Sow from May to June, and cultivate the same as Cabbage. For early Spring use sow in September, and plant out during Winter. Some of the varieties are so hardy that the green leaves may be dug out from under the snow in Winter and be used for greens.

113. Bore Cole or Kale. Hardy Winter Stargel Kohl. The most popular, delicious and tender of all Winter Kales. About Baltimore it is always in May, and transplanted like Cabbage to stand over Winter. It is taller than the ordinary varieties, and when the leaves are stripped or cut off, new tender leaves quickly come up. Then they are again stripped off and ready for Marketing. It will stand the coldest Winter. Besides being a delicious vegetable, it has always been an exceptionally profitable crop, bringing money during the Winter months when most vegetables are scarce. Pkts. 5c and 10c. 1/2 oz. 15c. 1 oz. 25c. 2 oz. 50c. 1 lb. 85c. 1 lb. $1.50. 5 lbs. $5.00.

112. Extra Dwarf Green Curled Scotch, or Norfolk Kale. One of the best Kales for Spring sowing in the North; the principal sort grown South for Northern markets; hardy, and will remain over Winter wherever temperature does not go below zero. Very dwarf and spreading; seldom exceeding 12 inches in height. Leaves are a bright green color; very tender; used as a leafy vegetable. The leaves are more than 5 inches long and 3 inches in diameter. It has an exceptionally beautiful and curled variety. Pkts. 5c and 10c. 1/2 oz. 25c. 1 oz. 50c. 1 lb. 75c. 1 lb. $1.25. 5 lbs. $5.00.

111. New American, Extra Curled Long Standing Kale. Of a beautiful green color. Pkts. 5c and 10c. 1 oz. 15c. 1/2 lb. 35c. 1 lb. 65c. 1 lb. $1.50.

Endive

110. Bolgiano's New Self-Blanching Endive. A perfect self-blanching endive, beautiful in size and flavor; the flesh is solid in color; deeply cut leaves. The best for Spring sowing, but large enough in the Fall, making greens earlier than the Winter varieties. Pkts. 5c. 10c. 1 oz. 15c. 1/2 lb. 35c. 1 lb. 65c. 1 lb. $1.50.

Leek

114. Poireau Francais. Pkts., Oz. and 1/2 Lb. Delivered Free Parcel Post Rate, see Page 5

Culture. Sow early in April in drills 1 foot apart and 1 inch deep. When plants are 6 to 8 inches high transplant in a deep, rich soil in rows 12 inches apart and 6 inches in the rows as deep as possible, so that the neck may be covered and blanched; draw the earth to them as they grow.

Bolgiano's Famous Mammoth King Leek

114. This stock we have by years of selection built up until its becomes to those who use it a pleasure to grow and a profit too. It has a handsome form, is very mild, agreeable in flavor, grows to double the size of ordinary carrots. The white, has attractive, dark-colored leaves, is stout in habit and hardy. The edible part is $1 to 1 inches long and 3 to 4 inches in diameter. It is without exception the largest and best Leek ever placed in the hands of the grower. Pkts. 5c and 10c. 1 oz. 15c. 1/2 lb. 35c. 1 lb. $1.50. 5 lbs. $5.00.

116. Extra Large American Flag, or Broad London. Distinct and dark-colored leaves; stout in habit and hardy. Pkts., 5c and 10c. 1 oz. 15c. 1/2 lb. 35c. 1 lb. $1.25. 5 lbs. $5.00.
Big Boston Lettuce

Lettuce

Culture. For early summer use, sow in hotbeds in March, sowing every two weeks for succession. Transplant the young plants to rows 2 feet apart and 8 to 12 inches apart in the row. For winter use, sow in August, transplant to frames; and for this purpose the early heading varieties, such as the Millionaire Lettuce, are best adapted. The Cos varieties require to be tied up for a few days in order to properly blanch them.

Earliest Varieties

380. "Long Lost" Lettuce. (Specially, see page 15.) Produces large, extremely solid, compact cabbage heads. It is a reliable sure header and is very hardy. It stands the cold. It is winter over better than Big Boston Lettuce. "Long Lost" Lettuce has both shipping and eating qualities, decidedly buttery in flavor, sweet and tender. Of a solid, bright, attractive green, never spotted or brownish in any part. As a shipper "Long Lost" Lettuce far surpasses every other Lettuce, including the Big Boston. Supply very liberal. Pkts. 10c. and 25c., 1 oz. 30c., 12 oz. 50c., 2 ozs. 85c., 1 lb. $1.75. 1/2 lb. $3.00. 1 lb. $5.00. Postpaid.

137. Black Seeded Tennis Ball or Boston Market. One of the very best for either forcing or early out-doors planting. Plants good size, leaves are of good substance and of attractive, dark green color. Heads are solid, crisp, and tender. Pkts. 5c. and 10c., 1 oz. 15c., 2 ozs. 25c. 1/2 lb. 40c., 1 lb. $1.00. 155. New Lettuce, "Unrivaled." An improvement on the Big Boston Lettuce, possessing earliness, large size, attractive color, etc. It can be sown almost the whole year round, it resists the Summer heat, is crisp and solid. Pkts. 5c. and 10c., 1 oz. 15c., 2 ozs. 25c., 1 1/2 lb. 40c., 1 lb. $1.25. Postpaid.

123. Golden Queen. One of the best first early head Lettuce for either open ground or frame culture, and a good forerunner, medium size, solid, golden yellow, heads, crisp and tender. Pkts. 5c. and 10c., 1 oz. 15c., 2 ozs. 25c., 1 1/2 lb. 40c., 1 lb. $1.00. Postpaid.

136. Millionaire Lettuce. Unquestionably the Earliest and far better than any other extremely early heading Lettuce. A Lettuce fit for any purpose. Pkts. 5c. and 10c., 1 oz. 15c., 2 ozs. 25c., 1 1/2 lb. 40c., 1 lb. $1.00. 122. Improved White Leaf Lettuce. After the most careful cultivation and rearing, we have established the true and most uniform strain of improved White Leaf Lettuce. It is planted largely in the Fall and allowed to remain in the open ground all Winter. In the earliest Spring it quickly forms most delicious, large, light-colored head Lettuce. As a frame Lettuce it has no equal; often 18 heads have brought $2.50 wholesale. If planted in early Spring, it quickly forms heads and can be brought to market long before other Lettuces. Pkts. 5c. and 10c., 1 oz. 15c., 2 ozs. 25c., 1 1/2 lb. 40c., 1 lb. $1.25. Postpaid.

136. New Early Spring Lettuce. In the Early Spring months the splendid Lettuce produces large cabbage-like heads, which are uniform, tender, crisp and sell at highest possible prices. Our most critical Gardeners, year after year, hang on this Lettuce. It is also good for late Summer sowing to produce Fall Head Lettuces. Pkts. 5c. and 10c., 1 oz. 15c., 2 ozs. 25c., 1 1/2 lb. 40c., 1 lb. $1.25. Postpaid.

Shipped in 60 Days from Planting Seed

On August 7, 1917, Mr. W. S. English, of Alachua Co., Fla., wrote: "The 'Big Boston' Lettuce seed I ordered of you in February did well for me. February is very late to plant Lettuce here. We had some very warm weather, all dry on this Lettuce, at time of heading, but your seed headed all O. K. I cut and shipped this crop of Lettuce in 60 days from the planting of the seed."

Cos or "Celery" Lettuce

The Lettuce called Salat Romaine is of distinct, upright growth, and esteemed for its fresh crispness and mild flavor during the Summer and in warm climate.

329. Eclipse or "Express" Cos. The most dwarf and earliest of all. The plants grow stiffly erect, only six inches in height. See page 31. The interior leaves are almost pure white, very crisp, and mild in flavor, even in hot weather. Pkts. 5c. and 10c., 1 oz. 15c., 2 ozs. 25c., 1 1/2 lb. 40c., 1 lb. $1.25. Postpaid.

123. Paris Self-Folding, or Trianon White Cos. Grows to a large size, producing long-pointed, compact bunches. The inner leaves blanch readily and are of fine flavor. Pkts. 5c. and 10c., 1 oz. 15c., 2 ozs. 25c., 1 1/2 lb. 40c., 1 lb. $1.25. Postpaid.

A Grand Large Cabbage Lettuce

Bolgiano's "Big Crop" Vegetable Seeds for 1918

Lettuce

Lettuce

Lettuce

After Fifteen Years' Trial

On July 13, 1917, Messrs. H. D. Wood & Co., of Alachua Co., Fla., wrote: "We have been growing Lettuce from your 'Big Boston' seed for 15 years continuously and we have found them entirely satisfactory."
Bolgiano’s Celebrated Big Head Lettuce

118. Bolgiano’s “Gold Prize.” 1. Headsome, very large, solid head, 2. Will not rot in the stem. 3. Outer leaves a beautiful light green color. 4. Inner head round, creamy, tender and crisp. 5. Very slow to go to seed. Pronounced by experts to even surpass our celebrated Big Head Lettuce. Not tough like Delineace Lettuce. 7. Large and a few days later than our Big Head Lettuce. 8. Outer dark green, perfectly round or a fine extra fine quality. Pkt. 5c and 10c. Oz. 15c. 1/4 lb. 10c. Sl.OO. Postpaid.

131. Mammoth Black Seeded Butterhead

Pkt. Oz. 1/4 lb. Lb. 15c. 35c. 1/2 lb. 50c. 1 lb. $1.00. Postpaid.

149. Reicher’s Early White Butterhead

Pkt. 5c &10c. Oz. 15c. 35c. 1 lb. 10c. $1.00. Postpaid.

151. Philadelphian Dutch Sprinkled Butterhead

Pkt. 5c & 10c. Oz. 15c. 35c. 1 lb. 10c. $1.00. Postpaid.

153. Baltimore Cabbage Butterhead

Pkt. 5c & 10c. Oz. 15c. 35c. 1 lb. 10c. $1.00. Postpaid.

162. Early Dutch Butterhead Spotted

Pkt. 5c & 10c. Oz. 15c. 35c. 1 lb. 10c. $1.00. Postpaid.

Solid Crisp Head Lettuces Also Loosehead Varieties

142. Bolgiano’s New “Frosted North” Lettuce. This delicious new Crisp Head Lettuce will delight our customers. (Specialty, see page 31.) Pkt. 5c and 10c. Oz. 20c. 2 Ozs. 35c. 1/4 lb. 60c. 1/2 lb. $1.00. Lb. $2.00. Postpaid.

143. Bolgiano’s Baltimore Oak Leaf. This Lettuce will resist the heat of Summer and stands long. The leaves are tender and sweet than the usual Oak Leaf. It makes a large head, and is very popular with those who know it. Pkt. 5c and 10c. Oz. 15c. 1/4 lb. 35c. 1 lb. $1.00. Postpaid.

145. Hanson. Grows to large size and is uniformly sure heading. Heads very solid and beautifully blanched; crisp, mild and tender. One of the finest varieties to grow for market during the Summer months. Pkt. 5c and 10c. Oz. 15c. 1/4 lb. 35c. 1 lb. $1.00. Postpaid.

147. Black-Seedled Simpson. Very large, finely fringed. Pkt. 5c and 10c. Oz. 15c. 1/4 lb. 35c. 1 lb. $1.00. Postpaid.

149. Early White Butterhead. (Poche Cabbage). Large, loose heads, tinged with brown. Pkt. 5c and 10c. Oz. 15c. 1/4 lb. 35c. 1 lb. $1.00. Postpaid.

209. Early Cursed Simpson or Silesia Lettuce. Makes large bunches of crisp, tender, early leaves; this Lettuce is the most popular of all for family gardens. Pkt. 5c and 10c. Oz. 15c. 1/4 lb. 35c. 1 lb. $1.00. Postpaid.

Try Mustard cooked like Spinach—it is delicious. One ounce will seed 100 feet of drills.

203. Southern Giant Curled. The true curled leaf variety, sweet flavor, pungent and succulent; used for early salad. Pkt. 5c. Oz. 15c. 1/4 lb. 35c. 1/2 lb. 75c. 1 lb. $1.25.

209. Ostrich Plume Mustard or Fordhook Fancy. Desirable and ornamental. It is distinct from any other variety. The plants are of vigorous growth and the leaves are large and handsome. The leaves are thoroughly curled and laminated as the best double curled Parsley, making the leaves equally desirable for garnishing. So attractive is the habit of growth and the feathery effect of the finely fringed leaves that this plant is quite worthy of a place in the garden as an ornamental border plant. Pkt. 5c and 10c. Oz. 15c. 1/4 lb. 35c. 1 lb. $1.00. Postpaid.

527. Black or Brown Mustard. Pkt. 5c and 10c. Oz. 15c. 1/4 lb. 35c. 1 lb. $1.00. Postpaid.

528. White Mustard. Pkt. 5c and 10c. Oz. 15c. 1/4 lb. 35c. 1 lb. $1.00. Postpaid.

Mushroom Spawn

BLANC DE CHAMPIGNON

Selio: Champignon

Culture. Mushrooms may be grown in cellars, under benches in greenhouses, or in sheds wherever the temperature of 50 degrees can be kept up during the Winter. The beds should be made from November to February, according to the time. The Mushrooms are wanted, and it requires about two months for them to begin bearing. Secure fresh horse dung, free from straw and litter and mix an equal bulk of loam from an old pasture with it. Keep this under cover, taking care to turn it every day to prevent it from heating, until the pile is large enough to make it almost sterile. Three to four feet wide, eight inches deep and any length desired are the proper proportions for a bed, but this may be varied. Prepare the mixture of loam and manure, making the bed in layers and panning down each with the back of a spade. Leave this to dry through for a few days, and as soon as the heat subsides to 90 degrees make holes in the bed about a foot apart each way, into which put pieces of spawn 2 or 3 inches in diameter; fill up the hole with compost, and at the expiration of a week or 10 days the spawn will have thoroughly diffused itself through the bed. Spread layer of soil over the heap to the depth of 2 inches, and cover with 3 or 4 inches of hay, straw or litter. Examine bed often to see that it does not dry out. Take special care, however, when water is given that it be at a temperature of 100. One brick to a bed 6 feet square.

Best English Mill Track Spawn. Brick of 1/4 lbs. 25c. 10 lbs. $2.00. 25 lbs. $3.75. 100 lbs. $12.00.
Green Fleshecl Varieties

16. "Junior" Rocky Ford. A little larger, two weeks earlier, twice as prolific as Rocky Ford. (Specialty, see page 33.) Pkts. 5c and 10c. Oz. 15c to 25c. Lb. 85c. $1.50. Postpaid.

150. Honey Dew. The new Melon. (Specialty, see page 10.) Average size 6 inches in diameter and 7 to 8 inches in length. Weight averages 8 to 10 pounds. The skin is smooth and the rind though thin is quite firm. Will keep until Christmas. Creamy yellow when ripe. Flesh an emerald green. Can be eaten to the extreme end. Is a good shipper. Pkts. 10c. 1 oz. 25c. Oz. 50c. 2 oz. 95c. 1 lb. $1.75. 12 lb. $20. 50 lb. $50. Postpaid.

341. Henderson's Bush Cantaloupe. (Specialty, see page 33.) The only Bush Cantaloupe in the World. Produces an abundance of delicious melons. Require very little ground. Good for the market gardener. Southern shipper and especially valuable for the small kitchen garden. Pkts. 5c and 10c. Oz. 15c to 25c. Lb. 85c. $1.00. Postpaid.

207. Watters' Improved Solid Net Rocky Ford Cantaloupe. (Specialty, see page 33.) This is the earliest strain of Rocky Ford Cantaloupes. The meat is light green, spicy and sweet. The heavy gray netting is very freely faced. Pkts. 5c and 10c. Oz. 15c. Lb. 25c. Lb. 85c. Postpaid.

167. Eden Gem or Netted Rocky Ford Rocky Cantaloupe. This mutant strain of a new Melon is a selection of the old Rocky Ford, which it completely surpasses in lusciousness, yield,carrying, and good selling qualities. The shape is somewhat longer and a trifle fatter and closer and deeper netted. Pkts. 5c and 10c. Oz. 15c. Lb. 25c. Lb. 85c. $1.00. Postpaid.

157. Thoroughbred "Rocky Ford" Cantaloupe. (Specialty, see page 33.) Thoroughbred Stock, Boligianos' Trustworthy Stock. The color in the world. Color of rind in crevices and unions light green turning toward prashly shade when ready to pick and ship long distance. Rind very tough. When cut, meat rich green changing very slightly toward gold near the centre. Fine grained, firm and of high quality, very spicy and sweet; flesh very deep orange, juicy, tender, very firm in the flesh. Fruit yields, having produced 300 standard crates from one acre; somewhat later than our "Junior" Rocky Ford, but continues a long time in bearing. Last but not least, it is the excellent shipper. Pkts. 5c. Oz. 10c. 1 lb. 25c. 1/2 lb. 40c. Lb. 75c. Postpaid.

166. Anne Arundel. Large, green fleshed, deeply netted. Pkts. 5c and 10c. Oz. 15c. 1/2 lb. 25c. Lb. 75c. Postpaid.

333. Acme or Baltimore. Popular, large, fine flavored. Pkts. 5c and 10c. Oz. 15c. 1/2 lb. 25c. Lb. 75c. Postpaid.

Orange Fleshecl Varieties

51. Melting Gold Rocky Ford Cantaloupe. A large, new Melon that was ever eaten. The sweet luscious flesh is as well melted as an orange. It is the best and ripest Cantaloupe in the world and a splendid, profitable shipper. (Specialty, see page 33.) Pkts. 5c and 10c. Oz. 15c. Lb. 25c. Lb. 85c. $1.50. Postpaid.

574. Salmon Fleshecl Eden Gem. Outward appearance is identical with the Eden Gem, but a trifle more uniform in size; it is the best long distance shipping Rocky Ford strain, with a new delicious flavor and color, and one of the finest netted melons known. Pkts. 5c and 10c. Oz. 15c. 1/2 lb. 25c. Lb. 75c. Postpaid.

Salmon Fleshecl Eden Gem Rocky Ford Cantaloupe

Purist Rocky Ford Cantaloupe

334. Pollock Rocky Ford Cantaloupe. A rust resisting melon, with netting over the blossom end; not a long melon, but rather inclined to be short with the finest flesh and eating qualities. The selections from time to time have reduced the size; now they create need. Pkts. 5c and 10c. Oz. 15c. 1/2 lb. 25c. Lb. 85c. $1.75. Postpaid.

330. Boligiano's "Golden Sweet" Cantaloupe. (Specialty, see page 33.) Juicy, light green flesh, entirely stringless, especially luscious, tender, melts in the mouth, as sweet as honey. Plant same time you would any other melon. When the under side of the melon becomes a golden yellow it is ready to take off. They can be laid in sand and covered with straw, being careful not to allow them to touch each other. In this way they can be kept until Christmas. Pkts. 10c. Oz. 15c. 1/2 lb. 25c. Lb. 85c. Lb. $1.50. Postpaid.

357. Knight, or New Maryland Cantaloupe. (Specialty, see page 33.) A very popular melon with large growers and shippers; somewhat larger than the Rocky Ford or Netted Gem. We offer the original stock, which is superior, to Ph. 5c and 10c. Oz. 15c. 1/2 lb. 25c. Lb. 85c. Postpaid.

111. Norfolk Button. They are excellent little melons. Very early, very close and uniform in size, and with an occasional button at the blossom end. Deliciously sweet. Pkts. 5c and 10c. Oz. 15c. Lb. 25c. Lb. 85c. 10c. Improved Jenny Lind. The Jenny Lind is the earliest small to medium sized melon known. It is very uniform in size, well netted and with thick meat. Small seed cavity. Pkts. 5c and 10c. Oz. 15c. 1/2 lb. 25c. Lb. 85c. Postpaid.

Baltimore Nutmeg Cantaloupe

The Original Stock. Finest on Earth. 150. This is definitely the finest form and color, and unexcelled as a shipper. Our seed of Baltimore Nutmeg Cantaloupe is produced under a climate, forerunning one of the hardiest and most prolific melons or any other melon. This insures a parent stock of the finest flavor. We recommend this melon, and firmly believe the cash balance of every trucker will be materially increased if he grows our superior stock of Nutmeg Cantaloupe. Pkts. 5c and 10c. Oz. 15c. 1/2 lb. 25c. Lb. 85c. Postpaid.
Watermelon

**Culture.** The soil for Watermelons must be light, rich and sandy. If grown on a heavy soil the quality will be poor, and they will not be so early. When there is more than one crop of frost from 8 to 10 seeds in hills 8 to 10 feet apart each way, covering about ½ inch deep. As soon as plants commence to run, thin out to 3 best plants in a hill, and let the vines cover the whole ground. If slow to fruit, pinch off the ends of the growing shoots. Any or all seeded fruit sown in hills up to 30 hills, and it takes 3 to 4 pounds to an acre. (Specialty, see page 32.) The New Giant Watermelon; large, enormously productive, has a rich, dark green skin, fine quality, remarkable shipper. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid. 172. Indian Chief. Bolgiano’s Wonderful New Watermelon. Distinct from all other varieties. Has created a sensation. (Specialty, see page 32.) Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

**Oil** in Watermelon. A fine, large, round, dark green melon, originated in Maryland, of excellent shipping and keeping qualities. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

173. Cole’s Early Watermelon. Succeeding in many States where melons were never matured before. The flesh is a beautiful, bright red color, crisp and delicate like a sweet melon. It is not heartless, but good in all respects. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

174. Fordhook Early Watermelon. An extra early variety, with fine quality and large size. The skin is crimson, skin green, flesh bright red, seeds white. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

175. Peerless Ice-Cream Watermelon. Very early and one of the best form oval, rind mottled light green, flesh firm and sugary. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

176. Florida Favorite Watermelon. The flesh is a beautiful, clear crimson, extending to the rind. The rind is thick and strong, making it an excellent shipper. It is beautifully striped light and dark rind, and a very large yielder. The shape is oblong, the flavor is excellent, making it one of the best in cultivation, both for the home garden and large growers. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

177. Tom Watson Watermelon. (Specialty, see page 32.) A large, ovoid, melon, dark green skin, with thick netting. Rind is thin but tough. The flesh is bright, attractive red color, of a delicious, most satisfying flavor. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

178. Georgia Rattlesnake or Striped Gypsy. Has gained great popularity for its large size and great shipping qualities; shape oblong, of light green color and beautifully mottled and striped with a light shade; flesh scarlet, rind thin, very solid, and both sweet and delicious. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

179. Triumph Watermelon. (Girardeau’s Monster.) The largest melons that have ever been grown. An excellent shipper. There is a deep green color, Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

180. King Gem. Of a delicious, sugary flavor; bright red flesh. It is fine and solid and an excellent keeper. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

181. Jordan’s Gray Monarch or Long White Icing. Skin is mottled gray color, shape, a long, white rind, sweet, delicious flavor. A fine shipper, carrying well long distances. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

182. Mammoth Ironclad. Extra large, dark, productive. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

183. Bradley Watermelon. Long, dark green, good quality. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

184. Mountain Sweet. An old favorite variety, but still the standard of excellence for quality: fruit long and very dark green. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

185. Duke Jones. One of the largest and most productive melons. Each plant should be cleared white green color and a good shipper. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

186. Sweet Heart. Globular in shape, skin very bright mottled green, flesh bright red, firm and heavy, but exceedingly sweet. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

188. Kleecky’s Sweet. Oblong, dark green. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

189. Seminole. Excellent flavor. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

190. Melcon’s Sugar. Oblong, light and dark green stripes. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

191. Dixie. Long Improved. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

192. Red seed Citron. A large, fruits of exceptional flavor. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

201. Bolgiano’s Imperial Dwarf Short Pedded Okra. It has a dwarf, shapely, drum-shaped pod, of an attractive green color. The flavor is exceptionally rich. Our home gardeners willingly pay 20 to 25 cents per box more than any other sorts would bring. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c.}

**Nasturtium.** Nasturtium of all varieties are useful for furnishing tender seed-pods which make delicious pickles. The seeds for pickling should be gathered while green attached, and dried off in a warm room and place in a jar until dried; then cover them with elder vinegar that has been brought to the boil and is still warm, to keep for Winter use. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

205. White Velvet Okra. The pods of this distinct and beautiful new Okra are much longer, perfectly smooth, never prickly. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.

206. Lady Finger Okra. The plants are uniform in growth and with their Hibiaceous-like flowers make a pretty sight. The plants produce long, tender pods of fine, round white, and smooth. Pkt. 5c. Oz. 1c. 1/2 lb. 6c. 1 lb. 80c. Postpaid.
Onion

Oignon Gélatine

One Oz. to 100 Ft. of Drill

4 to 5 Lbs. to the Acre

Bolglano’s “Big Crop” Vegetable Seeds for 1918

Crystal Wax-Onion, Tenerife.

Price given below are those ruling when this catalog goes to press and are subject to market changes.

Bolglano’s Hollow Hub Parsnip.

Very best of all Parships, it is unequalled. (Specialty, see page 34.)

Hollow Crown Sugar Parsnip.

Fine grained, true hollow crown; has thick shoulders, tapers symmetrically to a single tap root. Are easily gathered; heavy croppers; roots run uniformly smooth, with fine grained flesh, and good quality. Pt. 7c. Oz. 15c. 1 Lb. 50c.

Guernsey. (Improved Half Long.) A greatly improved strain. The roots do not grow as long as the old type, but are as large, and very deeply goitered. A heavy cropper. The roots are very smooth; the flesh is fine grained and of most excellent quality. Pt. 5c. Oz. 15c. Lb. 40c. $1.25.

Parsley

Extra Early Dwarf Varieties

1907. **New Long Podded Alaska Pea.** We recommend this new Pea as the greatest money making Pea that has been introduced since we first put out the Wonder Worker Pea. Be sure to give it a trial. (Specialty, see page 30.) Height 24'/2 ft. Pkt. 10c. Qt. 35c. 4 Qts. $1.80. Ea. 40c. $4.00. 10c. £1.50.

1908. **Improved Sugar Marrowfat Pea.** Its luxuriant growth and abundant, large and handsome pods reward cultivation. It is grown extensively by the largest truckers. Height 3 feet. Pkt. 10c. Qt. 35c. 4 Qts. $1.25. Bu. $2.00.

Second Early and General Crop Varieties

1089. **Bolgiano’s “CRACKER JACK” Pea.** (Specialty, see page 30.) Height 2'1/2 ft. Pkt. 10c. Qt. 35c. 4 Qts. $1.80. Ea. $0.80.

1201. **Shropshire Hero.** Very productive; fine flavor; long, handsome pods. Height 2'/2 ft. Pkt. 10c. Qt. 35c. 4 Qts. $1.80. Bu. $2.25.

1085. **Telephone Improved.** Robust habit. A single vine produces 18 to 30 unusually long well filled pods of large size, containing 10 to 12 Peas, often forming a double row, of fine flavor. Height 5 feet. Pkt. 10c. Qt. 35c. 4 Qts. $1.80. Bu. $3.50.
Northern Grown Seed Potatoes

Grown Expressly for Seed
We Are Large Growers of Aroostook County (Maine) Grown Seed Potatoes

Owing to the unsettled condition of the market on Potatoes, it is impossible for us to make prices at the time this catalog goes to press. Please write us for lowest quotations.

Because of the scarcity of barrels in Maine we always ship as barrel seeds of 50 lbs. net. If wanted in barrels add 35c to the price of barrel seeds.

Culture. Any good, well drained, fibrous loam will produce Potatoes under right climatic conditions. Open borrows 3 feet apart and 3 to 4 inches deep. Apply the fertilizer, and run the furrower or small plow again in the furrow to mix the fertilizer with the soil and leave a mellow seedbed. Then plant good-sized pieces, each containing not less than 2 or 3 eyes, 15 inches apart in the furrows for early Potatoes, and 18 inches apart for late ones. Cultivate often. Spray with Bordeaux Arsenate of Lead mixture as a protection from flea beetles. Potato beetle and blight. 3 to 10 bushels will plant an acre.

Trust Buster. Bolgiano’s Wonderful, New, Prolific Yielder, early Seed Potatoes. (Specialty, see page 36.) Please write us for lowest prices.

Plucky Baltimore. (Specialty, see page 36.) The best and earliest Potato on earth. Without an equal. Please write us for lowest prices.

Gray’s Mortgage Lifter Seed Potato. An enormous yielder, second early Potato with no curls. (Specialty, see page 36.) Please write us for lowest prices.

Bolgiano’s Famous Prosperity Potato. (Specialty, see page 37.) Yields fine crops of even, fine, smooth, large Potatoes, under the most unfavorable circumstances. Flesh is as white as snow and cooks dry and mealy. Please write us for lowest prices.

Carmon No. 3. Most successful of the Carmon’s; heavy yielder. Please write us for lowest prices.

Red Bliss Triumph or Improved Red Bermuda. One of the earliest varieties grown. He great productivity, handsome color and resistance to disease makes it most popular. Please write us for lowest prices.

Pride of the South. This variety is a twin to the Red Bliss Triumph in everything except color, it being white with pink eye. Please write us for lowest prices.

Early Ohio. One of the standard early varieties, full week earlier than the Early Rose; shape oblong; quality dry, mealy. Please write us for lowest prices.

Irish Cobbler. It is a vigorous grower, ripens uniformly, and a good keeper. Please write us for lowest prices.

Early Red or White Bliss. Please write us for lowest prices.

Early Thoroughbred. One of the most popular of the Early Rose varieties. Please write us for lowest prices.

Carmon Jewel. Maine grown, good drought resister, good keepers, white, pink end, early. Please write us for lowest prices.

Early New Queen. Every Potato ripens at one time, snowy white when baked, delicious flavor. Please write us for lowest prices.

Early Norther. Fancy stock, early extra, rose color, very productive, a favorite. Please write us for lowest prices.

Empire State. Great yielder, popular. Please write us for lowest prices.

Early Fortune. Odor, productive. Please write us for lowest prices.

Early Harvest. Very popular in the largest Potato section. Please write us for lowest prices.

White Elephant. Most largely grown, heavy cropper, excellent quality, white flesh. Please write us for lowest prices.

Burbank Seedling. An old standard, popular on account of its fine eating quality. Please write us for lowest prices.

Puritan or Polaris. A splendid early variety, white and fine, very prolific, yielding large crops of handsome Potatoes of most superior table qualities. Please write us for lowest prices.

Dakota Rose. An enormous yielding, Dark Red Rose Potato. Please write us for lowest prices.

American Giants. One of the most popular of the new heavy yielding Potatoes. Please write us for lowest prices.

McCormack Potatoes. A very late, heavy yielding Potato, about the best of all Winter keepers. Please write us for lowest prices.

Dewdrop. A long, white Potato, very shallow eyes, big yielding, elegant cooking qualities; matures about the same time as the Green Mountain. Please write us for lowest prices.

New Snow is an offspring of the Green Mountain. Yields much better. Its cooking qualities are unsurpassed. A desirable Potato for New Jersey, Pennsylvania and New York State; we do not recommend it for the Southern States. Please write us for lowest prices.

Clark’s No. 1. Earlier than Rose, oblong, pink color, mealy, meek flavor. Please write us for lowest prices.

Maine Houlton Early Rose. The genuine Early Rose still remains the standard early variety. Please write us for lowest prices.

Ensign Bagley or White Rose. An excellent cropper, smooth, not susceptible to disease. Please write us for lowest prices.

Early Six Weeks. Ready for table in six weeks. Please write us for lowest prices.

Henderson’s Early Bovine. Please write us for lowest prices.

Sir Walter Raleigh. Big cropper, flesh white, superior quality, fine grained. Please write us for lowest prices.

Green Mountain. A very popular, main crop Potato. Please write us for lowest prices.

Rural New Yorker. Second early large, smooth, white, wide as long, very productive. Please write us for lowest prices.

- -

Pepper

Culture. Sow in hotbeds in March, and when the soil has become warm, set in rows 2 feet apart and 18 inches in the row; hoe frequently; the plants may also be forwarded in small pots.

Scarlet Mammoth, Bolgiano’s New Early Pepper. Much earlier and more prolific than the Chinese Giant. (Specialty, see page 26.) Pkts. 5c and 10c. ½ Oz. 40c. Oz. 75c. ½ lb. $2.75. 1 lb. $5.00. $8.90. Postpaid.

Chinese Giant. (Specialty, see page 26.) Pkts. 5c and 10c. ½ Oz. 40c. Oz. 75c. ½ lb. $2.75. 1 lb. $5.00. $8.90. Postpaid.

New Neapolitan. (Specialty, see page 26.) Pkts. 5c and 10c. ½ Oz. 40c. Oz. 50c. 2 Oz. 90c. ¼ lb. $1.60. ½ lb. $2.25. 1 lb. $7.25. Postpaid.

Mammoth Ruby King Peppers. Extra Selected Stock. (Specialty, see page 26.) Recognized as one of the best Red Peppers for market or family use. Pkts. 5c and 10c. ½ Oz. 40c. Oz. 75c. ½ lb. $2.75. 1 lb. $5.00. Postpaid.

Bell or Hot Bull Nose. Large, hot, red, pickling. Pkts. 5c and 10c. Oz. 50c. ¼ lb. $1.60. ½ lb. $3.50. Postpaid.

Sweet Bull Nose. Pkts. 5c and 10c. Oz. 50c. ¼ lb. $1.60. ½ lb. $3.50. Postpaid.

Sweet Mountain. Flesh very thick and mild. Pkts. 5c and 10c. Oz. 50c. ¼ lb. $1.60. Postpaid.

True Red Chili. Not as long or thick as Cheyenne. Pkts. 5c and 10c. Oz. 50c. ¼ lb. $1.60. Postpaid.

Long Red Cheyenne. For Pickling. Pkts. 5c and 10c. Oz. 50c. ¼ lb. $1.60. ½ lb. $3.50.

Red Cherry. Pkts. 5c and 10c. Oz. 50c. ¼ lb. $1.60. ½ lb. $3.50.
Radish

**Radish**

*H. de Rade*

*Barbas y Rabanitos*

**Pickts., Ozs. and ¼ Lb. Delivered Free.** *Parcel Post Rates, Page 5.*

2 Ozs. to 100 Feet of Drill.

**Culture.** Sow as soon as the ground is dry in the Spring, in rows 8 to 12 inches apart, every week or 10 days for succession, up to the middle of July for which they are little used, unless a cool northern spot can be found where the ground is shaded during part of the day. They should be sown in light, rich soil, as a crisp Radish cannot be produced in heavy soils. Sow also in early Fall for late crops and Winter use. Sow 8 to 12 pounds to the acre. Radishes should be eaten when quite small; it is a mistake to let them grow too long and too large. This applies particularly to Ruby King and small turnip-shaped sorts.

**Extra Early Round Varieties**

9. **Tip Top White Tip.** The beautiful New Extremely Early Radish. (Specialty, see page 35.) Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 50c. ½ Lb. $1.15. Lb. $2.00. Postpaid.

225. **Strawberry Radish.** (Specialty, see page 35.) This is the extremely early round Radish that attracted so much attention when we first introduced it by sample packages to our Market Garden customers. Pkts. 5c and 10c. Oz. 25c. ¼ Lb. 75c. ½ Lb. $1.35. Lb. $2.50. Postpaid.

230. **Ruby King.** *Bolgiano's Extra Early Radish.* The best of all brilliant red Radishes. (Specialty, see page 35.) Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 50c. ½ Lb. $1.15. Lb. $2.00. Postpaid.

238. **Bolgiano's Round Scarlet Globe Radish.** Rich, scarlet color, faultless shape, matures in 20 days. Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 50c. ½ Lb. $1.15. Lb. $2.00. Postpaid.

232. **Leisinger Market Money Maker.** The best early, white, turnip Radish. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. $1.50. & 25c. ½ Lb. $2.50. Oz. 10c. Globes should be eaten when quite small; it is a mistake to let them grow too long and too large. This applies particularly to Ruby King and small turnip-shaped sorts.

**Early Round Varieties**

249. **Bolgiano's Solid Crimson King.** (Specialty, see page 35.) Doubly the size of the ordinary early turnip-shaped Radishes, this one often measuring 6 to 7 inches in circumference; the shape varies between round and oval, adapted for either open ground or forcing. Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 50c. ½ Lb. $1.60. Lb. $2.75. Postpaid.

259. **Scarlet Turnip White Tip Radish.** Round, bright scarlet, attractive growth, 30 days. Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 50c. ½ Lb. $1.00. Lb. $3.75.

335. **Rosy Gem.** Everybody wants this pretty, crisp, tasty little French Radish, so showy with its brilliant carmin red, contrasted with its immaculate white. Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 50c. Lb. $1.75.

409. **Early Snowball.** **Forcing White Turnip Radish.** Earliest, round, white, solid. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. $1.50.

233. **French Breakfast Radish.** Quick growth, mild, tender, good for forcing. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. $1.50. & 75c. ½ Lb. $3.00.

410. **Tait's Favorite Forcing Early Radish.** For forcing under glass, but also hardy for field culture. Perfect both in shape and color, the skin being a bright, transparent red, and many bunches may be put in a single package. Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 50c. Lb. $3.50.

417. **New Sparkler White Tip Red Radish.** Pkts. 5c and 10c. Oz. 20c. ¼ Lb. 50c. ½ Lb. $1.10. Lb. $3.50.

**Early Long Varieties**

255. **Improved Early Long Scarlet Short Top.** The finest strain of the most popular Radish. The long, slender, handsome red roots are most attractive. They are ready in about 25 days. Crisp, brittle and of choice quality. 5 to 6 inches. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 25c. Lb. 75c.

250. **Bolgiano's New Long Red Glass Radish.** (Specialty, see page 35.) Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 15c.

25c. ¼ Lb. 40c. Lb. 75c. Postpaid.

255. **Cincinnati Market.** A strain of the Long Scarlet; growing to slightly larger size, fully as early and darker in coloring. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 20c. Lb. 50c.

572. **Weeds' Early Frame.** This is an extra early strain of the Long Scarlet Short Top, largely used for growing under glass. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. $1.50. Postpaid.

249. **White Pearl Forcing.** **Bolgiano's Early Long Radish.** Sweet, crisp flavor, very popular and profitable. (Specialty, see page 35.) Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. ½ Lb. 80c. Lb. $1.50. Postpaid.

262. **White Jicita Radish.** Introduced from Germany, is one of the finest and longest of the very early, pure white Radishes. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. $1.50.

501. **Lady Finger or White Vienna.** Long white, very early, attractive. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. 50c.

250. **Bolgiano's New White Delicacy.** Beautiful form, exceptionally clear, bright, waxy appearance, exceedingly smooth, delicate crisp and tender. It has short tops, Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 40c. Lb. $1.15. Postpaid.

257. **Half Long Deep Scarlet.** Very popular in the New Orleans Market. The radishes are of slightly larger diameter and most brilliant scarlet coloring. Flesh purest white, crisp, juicy. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 25c. Lb. 75c.

**Summer and Autumn Varieties**

251. **New White Strasburg Radish.** The most popular Summer Radish; of oblong shape, tapering to a point. Skin and flesh are pure white, almost transparent; very tender, of a delightful pungent taste. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 25c. Lb. 75c.

254. **Large White Globe Summer.** Deliciously mild and sweet. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 25c. Lb. 50c.

241. **Giant White Stuttgart.** An immense white Summer Radish. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 35c. Lb. $1.25.

257. **Charter or Shepherd.** Long, crimson, tipped with white. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 25c. Lb. 85c.

257. **Golden Globe Summer Radish.** Grows quickly to a fair size and withstands heat and drought remarkably well. Of excellent flavor. Pkts. 5c and 10c. Oz. 10c. ¼ Lb. 25c. Lb. 85c.

257. **New Winter Radish Osaka.** Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 35c. Lb. $1.25.

**Winter Varieties**

237. **Round White Spanish Winter.** Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 35c. Lb. $1.25.

264. **Long Black Spanish Winter.** Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 35c. Lb. $1.25.

264. **Rhubarb or Pie Plant.** Victoria. A good market sort, stalks red. Pkts. 5c and 10c. Oz. 15c. ¼ Lb. 30c. Lb. $1.00.

**Solid Crimson King Radish**
Running Varieties

272. Early Prolific Orange Marrow. A very early, prolific Boston Marrow of most delicate flavor and uniform type. Suitable for Fall or Winter. Pkt. 5c. Oz. 12c. Lb. 35c. Lb. $1.75.

275. Bolguano’s New “Great Giant” Salsify. The largest, sweetest, and best Salsify to grow. Pkt. 5c and 10c. Oz. 25c. 1/4 Lb. 70c. 1/2 Lb. $1.25. 1 Lb. $2.25.

276. Sandwich Mammoth White Salsify. In quality, pure white color, very meaty and fine flavor. Our stock unusually large and shaped like Pkt. 5c and 10c. Oz. 25c. 1/4 Lb. 65c. Lb. $2.00.

Spinach

1104. Curled Leaf Savoy or Bloomsdale, Imported. We grow many thousands of pounds of both the American and Imported seed every year. We believe our private stock is the choicest it is possible to produce. We solicit your orders. Pkt. 5c and 10c. Oz. 20c. 1/4 Lb. 50c. 1 Lb. $1.15.

1105. New Improved Curled Long Standing. The very best for Spring. (Specially, see page 34.) Pkt. 5c and 10c. Oz. 20c. 1/4 Lb. 50c. 1 Lb. $1.75.

275. New Improved Curled Long Standing. The very best for Spring. (Specially, see page 34.) Pkt. 5c and 10c. Oz. 20c. 1/4 Lb. 50c. 1 Lb. $1.75.

1106. Curled Leaf Savoy, or Bloomsdale. American Grown. Large curled and wrinkled leaves (tender) finest flavor. Pkt. 5c and 10c. Oz. 20c. 1/4 Lb. 50c. 1 Lb. $1.75.

1108. Long Standing Thick-Leaved. Leaves are large, thick, fleshy and crumpled, fully equal to the Savoy Leaf. Pkt. 5c. Oz. 10c. 1/4 Lb. 1/2 Lb. $1.75.

1253. Early Giant Thick-Leaved. A new and superior Spinach, either sown in Spring for early Summer use or fall for Winter use, the leaves are very slow to mature, the plant is white and plant compact, growing with strong stems, thick and fleshy rich green leaves. Pkt. 5c and 10c. Oz. 20c. 1/4 Lb. 50c. 1 Lb. $1.75.

Did Well Even in a Bad Season

On June 25, 1916, Mr. P. K. Richardson, of Alachua Co., Fla., wrote: “In regard to Bolguano’s Early Prolific Orange Marrow Squash purchased of you, beg to state they germinated and came up better than any Squash seed I have ever planted, through the summer months and weather conditions were unfavorable, and I made a fairly good yield. They have done well and if I plant Squash another season as usual I shall seek J. Bolguano & Son’s Seed Store.”
Not an Ounce of Canning House Tomato Seed Is Allowed to Enter Our Establishment.

Culture. For first early Tomatoes select varieties of the earliest types, and start the seeds under glass during February. When plants are 2 inches high, transplant into flats, thumb pots or plant boxes, and later on transplant again, giving more room. Never crowd the plants, but keep them short and stocky. Plants already in bloom or with fruit set, if in wooden plant boxes or pots, may be transplanted to the open ground without disturbing their roots, and will grow and set fruit with profit. When fruits are large, clean, and firm, the plants may be dug and stored in cellars. When ready for use, the cans are filled with water, partially heated, and the filled cans are placed in a brine bath kept at a temperature of 170 degrees. The tomato is then immersed in this brine for from 5 to 7 minutes, and the canned fruit is then cooled in cold water. The brine bath is drained each day, the pipes are cleaned and the new brine added. Large, clean, high-class tomatoes are indispensable for canning. Tomatoes are commonly canned in two ways, the first, with the skin on, the second, with the skin off. The skins must be perfectly ripe and dry. The fruit and skins are placed in the cans, covered with boiling brine, and sealed tight. There are two kinds of brine, one for tomatoes with skin on, and one for tomatoes with skin off. The brine should be kept in good order and used as soon as possible. The proper temperature for cooking is 150 degrees. The brine should be boiled for 10 minutes, and then poured on the fruit to fill the cans. The tomatoes should be cooked until thoroughly soft, and the brine should be thick and clear. The cooking time will vary with the size and quality of the tomatoes. After cooking, the tomatoes are placed in cold water for a few minutes, and then removed and cooled. The cans are then filled, and the lids are placed on. The lids are then driven down tight, and the cans are stored in a cool, dry place. Canned tomatoes should be stored in a cool, dark place, away from direct sunlight. They should be consumed within a few months after canning. If stored under favorable conditions, they will keep for a year or more. Canned tomatoes are used for all kinds of purposes, both as a cooking ingredient and as a preserve. They are used for making sauces, gravies, and soups, and also for making preserves, jellies, and marmalades. They are also used for making pickles, relishes, and preserves. Canned tomatoes are a valuable addition to the table and should be used whenever possible. They are an excellent preservative and should be used to advantage. They are a valuable addition to the table and should be used whenever possible. They are an excellent preservative and should be used to advantage. They are a valuable addition to the table and should be used whenever possible. They are an excellent preservative and should be used to advantage.

Bolgiano's Best Tomato—the Great B. B.—Leader for 20 Years

Tomato

The Largest and Most Successful Tomato Growers in Maryland, Ohio, Indiana, Florida, Texas, Throughout the South, in Canada, Mexico, Australia and Every State in the U. S., where Tomatoes are grown—They All Say, 'Year After Year, Bolgiano's Tomato Seed Produces the Best Tomato in the Garden.'

Red Tomatoes

294. Dwarf Aristocrat. A dwarf that resembles the Dwarf Champion. The fruit is a beautiful glossy red. Amati, $2.75; Bolgiano's, $5.00. A very early, first crop Tomato. Plts. 5c and 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. $1.00. 1/4 Lb. $2.00. 1/2 Lb. $4.00. 1 Lb. $8.00. Postpaid.

295. Perfection. Early, regular and productive, reddish scarlet. Plts. 5c and 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. 50c. 1/4 Lb. $1.40. 1/2 Lb. $2.75. 1 Lb. $5.00. Postpaid.

296. Ten Ton Tomato. One of the heaviest yielding red Tomatoes ever introduced. Plts. 5c and 10c. Oz. 50c. 1/4 Lb. $1.40. 1/2 Lb. $4.00. Postpaid.

297. Dwarf Rambler. A very large, solid, extra selected; free from roughness of the old strains. Plts. 5c and 10c. Oz. 50c. 1/4 Lb. $1.40. 1/2 Lb. $5.00. Postpaid.

298. Burpee's Early Dwarf. It is a very early, medium size; perfectly smooth, very solid, and a great bearer. Crimson color with a pinkish cast. Plts. 5c and 10c. Oz. 50c. 1/4 Lb. $1.35. 1/2 Lb. $2.50. 1 Lb. $4.00. Postpaid.

299. June Pink Tomato. (Specialty, see page 21.) It is the Pink Earlsiana Tomato and where a Pink Tomato is in demand. It is the earliest and most profitable to grow. Plts. 5c and 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. 1/4 Lb. $1.40. 1/2 Lb. $3.50. Postpaid.

300. Improved Rambler. Very early, medium size; perfectly smooth, very solid, and a great bearer. Crimson color with a pinkish cast. Plts. 5c and 10c. Oz. 35c. 1/4 Lb. $1.35. 1/2 Lb. $2.50. 1 Lb. $4.00. Postpaid.

301. Atlantic Prize Improved. A favorite with growers who seek an early market. It bears in clusters and shows no home garden. Plts. 5c and 10c. 1/2 Oz. Oz. 50c. 2 Ozs. 90c. 1/4 Lb. $1.60. 1/2 Lb. $2.85. 1 Lb. $5.00. Postpaid.

Pink Tomatoes

297. Duke of York Tomato. One of the grandest Tomatoes recently introduced. Color rich, glossy scarlet, splendid cropper, round in shape, flesh very firm, large size, fine flavor. (Specialty, see page 21.) Plts. 5c and 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. $1.00. 1/4 Lb. $1.40. 1/2 Lb. $2.75. Postpaid.

298. Duke of York Tomato, Special. Seed saved from the Finest Clusters of the Earliest Stem Set Fruit. Plts. 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. $1.40. 1/4 Lb. $2.75. 1/2 Lb. $5.00. Postpaid.

302. Ponderosa. Very large, extremely rich, solid, red. A handsomely large, clear crimson color. Plts. 5c and 10c. 1/2 Oz. Oz. 50c. 2 Ozs. 90c. 1/4 Lb. $1.40. 1/2 Lb. $3.50. Postpaid.

Yellow Tomatoes

382. Golden Eagle Tomato. Leader of all Yellow Tomatoes. Color a rich transparent amber, fruit smooth, fine form, and deliciously flavored. In size larger than the yellow pear-shaped Tomato, which it readily outclass. It is very attractive. Pkts. 5c and 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. 1 Lb. 1 1/2 Lb. $1.35. 1 1/2 Lb. $2.50. 1 1/2 Lb. $4.50. Postpaid.

383. Yellow Pear-Shaped. A pretty little Tomato, which is used largely for pickling and preserving purposes; very prolific and makes attractive appearance when the vine is loaded with ripe fruit. Pkts. 5c and 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. $1.40. 1 1/2 Lb. $2.50. 1 1/2 Lb. $4.50. Postpaid.

384. Yellow Cherry Tomato. Pkts. 5c and 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. 1 Lb. 1 1/2 Lb. $1.35. 1 1/2 Lb. $2.50. 1 1/2 Lb. $4.50. Postpaid.

385. Yellow Plum n-Shaped. Little larger than the pear-shaped; deep yellow color, very prolific for preserving. Pkts. 5c and 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. 1 Lb. 1 1/2 Lb. $1.35. 1 1/2 Lb. $2.50. 1 1/2 Lb. $4.50. Postpaid.

386. Golden Queen Tomato. Large, smooth and good, a great show Tomato at the County Fairs. Pkts. 5c and 10c. 1/2 Oz. Oz. 35c. 2 Ozs. 75c. 1 Lb. $1.35. 1 1/2 Lb. $2.50. 1 1/2 Lb. $4.50. Postpaid.

387. Yellow Peach Tomato. Pkts. 5c and 10c. Oz. 35c. 1 1/2 Lb. $1.25. 1 1/2 Lb. $1.25. Postpaid.

388. Yellow Cherry Tomato. Pkts. 5c and 10c. 1/2 Oz. 25c. Oz. 50c. 2 Ozs. 1 Lb. 1 1/2 Lb. $1.35. 1 1/2 Lb. $2.50. 1 1/2 Lb. $4.50. Postpaid.

389. Pink Peach Tomato. Pkts. 5c and 10c. 1/2 Oz. Oz. 35c. 2 Ozs. 75c. 1 Lb. $1.35. 1 1/2 Lb. $2.50. 1 1/2 Lb. $4.50. Postpaid.

390. Red Cherry Tomato. Attractive. Pkts. 5c and 10c. 1/2 Oz. Oz. 35c. 1 1/2 Lb. $1.25. Postpaid.

391. Red Pearl-Backed Seedless. Pkts. 5c and 10c. 1/2 Oz. Oz. 35c. 1 1/2 Lb. $1.25. 1 1/2 Lb. $1.25.
313. **Red Top White Globe.** The handsomest and most salable Turpin. As a profitable sort for home or market it is unsurpassed. It is a large, rapid growing sort, with globular shaped fruits. Pure white. The skin is white and purple, the under portion being white and the top part bright purple. (See illustration.) On account of its shape, it will yield any other sort. Pkt. 5c. Oz. 10c. 1/2 lb. 90c. 1 lb. $1.75. 5 lbs. at $1.00 lb.

314. **Early Red or Purple Top White Flat Strap-Leaf Turnip.** This is one of the best Table Turnips on the market, being fine grained and of solid flavor. It is white below, with a bright purple top; flesh white, leaves short, narrow and erect. Will mature in 8 or 9 weeks. A good crop producer and of excellent flavor. Pkt. 5c. Oz. 15c. 1/2 lb. 35c. 1 lb. $1.25. 5 lbs. at $1.15 lb. 10 lbs. at $1.00 lb.

315. **Ruta Baga Market Gardeners' Improved Purple Top.** Our Ruta Baga is select, yields enormous crops of handsome, large, solid, yellow-flushed turnips; is grown largely for cattle food. They are excellent for table turnips. Pkt. 5c. Oz. 10c. 1/2 lb. 60c. 1 lb. $1.25. 5 lbs. at $1.15 lb. 10 lbs. at $1.00 lb.

320. **White Egg.** Oval or egg shape, handsome and sweet; flesh firm and sound-grained, this short, flatly smooth skin of snowy whiteness. Pkt. 5c and 10c. Oz. 15c. 1/2 lb. 35c. 1 lb. $1.25. 5 lbs. at $1.15 lb. 10 lbs. at $1.00 lb.

321. **Top Yellow Aberdeen.** Medium size, round, flesh pale yellow, tender and sweetly. The plant is hardy, productive and keeps well. Pkt. 5c. Oz. 10c. 1/2 lb. 35c. 1 lb. $1.50. 5 lbs. at $1.40 lb. 10 lbs. at $1.30 lb.

322. **Large Amber Globe.** Flesh yellow, fine grained and sweet; hardy, keeps well, a good cropper. Very popular in the South. Pkt. 5c. Oz. 10c. 1/2 lb. 35c. 1 lb. $1.25. 5 lbs. at $1.15 lb. 10 lbs. at $1.00 lb.

323. **Carrot.** A good table sort of very fine long shape and quick maturity. It grows to a large size, standing hard half out of the ground. Pkt. 5c. Oz. 1 oz. 1/2 lb. 30c. 1 lb. $1.25. 5 lbs. at $1.15 lb. 10 lbs. at $1.00 lb.

324. **Golden Ball, Orange Jelly or Robertson's.** Flesh sweet and firm. Pkt. 5c. Oz. 10c. 1/2 lb. 30c. 1 lb. $1.25. 5 lbs. at $1.15 lb. 10 lbs. at $1.00 lb.

325. **Yellow Stone.** Flesh crisp, tender, of fine quality. Pkt. 5c. Oz. 1 oz. 1/2 lb. 35c. 1 lb. $1.25. 5 lbs. at $1.15 lb. 10 lbs. at $1.00 lb.

Bolgiano's Strawberry Plants

Boligiano's "Big Crop" Vegetable Plants for 1918

Boligiano’s Frost-Proof Cabbage Plants

Will Mature Heads Two to Three Weeks Earlier Than Your Home-Grown Plants

OUR GUARANTEE:

We will refund the purchase price to any customer who is dissatisfied with results produced after crop is matured.

A person wanting Extra Early Cabbage for home use or market can’t afford to not use these plants.

There are a number of islands along the Seattle-Carolina and the Gulf Coast of Louisiana where the soil and climatic conditions are just suited for growing tough, hardy cabbage plants during the Winter and early Spring. The seeds are planted in the open field. The plants make a slow but steady growth, until at eight to ten weeks of age they are very tough and hardly, the heads are purple and outer leaves a reddish brown. When in this condition they can be shipped to territory farther north and be planted in the open ground a month to six weeks sooner than the home-grown hot bed or cold frame plants. These FROST-PROOF CABBAGE PLANTS will stand a temperature 10 degrees above zero without injury; the head hardening of the plants being covered with ice, snow or after they are planted will not injure them.

The top of the plant does not grow until your regular Spring weather comes, but the roots grow from the time they are planted, and just as soon as Spring weather starts, the established hot-grown cabbage plants will germinate in the soil; the plants grow very fast, maturing headed Cabbage two to three weeks sooner than you can mature them from hot bed and cold frame plants.

Varieties: Early Jersey Wakefield, Charleston Wakefield, Succession and Early Flat Dutch

Prices by parcel post, postage paid, 60c per 100 plants to all places in the postal union. On larger quantities the prices are as follows:

GROUP 1—Georgia, Louisiana, Mississippi, North Carolina and South Carolina: 500 plants for $1.50, 1,000 or more at $2.25 per 1,000.

Grass and Clover Seed Mixtures for Hay and Pastures

<table>
<thead>
<tr>
<th>Partial Post Rates, see Page 5</th>
</tr>
</thead>
</table>

These Mixtures give the very best and most satisfactory results to customers, and our trade in them is increasing rapidly. The advantage of sowing grasses and clover seed in mixtures has long been recognized and the practice is increasing to a very remarkable extent throughout the South. We see the pioneer seedsmen in Baltimore in putting up special mixtures for different soils, and the results to our customers have been exceedingly satisfactory, resulting in largely increased crops of hay and pastures. We will take pleasure in advising our customers as to suitable grasses for their soils and purposes.

We have the following mixtures combined grasses suitable for the various soils and uses for which they are recommended. Those for permanent pastures are composed of grasses which succeed each other in growth, and give a succession from the first of Spring until late in Winter, while for those desired more for cutting for hay have composed grasses which ripen together. In all our mixtures we are introducing small quantities of Alfalfa Clover with the idea of inoculating the land with Alfalfa loculicis. Alfalfa revolutionizes farming, but the loculicis must be established before the revolution can occur. The different mixtures are prepared both as to quantity and varieties as best adapted to the soils and situations for which they are recommended. In all of our grass mixtures we use the very best seeds, the quality and purity of our seeds being our first consideration. The quantity handled enables us to give our customers the benefit of a very low price, even lower than if they purchased the seed separately.

The Plain Truth About Grades

The terms Fancy, Choice, Prime and Fair, by which different grades of Grass and Clover Seeds are usually known, have become so much abused by some dealers who apply these terms indiscriminately to any quality of seed, that we many years ago established two grades of our own, called "Gold" and "Silver.

J. Bolgiano & Son "Gold" Grade. We intend shall invariably represent the best seed obtainable both as respects purity and high germination. Anyone who acquires our Gold will find it is not only a very good seed, but such varieties as are most suitable for the locality in which they are used. The Gold seed is sown at prices fixed in a catalogue, and examined, they are found in any respect unsatisfactory, and money paid for them will be promptly refunded.

Silver, the next best grade to Gold, but not quite the same purity. It frequently happens that the demand is greater than the supply of Gold grades, as but a small proportion of the total seed gathered will make Gold; we then recommend our Silver grade as being the best in the market.

We wish to call attention to the fact that in cleaning seed so as to make our Gold and Silver grades, there is much seed removed which, while not of sufficient quality to grade Gold and Silver, is suitable for seed, and this is sold under lower grades, such as Fancy, Choice, Prime, etc. We do not quote these grades in our catalogue, as the most of our sales are for Gold and Silver grades.

Grasses

Tall Meadow Oat Grass

1123. Tall Meadow Oat, Evergreen Grass. Yielding twice as much hay as Timothy or Orchard Grass, early as Orchard Grass with more leaf and affording better grazing; it is not strange that this grass is becoming so popular. It will keep green all Winter and all Summer; the drouth of Missummer, or the cold of Winter does not injure it. It starts growing very early in the Spring, can be cut twice for hay, would yield good grazing until late in the Fall. It contains more flesh and muscle-forming material than Timothy, but it is not so fastening. For hay it should be cut while in bloom. Tall Meadow Grass is best adapted for rather light and dry land and sandy uplands, but gives excellent results on nearly all soils and better results than any other grass on light, medium or sandy soils. Sown alone use 2 to 3 bushels to the acre, or in mixture with other clovers or clover 1 bushel (11 lbs.) Tall Meadow Oat Grass, 1 bushel (14 lbs.) Orchard Grass and 8 lbs. Red Clover. It gives the very best results when sown with Clover. By adding 6 lbs. of Red Top or Herb’s Grass to the mixture the grazing will be materially increased. Price: "Gold" Brand Fancy Lb. 35c. $3.25 Bus. of 11 lbs. "Silver" Choice $3.15 Bus.

We are at all times buyers of all kinds of Grass Seeds, Clovers, Cow Peas and Grains. Whenever you have any to offer, mail us samples and we will quote you our best price.

Orchard Grass

1131. Orchard Grass. One of the best and most reliable grasses for the Middle and Southern States, either for hay or pasture. It is a very vigorous grower and yields large crops of hay and pasture. It will last for years in increasing value with proper treatment. It is succulent and nutritious and when mowed requires only a few days of seasonable weather to start it growing again and usually two good crops of hay can be cut in a season. It succeeds well on nearly all soils, but does best on uplands, loamy or moderate stiff soils. Although it will succeed very well on any soils that are inclined to be of a sandy texture, it also succeeds in shady places better than other grasses, especially in orchards. It starts early in the Spring and continues well into Winter. It is a quick growth and is relieved by stock, especially when young and bears close grazing. It makes excellent hay, and gives the very best results mixed and grown with Tall Meadow Oat Grass and Red Clover. It should be cut when in blossom, as the hay is injured if the seed is allowed to ripen. It can be sown in the Spring or Fall, either with grain or alone. Sow two bushels per acre if sown alone, or with Red Clover, one and one-half bushels of Orchard Grass and one of Red Clover are the quantities usually sown. Price: "Gold" Fancy Lb. 30c. Bus. of 14 lbs. $3.75. "Silver" Choice $3.50 per Bus.
Grasses
Bolognino's "Gold" Brand Seeds Are Standard
Parcel Post Rates, see Page 5

The prices herein are based on values at time of going to press with this catalogue.
They are subject to market fluctuations.

Timothy

1117. Timothy. Of Hay Grasses Timothy is one of the most popular, nutritious and salable. On clay or heavy loams, lowlands or in mountainous districts, provided there is but little drainage of moisture, it produces the very best results. On sandy or light loamy ground it does not do so well. Fast growing and of a good quality, it is also excellent for hay, or to be used as a permanent weed inhibitor. This grass may be killed with fallowing or by fall tillage. Timothy will be seriously injured, besides it does not form as good grazing as many other grasses.

The yield of hay is from 1½ to 3 tons per acre. Timothy requires good land to make good crops. It does not root as deeply and is not considered as much improved as some other grasses. The clover should not be sown on land deficient in humus or vegetable matter nor on soils of a light or sandy nature. Closers grow well with Timothy and aid it by supplying nitrogen. Timothy alone or mixed with Clovers (6 lbs. Timothy, 8 lbs. Clover (either Mammoth Clover or Alake Clover preferred), as they mature at the same time as Timothy), 6 lbs. Fancy Red Top, 1 lb. Meadow Fescue. Together these will produce the most excellent hay, also nutritious and abundant pasture in good loamy clay or low ground soils. 8 lbs. Timothy and 6 lbs. Clover when sown together. Prices: "Gold" Brand, 20c Lb. Per. $1.25. Bu. of 15 lbs. $4.50. "Silver" Choice $1.25. Market fluctuates.

Timothy and Alsike Clover Mixed

Where Alsike Clover and Timothy are grown together, and the seed is saved therefrom, it is impossible, in cleaning, to make a perfect separation of the two. For hay, the Alsike and Timothy Mixture is very valuable on soils too moist for Red Clover. Alsike is suitable for either hay or pasture. It is finer and more leafy than Medium Red Clover and cattle prefer it. "Gold" Brand, 20c Lb. 50 Lbs. or over at 15c Lb.

Kentucky Blue Grass

1118. Kentucky Blue Grass. This Grass is not only the best for lawn purposes, but makes the sweetest and most nutritious pasture for all kinds of stock. Kentucky has long been famous for its high bred horses and its Blue Grass pastures. It is now being established on most imporant farms in all parts of the country. Kentucky Blue Grass pasture of greenest verdure which will give profitable results. This Grass is the first to start up in the Spring and remains green until snow flies in the Fall. It is very hardy and is improved by cold or dry weather, and thrives in trampling or trampling of hoes. The roots are so thick and stout that they form a tough sod. On this account, we purchase the seed for less money and we can sell for less than would be the case if a perfect separation could be made.

Those desiring to sow Alsike and Timothy together can save considerable money by buying the seed of these two varieties together as originally harvested. For hay, the Alsike and Timothy Mixture is very valuable on soils too moist for Red Clover. Alsike is suitable for either hay or pasture. It is finer and more leafy than Medium Red Clover and cattle prefer it. "Gold" Brand, 20c Lb. 50 Lbs. or over at 15c Lb.

Canada Blue Grass

1120. Canada Blue Grass. Resembles somewhat the Kentucky Blue Grass. It will thrive even on hard clay soil where there is not quite enough lime and fertility for Kentucky Blue Grass, and having an excellent root development is very resistant to drought. The Maryland Experiment Station this Grass remained a luxuriant green during the hottest Summer when other grasses were materially affected by the heat. Being a Grass of Canadian growth it thrives well under the cold weather admirably. Canadian Blue Grass does not thrive where planted with Clover. Red Top and Orchard Grass the best for mixing with it, as it grows on inferior soils. On good land it becomes tall enough for hay, and as it shrinks very little in drying the hay is heavy for its bulk. Grows from one to two feet high. Sow 30 lbs. of seed to the acre. Price: "Gold" Brand Seed, Lb. 25c. 1 lb. $1.25. Bu. of 11 lbs. $4.25. "Silver" Choice $2.25.

Red Top or Herd's Grass

1111. Red Top or Herd's Grass. This Grass makes excellent pasture and good crop of fine quality hay. This Grass is very hardy and pasture Grasses are most valuable for Fall and Winter pasture, as it remains green throughout the Winter. It is also a splendid Spring and Summer Grass and usually makes more and thicker leas than any other Grasses. Grows 2 to 3 feet high, but not in tufts like Orchard Grass. The hay is very nutritious and cattle thrive on it whether dry or green. Succeeds even in poor soil, and as the roots penetrate deep, from 12 to 15 inches, it takes extremely dry weather to affect it. It succeeds well in nearly all sections of the South, and should be very largely used for pasture and hay mixture, being especially suitable for sowing with Red Top and Timothy for hay, or with these and Orchard and Tall Meadow or for permanent pasture. Sow either in the Spring or Fall at the rate of 2 bushels to the acre if sown by itself. When sown with Red Top or Timothy sow 1 bushel (14 lbs.) Meadow Fescue, 6 lbs. Fancy Clean Red Top and 6 lbs. Timothy per acre. Sown for a grazing mixture with Orchard and Tall Meadow or for Out Grass, add half a bushel of each of these two Grasses. Price: "Gold" Brand, 30c. Per. 1.50. Bu. of 11 lbs. $6.25.

Meadow Fescue, Randall or English Blue Grass

1122. Meadow Fescue, Randall or English Blue Grass. This makes a most excellent hay and pasture Grass and is generally valuable for Fall and Winter pasture, as it remains green throughout the Winter. It is also a splendid Spring and Summer Grass and usually makes more and thicker leas than any other Grasses. Grows 2 to 3 feet high, but not in tufts like Orchard Grass. The hay is very nutritious and cattle thrive on it whether dry or green. Succeeds even in poor soil, and as the roots penetrate deep, from 12 to 15 inches, it takes extremely dry weather to affect it. It succeeds well in nearly all sections of the South, and should be very largely used for pasture and hay mixture, being especially suitable for sowing with Red Top and Timothy for hay, or with these and Orchard and Tall Meadow or for permanent pasture. Sow either in the Spring or Fall at the rate of 2 bushels to the acre if sown by itself. When sown with Red Top or Timothy sow 1 bushel (14 lbs.) Meadow Fescue, 6 lbs. Fancy Clean Red Top and 6 lbs. Timothy per acre. Sown for a grazing mixture with Orchard and Tall Meadow or for Out Grass, add half a bushel of each of these two Grasses. Price: "Gold" Brand, 30c. Per. 1.50. Bu. of 11 lbs. $6.25.

After Several Years' Trial

On January 29, 1917, Mr. R. B. Dolerfer, Frederick Co., Md., wrote: "I have sown your Clovers for several years with good success."

Well Pleased in Virginia

On August 6, 1917, Mr. O. R. Krat, Northumberland Co., Va., wrote: "I sowed on 3½ acres one bushel "Gold" Brand Mammoth Clover seed and one bushel Ideal Brand Timothy seed bought of you last September. First of July I cut and saved nine tons of No. 1 Hay."
Sudan Grass
Parcel Post Rates, see Page 5

1159. Creeping Bent Grass. Similar to Red Top or Herd's Grass and considered as good if not better than that variety. Distinctive on account of its compact, creeping, rooting stems, which hold in the soil in a very tenacious way. Of rapid growth and spreading habit, forming a strong, durable turf. Fine for lawns and putting greens because of its fine texture. If sown alone use 30 lbs. to the acre. Please write us for lowest prices.

1158. Crested Dogstail. A hardy Grass forming a smooth, compact and lasting turf. Does best on rich, moist land, but will grow on most any soil. Roots deeply and withstands dry weather. Does well in the shade. If sown alone use 30 lbs. to the acre, but the best way is to mix it with other Grasses. Price: Lb. 10c. 10 Lbs. $3.50. 100 Lbs. $30.00.

1160. Rhode Island Bent Grass. Resembles Red Top, but is shorter and has narrower leaves. It makes a beautiful, fine, close turf and one of the best Grasses for lawns. It does well on both rich and poor soils. Sow with other Grasses or if you use 30 lbs. seed, please write us for lowest prices.

1237. Meadow Foxtail. One of the best Grasses for permanent pasture, Hay and grass seed. SOW 30 LBS. PER ACRE. Please write us for lowest prices.

1233. Rough Stalk Meadow Grass. One of the best bottom Grasses in a meadow. Grows 25 to 35 inches high. Possesses high nutritive qualities. Requires heavy or average kind of soil. 30 lbs. per acre. Please write us for lowest prices.

1234. Fine Leaved Fescue. A small, turf forming Grass for wooded places and for lawns. Please write us for lowest prices.

1235. Sweet Vernal. Excellent for mixture in lawns for its sweet perfume, also in all Hay and Pasture mixtures, as it is relished by both cattle and horses. Please write us for lowest prices.

1251. Bermuda Grass. Specially adapted to lawns and Pasture Mixtures in the South where many other grasses will not grow. When used in connection with English Rye Grass will insure a green sod throughout the year. The Rye Grass takes the place of the Bermuda Grass when the Bermuda Grass turns brown. Bermuda Grass is very well adapted to light soil and in some sections of the South is the only pasture grass that will make a good sod on this class of soil. It also does very well on clay and loamy soil. Bermuda is very largely used for sowing on hillside and embankments for finding and holding the soil. Lb. 10c. 10 Lbs. and over at 40c.

1232. Giant Spurry. Makes one of the best feeds for cattle, especially Dairy Cattle, for it furnishes your young green fodder at a time when green fodder is scarce, namely, between the first and second cuttings of various Clovers and when the freshness of the first young Grasses is worn off. It greatly improves the production and the quality of the milk. Grows best on lighter soils. Lb. 25c. 10 Lbs. or over at 20c Lb.

Natal Grass

1165. Natal Grass. Originally introduced from South Africa. In large use in Florida, where it is called Australian Red Top, and is growing in popular use. Used for hay or pasture. Stands rapidly. Height 2 or 4 feet. Stools become large and very tough. 100 lbs. sows an average field 1 acre. An annual, but it reseeds itself. After reseeding it then spreads rapidly. Stands 20 degrees cold. Comes up voluntarily after Melons, Potatoes and Oats. Excellent late Summer, Fall and Winter grazing. Hay as good as 4mouth. 400 lbs. sows 100 acres. 100 lbs. may be sown for thick stands late. Blooms all the time. Sow seed, drill or broadcast, 10 pounds per acre, from November to May in well smoothed land. Requires considerable moisture for germination. Grows in clumps. Deep root system. Stools can be subdivided, transplanted; 80 days from sowing to maturity; three cuttings. Spreads, but can be eradicated by cultivation or cutting before seeding. Large fluffy seed. Seed may be sown the Gulf late in October. Florida grower says: "Would rather have a field of Natal than Orange." Three to five cuttings and each give one or one and a half tons per acre. Lb. 5c. 10 Lbs. and over at 40c. 100 Lbs. at 45c.

Wood Meadow Grass "Gold" Brans Seed
Millets

A Splendid Quick Growing Summer Hay Crop

1125. German or Golden Millet, Southern Grown. Makes a large yielding and most nutritious hay crop, quick growing and easily cured. It should be seeded thickly, one bushel per acre, and should be harvested while in bloom. If the seeds are allowed to form the stalks get hard and it does not make so good a hay. Should be sown at any time between the middle of May until the end of June at the rate of 1 bushel per acre. Millet should never be sown until the earth is warm in the Spring and when continued warm weather is assured. It is also used as a catch crop after early grain or a crop which fails. It matures a crop in 6 or 8 weeks after seeding. Cow Peas sown with German Millet makes fine hay. Sown in this way, it should be sown with some quick maturing variety of Cow Peas and should be sown at the rate of three pecks of Millet and one bushel of Cow Peas to the acre. "Gold" Brand Fancy Southern Millet, Pk. 75c. $2.50 per Bu. of 50 lbs.

1126. Hungarian Millet. Often called Hungarian Grass. Many regard this as being better even than German Millet, as it is about one week earlier and requires less moisture. The hay is fine and of excellent feeding value. It is especially valuable on account of requiring such a short season to make a fine crop of most excellent hay. For this reason it is much used as a catch crop. It can be sown as late as the 4th of July with good results, in ordinary seasons. It is much used for following such crops as early potatoes and hordocks for a crop of hay, then giving two crops on the same land in one year. Also grown as a green manuring crop to turn under, adding humus or fertility for future crops. Hungarian Millet does not grow so coarse as some other varieties, but still yields quite heavily, from two to four tons of hay to the acre being an ordinary crop. Hay is quite leafy, of very fine quality. Should be sown at any time between the middle of May until the end of June at the rate of one bushel per acre. "Gold" Brand, Pk. 75c. $2.50 per Bu.

1170. Pearl or Cattail Millet. It is largely used by draymen. It furnishes them green food throughout the Summer. Should not be planted before May in warm soils, as it is a tropical plant and grows to the best advantage in warm weather. It will grow to 10 or 12 feet high, and should be cut when it has reached the height of 3 to 4 feet, when it will stand out enormously and make a rapid growth. In this way 3 or 4 cuttings a season can be obtained. It can be fed either green or cured as dried forage, making a most nutritious feed which is relished by all kinds of stock. Sow 5 lbs. per acre in drills 5 feet apart or broadcast at the rate of 20 to 30 lbs. per acre. Please write us for lowest prices.

Velvet Beans—Makes an Enormous Growth for Forage

Velvet Beans make an enormous growth of vine; greater, in fact, than any other known forage plant, in the same length of time, far surpasses the Cow Pea in yield. Velvet Beans are usually planted in rows of 5 or 5 feet, apart at the rate of half bushel per acre. The Velvet Bean being of such luxuriant growth, adds very large amount of nitrogen to the soil and when the entire crop of vines is turned under shows that the plant food added by the crop amounts to as much as that contained in 2,000 pounds of Cotton Seed Meal or 1,000 pounds of Dried Blood. Velvet Beans can be pastured through the Winter; both vines and beans remain palatable throughout the season from about the first frost. Bu. $2.50, 10 lb. lots and over $2.10 per Bu.

Bolgiano’s Rye Grasses for Spring Planting

The Italian and Perennial Rye Grasses are really the quickest growing of any of the Grasses and will furnish a quick growing, most nutritious and leafy pasture, at the same time making very good hay Grasses. On account of their quick, early growth they should be a constituent part of nearly all hay and pasture seed mixtures.

1121. English or Perennial Rye Grass. This is becoming well known in this country as a valuable pasture grass which is a good substitute for clover cropping. Produces an abundance of foliage, which remains bright and green throughout the season. This is relished by all kinds of stock. It will grow well on almost any land. Sown by itself sow 30 lbs. per acre either in the Spring or Fall. Price: Lb. 15c., Pk. 75c., Bu. of 25 lbs. $2.60, 100 lbs. $10.00. Cover with 2 inches of soil. Like Perennial Rye Grass, valuable for pasture and also for hay. Thrives on rich, moist land, where from 3 to 4 cuttings may be made in a season. It grows very quickly and will stand close pasturing. It is less wiry than Perennial Rye Grass and is particularly well adapted to the soils and climate of Florida, where it is a very extensive in the fall and Winter for hay purposes. About 24 lbs. of seed to the acre. Price: "Gold" Brand, 20c. Lb. Pk. 75c., Bu. of 18 lbs. $3.25, 100 lbs. $15.00.

Pacey's Short-Needled Perennial Rye. Specially suited for fine lawn mixture, extensively used on the beautiful lawns in England. It makes a quick leafy growth of fine texture. Lb. 15c., 100 lbs. at 10c.

Beggar Weed or Florida Clover

1206. It is highly recommended as a forage plant for thin sandy land and pine barrens. Makes a vigorous growth, 7 to 8 inches high, yielding largely for hay and pasture; nutritive value compares favorably with Red Clover. Grown, etc.

On the sandy pine lands of the South Atlantic and Gulf States is probably the most valuable forage plant that can be grown. Its growth is dense, the crop abundant and nutritious. Sow at any time after frosts are over until the middle of June, in drills 3 feet apart, 3 to 4 lbs. per acre, or broadcast 10 to 12 lbs. per acre. Cover 1 to 2 inches. To make good hay it should be cut when not more than 3 to 4 feet high, usually in July, and a second cutting can then be made a few weeks later. If allowed to become too old before it is cut many of the lower leaves are lost and the stems become woody. Lb. 40c., 10 lbs. and over 35c. Lb.

1216. Tesintó, Reana Luxuriant. This gigantic Gramen will furnish a continuous daily supply of nutritious green food for horses and all kinds of cattle all through the Summer. It also makes a splendid dry fodder, yielding enormously, and being more nutritious and better relished by all stock than Corn Fodder. In appearance it somewhat resembles Indian Corn, but the leaves are much larger and broader, and the stalks contain sweeter sap. It stands out enormously after being cut. Sow in May or June, at the rate of 3 pounds per acre, in drills 4 feet apart. Pkt. 5c., Oz. 10c., 1/4 Lb. 25c., Lb. 75c.
Save Fertilizer Expense

By growing inoculated legumes which will enrich the soil with nitrogen to grow good crops of any kind.
Legumes without the presence of proper bacteria rob the soil of nitrogen, making it poorer, the same as do other crops, and since nearly all soils are short of nitrogen, it is very important that legume crops should be soil-builders, not soil-robbers.
Legumes when supplied with strong, active nitrogen-gathering bacteria of the proper kind are enabled to produce larger yields and also enrich the land. These bacteria when present in the soil in sufficient quantity attach themselves to the roots of legumes, wherein they live, and draw large quantities of nitrogen from the air. This nitrogen drawn from the air by the bacteria greatly aids the growth of the crop with which they are living, and also at the same time there is being deposited in the soil quantities of nitrogen to grow further good crops of any kind.

Help Your Crops Enrich Your Land

Some soils may contain enough of the proper bacteria; however, many soils do not. Legume crops not amply supplied with the nitrogen-gathering bacteria do not do full work in improving the soil, but on the contrary may he wearing it out. Since the importance of these bacteria is an established fact, it is most advisable to make sure of having crops well supplied. This can be done by using reliable inoculating cultures on the seed before planting. These cultures are easily and effectively handled by anyone following the simple directions for use found on the bottles. This is the safest, quickest and cheapest way of improving your soil. This inoculation is not for direct use on such crops as Corn, Cotton, Grain, Potatoes, etc. When used on all the legume crops such as Vetch, Alfalfa, Soy Beans, Cow Peas, Clovers, Peanuts, etc., large quantities of nitrogen accumulate in the roots and is left in the soil to grow good succeeding crops of Corn, Cotton, Grain, etc. Inoculation does double work—first, improving the crops inoculated, and second, enriching the soil to grow good crops of the kinds which cannot be inoculated.

Grow Better Crops and Improve Your Land

By Inoculating Your Cow Peas, Soy Beans, Vetch, Alfalfa, Peanuts, Clovers and All Other Legume Seed Before Sowing.

Inoculate Your Seed

For Only Fifty (50) Cents Per Acre

With Standard Inoculation

We can supply you with inoculation for all the principal legume crops such as Alfalfa, Sweet Clover, Crimson Clover, Red Clover, Cow Peas, Soy Beans, Velvet Beans, Vetches, Peanuts, Garden Peas and Beans, etc. These cultures of inoculation are delivered in bottles ready to use simply by adding a little water and sprinkling on the seed. Seed for 10 acres can be inoculated in 15 minutes.

5-Acre Size .................................................. $2.50—by Parcel Post .................................................. $2.75
1-Acre Size .................................................. $.50—by Parcel Post .................................................. $.60

When ordering be sure to give the names of the crops you want to inoculate. Circulars on request.

Small Cost, Easy to Use, Large Returns
No Labor Expense

Mulford Cultures for Legumes

Mulford Cultures contain pure, tested strains of active, vigorous nitrogen-fixing bacteria for inoculating seeds of legumes or soil.

Mulford Cultures are “different” and should not be confused with other brands.

The color is different (they are dark, almost black, due to a special ingredient added to increase the growth and activity of the bacteria).

The count is different (bacterial counts show fully twice as many bacteria as in the old-form cultures).

The bottle is different (being sealed—an important feature which prevents all possibility of contamination from the outside air).

Legumes offer the best-known means of maintaining soil fertility and rejuvenating over-cropped and worn-out fields. They add both humus and nitrogen to your soil and thus increase your yield of Wheat, Cotton, Corn and other non-legume crops.

The U. S. Department of Agriculture and many State Agricultural Experiment Stations recommend inoculation of legumes with nitrogen-fixing bacteria of a proven ‘catch’ and increase your yield.

MULFORD CULTURES ARE PREPARED FOR

ALFALFA (Lucerne) .................................. ALSIKE CLOVER .................................. VETCH .................................. LIMA BEANS
CRIMSON CLOVER .................................. BUDDLE CLOVER .................................. VELVET BEANS .......................... LESPEDEA
SWEET CLOVER .................................. COW PEAS .................................. SWEET PEAS .................................. BEEGAR WEED
RED CLOVER .................................. SOY BEANS .................................. GARDEN PEAS .................................. AND OTHERS
PEANUTS .................................. GARDEN BEANS

Be sure to specify the particular legume on which you desire to use the Mulford Cultures, otherwise we will not know how to fill your order.

Prices: 5-Acre Size .................................................. $3.00 (“A Dollar per Acre”)

FREE DESCRIPTIVE LITERATURE SENT UPON REQUEST
CLOVERS—Boligiano’s “Gold” Brand Seeds Are Standard

Parcel Post Rates, see Page 5

The prices herein are based on values at time of going to press.

Boligiano’s “Gold” Brand Alalfa Seed

Alfalfa Seed
Alfalfa Yields Splendidly Throughout the South, Yielding 6 to 6 Cuttings Per Year, Increasing Yields Each Successive Year.

1128. Alfafla ranks higher than Timothy hay in feeding value. In fact it might be termed both corn and hay, as it is almost a complete food. Experiment stations place the feeding value of Alfafla hay at $20 per ton, as against Timothy hay at $12 per ton. This is caused, in large measure, by the fact that alfalfa is more desirable as a forage crop, and that it yields more cuttings with higher yields per cutting. Robinson, in his book, “The Manuring of Infertile Soils,” states that alfalfa is the “king of all grasses,” and that “it is a wonder that we have not made greater use of it.”

1132. Medium Red Clover. This is regarded as the most valuable of the Clover family and is largely used for pastureage and hay. Clover adds greatly to the fertility of the land on which it is grown. It does not exhaust the soil, but enriches it. It makes two crops each year. The first is cut when it is in blossom for hay. The last crop may be harvested for seed, cut for hay or plowed under to add fertility to the soil.

1133. Mammoth or Sapling Clover. This is similar to Red Clover in appearance and habits of growth, the difference being larger growth and later maturing. It is often used for legume pasturage. It is also used in hay and is not so heavy for seed as the Red Clover.

1134. White Clover. This is a legume grass, grown for pastureage and hay. It is hardy, resistant to extremes of heat and drought and also very cold weather a remarkable extent. It is perennial and grows well under the heading of Orchard Grass, Tall Meadow Grass and Timothy. It is a good stand against such weeds as Dandelion, Anchorweed, Brome Grass, Dallis Grass and Timothy. It is a very good grass for hay, but not so good for seed, as it is a very hardy grass and will grow on any land that will support grass.

1135. Japan Clover. We do not recommend this Clover for land that can be successfully grown in the United States. It is a hardy, resistant to extremes of heat and drought and also very cold weather a remarkable extent. It is a good forage grass and is not so heavy for seed as the Red Clover.

1136. Yellow Blossom Sweet Clover. This is a legume grass, grown for pastureage and hay. It is hardy, resistant to extremes of heat and drought and also very cold weather a remarkable extent. It is a good forage grass and is not so heavy for seed as the Red Clover.

1137. Boligiano’s “Gold” Brand Red Clover

It is a very hardy grass and will grow on any land that will support grass. It is hardy, resistant to extremes of heat and drought and also very cold weather a remarkable extent. It is a good forage grass and is not so heavy for seed as the Red Clover.

1138. Yellow Blossom Sweet Clover. This is a legume grass, grown for pastureage and hay. It is hardy, resistant to extremes of heat and drought and also very cold weather a remarkable extent. It is a good forage grass and is not so heavy for seed as the Red Clover.

1139. Bulgaria Burr Clover. This is a legume grass, grown for pastureage and hay. It is hardy, resistant to extremes of heat and drought and also very cold weather a remarkable extent. It is a good forage grass and is not so heavy for seed as the Red Clover.

1140. California Burr Clover. This is a legume grass, grown for pastureage and hay. It is hardy, resistant to extremes of heat and drought and also very cold weather a remarkable extent. It is a good forage grass and is not so heavy for seed as the Red Clover.
Dwarf Essex Rape

1127. It is an annual, bearing a close resemblance in leaf and stalk to the Ruta Baga, but both leaves and stalks are more numerous in the Rape plant, and of a taller habit. If a high straw pasture plan which may be carried off if any kind of live stock, but it is pre-eminently fitted to furnish pasture for sheep, cattle and swine. Under favorable conditions Rape is ready for pasturing sheep or cattle within 6 weeks from the time of sowing for crops to follow. Of every acre will carry from 12 to 15 sheep six weeks to two months. When on the Rape they should at all times have access to salt, but water is not necessary. As it thrives best in cool weather, it should not be sown in the Southern States. About 100 bushels to the acre have been harvested and in good market. Its properties are probably twice as good as those of Clover, and for sheep the feeding value is greater. For all other points we know of. Under average conditions a yield of from 10 to 20 tons or more of green forage per acre may be expected. For continued leg-pasture sow Rape early and at successive intervals. It may well follow any grain crop as it always splendid to plow under for green manure. Sow 5 lbs. per acre.

Flax

1194. Flax. When grown for seed, sow one bushel to acre; if fiber is wanted, 2 to 3 bushels, Lb. 15c. Pk. $1.75. Bu. of 50 lbs. $6.00. Prices fluctuate.

Speltz, or Emmer

1210. Culture. Prepare your ground as you would for wheat or oats, sow at the rate of two bushels per acre. It is extremely hardy and can be sown earlier than Spring wheat or oats, as light frost does not affect it; it can be sown later, but early sowing is better. Pk. 50c. Bu. of 40 lbs. $2.00. Please write for prices.

Buckwheat

Buckwheat. For a late Summer crop Buckwheat is very desirable and profitable, especially in mountainous sections. It is easily grown, makes a good forage crop for cattle and sheep, and as the crop can be cut rapidly and is sown nearly half out of the ground and are carrot-like in form. Sow two pounds of seed to the acre, broadcast. Plks 5c and 10c. Oz. 20c. 1/4 Lb. 50c. Lb. $1.75. 5 Lbs. at $1.25.

Mammoth Russian Sunflower

1211. Sunflower has proved to be the best paying crop of anything that has been planted during the last two years. Sow in March to July, 5 to 10 lbs. per acre. Plant with Corn drills in rows 3 to 3 1/2 feet apart and thin to 1 plant every 15 to 22 inches, cover very lightly, not over 2 to 2 1/2 inches, the better 5 Lbs. 50c. 10 Lbs. 50c. 100 Lbs. $8.00.

1149. Hairy Vetch

This is a very valuable forage plant and is rapidly becoming more popular each year, as the farmers of this country are learning more of its great value. It is very hardy, valuable as a Winter cover crop to prevent leaching, and for forage and fertilizing purposes. It is an annual, but reseeds itself and will continue to grow in abundance for many years. It has a deep root, and thrives surprisingly on poor, light land and will endure extremes of drought, heat and cold. It improves the soil, being a great nitrogen producer. The roots bear numerous nodules or nitrogen-gathering bacteria. These take the nitrogen from the air and restore it to the soil, where it is so much needed. It belongs to the Pea family, but the vetches are much longer and the foliage is more abundant. It may be sown either in the Spring or Fall with about half a bushel of Rape or Oats for support. It grows rapidly and is pastureable in a few weeks. It is a valuable crop in sections where Clover does not thrive. In the North it remains green all Winter under the snow and it is invaluable for early pasturing or sowing. The Department of Agriculture estimates the value of an acre of this Vetch plowed under equal to commercial fertilizer at the rate of from $16 to $40 an acre. When sown in August or September it covers the ground before frost and prevents leaching of the soil during the Winter and Spring. When sown in April or May it can be cut in July, the second growth affording excellent pasture during the Summer. The yield of green fodder is from twelve to twenty tons an acre. This may seem to be an exaggerated statement, but when the amazing storing propensities of this plant are taken into consideration the yield is readily accounted for. As many as twenty long vines spring from each root. When raised for hay it should be left standing until some seeds have become well formed. Not only does it produce an enormous amount of very great value, but it at the same time increases the soil in both fertility, which is so much needed. 50 to 60 pounds of seed required to the acre. "Gold" Brand. Lb. 15c. 10 Lbs. 15c. 50 Lbs. at 10c. 100 Lbs. at 5c. Write us for latest market prices.

Oregon Vetch

1275. Same as Spring Vetch, but owing to its hardiness is known as Oregon or Winter Vetch. It can be planted in the Fall in all of the Southern States as well as in the Spring with results about the same as Hairy Vetch. Sow alone, 70 to 90 pounds per acre. There are two kinds of Oregon Vetch, the "Dark" and the "Golden". "Dark" Vetch, Lb. 15c. 10 Lbs. 15c. 50 Lbs. at 10c. 100 Lbs. at 5c. Write for latest market prices.

Sow Scarified Seed and Increase Your Yield

We will Scarify your Sweet Clover, Alfalfa or Burr Clover for one cent per pound above our listed prices.

Sweet Clover often contains 25 per cent of hard seed, Alfalfa often contains 25 per cent hard seed. Although the seed may be 100 per cent pure, tests have proven it sometimes takes six months to a year to get hard seed to germinate and a lot will not germinate then. Have your seed scarified and practically all of them will grow. The scarifying is done by a machine specially built for the purpose of scarifying the hard outer coating of the seed, thereby allowing the moisture to penetrate quicker, producing a more rapid and complete germination. The extra cost of scarifying is more than made up in the large increase in yields obtained.

Notice—One test just completed on Sweet Clover: Before scarifying 50 cent more germination, after scarifying 94 per cent germination.
Cow Peas

Peas could be made to bring more nitrogen to the soils of this country every year than is now purchased annually by the farmers at the cost of millions of dollars. —Yearbook of the U. S. Department of Agriculture.

The great soil improver. Makes poor land rich. Makes good land more productive. A rare and a splendidly nutritious green or hay crop, enriching the soil even when the crop is cut off.

1175. Mixed Cow Peas. We strongly recommend sowing Mixed Cow Peas as a soil-improving crop. The upright growing varieties holding up the vines are not missed, and they will make a much better growth and give more satisfactory results, yielding better crops of vines and more forage. They are composed of the Blacks, Black Eye, Clays, Whippedoo-wills, Wonderful, New Era and Soja Beans. If once tried in a given locality, they can be relied on year after year. The beans are also excellent for seed. The seeds are large, and for hay they make a very good crop. For hay, select grade A. Bu. $1.00. 10 Bu. at $3.90. Please write us for latest prices.

1176. New Era. This new early Cow Pea is unquestionably one of the most valuable varieties in cultivation. It is quicker in growth than other Cow Peas in cultivation; makes a very large growth of vine and very prolific yields. Peas stand upright, enabling the Pea to be easily gathered. The Peas are fully one-third smaller in size than any other Cow Pea, so that it does not require nearly as many to seed an acre. Bu. $1.00. 10 Bu. at $3.90. Please write us for latest prices.

1208. Shiny Pea. Very popular, seed large, mottled white and red, early maturing, erect vines. Bu. $1.00. 10 Bu. at $3.90. Please write us for latest prices.

1204. Red Rippers. Red seeded, resembles Black Cow Pea in growth of vines, but 10 days earlier and most prolific. Bu. $1.00. 10 Bu. at $3.90. Please write us for latest prices.

1271. Green. A fine, early, early maturing Cow Pea, somewhat resembling New Era in appearance and size of seed, but makes a larger growth. Peas are recommended as an early maturing, large-yielding variety. Bu. $1.00. 10 Bu. at $3.90.

Canada Field Peas

1165. Here is a crop which is not only profitable, but will return to the land the much needed nitrogen. Peas are second only to Clover in their soil enriching properties and can be grown under almost any condition of soil or climate. There is always a ready market for Peas, or they can be profitably ground and fed to the stock. The vines make rich, nutritious hay. If fed to milch cows, where in a green state, pods, vines and all, the flow of milk will be almost doubled.

Peas are a paying crop, and can be profitably planted in many ways.

First. Sown alone about three inches deep and thinned to one plant per foot. They can be matured and threshed when dry. The yield will vary from 30 to 60 bushels an acre.

Second. Peas and Oats are frequently sown together, using 1½ bushels of Peas and 2 bushels of Oats an acre. By so doing a double crop can be secured. They can be thinned at one time and readily separated in cleaning.

Third. They can be sown alone or with Oats and fed green. It is surprising the amount of fodder which is produced in this way. If sown together, the Peas should be sown first and plowed under about four inches deep, the Oats may then be drilled in.

Fourth. For plowing under when Peas and Oats are sown together and each are "in milk" they are nearly equal in value to Clover, used in the same way to enrich the soil. Sown in January, February or early March. Pk. $1.50. Bu. $2.00. Write for prices.

Soja Beans

1242. Mammoth Yellow. The largest growing and most popular Soja Bean for forage purposes, although a little later in maturing than other varieties. Bu. $1.00. 10 Bu. at $3.90.

1243. Tar-Head or Mammoth Black. Slightly earlier than Mammoth Yellow and produces about the same amount of forage. Bu. $1.00. 10 Bu. at $3.90.

1244. Mammoth Brown. Matures slightly earlier than Mammoth Yellow and produces about one-third more forage. Bu. $1.00. 10 Bu. at $3.90.

1245. Early Hollybrooks. Seed smaller than Mammoth Yellow. Makes two to three weeks earlier and is adapted to sections with short seasons. A sure and vigorous cropper. Bu. $1.00. 10 Bu. at $3.90.

1246. Wilson Black. Very small seed, matures in about ninety days, is free from the rusts and is adapted to the Northern States where an early variety is desired. Bu. $1.50. 10 Bu. at $4.40.

1247. Pekin. Similar in appearance to Wilson, maturing about the same time. Average height 2½ to 3 feet. Bu. $1.00. 10 Bu. at $4.10.

1248. Sable. Small seed, similar in appearance to Pekin and Wilson and produces about the same amount of forage, but matures slightly earlier. Bu. $1.50. 10 Bu. at $4.50.

Seed Oats

1196. Burt or 90-Day Oats. The earliest, most prolific and surest cropping of Spring Oats. Far superior to an ordinary Spring or rust-proof Oats for forage seedings. Wherever this Oat is grown it comes into great favor. For a Spring Oat for seed in March and April it is the best and surest of Spring Oats. It is earlier to mature, free from rust, healthy, clean and vigorous growth of straw, and makes a very good yield of clean, bright and heavy grain. On account of its earlier maturing, it escapes the dry hot weather we frequently experience in June, and is on this account one of the surest cropping varieties of the Oat. The straw is coarse and the appearance of grain somewhat resembles the rust-proof Oat. Pk. 35c. Bu. $1.05. Please write us for latest prices.

1197. Virginia Gray Winter or Turf Oats. When sown early, before the Middle of March, these Oats will far outyield the ordinary Spring Oats, making a larger crop and heavier grain. For seed purposes, too, it is most desirable to sow Winter Oats in the Spring, as they may be brought and cleaner seed Oats for sowing in the Fall than if continued seedings are made from the Fall-grown Oats. Further north than Virginia remarkable results have been obtained with these Oats, when sown even as late as the first of May, and from the reports of our customers, we strongly recommend these Oats to our Northern and Western farmers, as we believe that they will give much larger and better yielding crops than the Spring Oats usually sown in the eastern and Western States. Now at the rate of 1½ to 2 bushels per acre. Pk. 30c. Bu. $1.05. Please write us for prices on large lots.

1198. Red-Rust-Proof Oats. These Oats are very popular throughout the South, especially in sandy soils of the coast region. They are also preferred for low grounds or in situations where other oats are much inclined to rust. Pk. 35c. Bu. $1.05. Prices include F.R. 10%.

1197. White Spring Oats. This is the variety most generally sown throughout the North and West, and is also so largely grown in this section, although the newest varieties offered, are decidedly preferable, both as to yield and reliability of cropping. Price of our Gold Brand (cheapest and cleanest quality). Pk. 25c. Bu. $0.90. Please write us for market prices.

1273. Bancroft Oats. An improved strain of Rust-Proof Oats. One of the best, largest yielding and surest cropping of Spring Oats. Matures in about 95 days. Pk. 30c. Bu. $1.50. Please write for market prices.

1274. Swedish Oats. Montana Grow. These oats originally imported from Sweden are very large, white, plump and heavy grained and yield enormous crops. The straw is coarse and it is noted for its altitude and power to withstand lodging and is a great drought resister. Pk. 40c. Bu. $1.25. Please write for market prices.
Bolgiano’s Wonderful New

Prosperity
Yellow Dent Corn

Has yielded 160 bushels per acre.

Yield of 100

Acre 125 bushels per acre.

Corn weight per barrel: 11 cents per bushel.

1143. Improved Leaning Corn. Its extreme earliness and fine quality has made it very popular with the farmers, especially with those in the localities where the seasons are short. It produces from 65 to 90 bushels to the acre, in winter times with the greatest of ease. The ears and grains are of medium size. Please write us for lowest prices.

1142. Improved Golden Dent Corn. We sell thousands of bushels of this splendid Yellow Dent corn, and it is one of the best and most reliable cropping Yellow Corns in cultivation. It makes a large-sized ear, small cob, deep grains which are of a bright, attractive golden yellow color. It is singularly robust, and withstands injury by adverse weather or other unfavorable conditions better than any other variety we know of, the ears and grains maturing uniformly throughout, and are easily grown in the most varied localities and varied in height, sound condition. Producers two or more ears to the stalk, and for a first-class large-yielding yellow corn, particularly adapted to the South, it is strongly recommended. Please write for lowest prices.

1149. Iowa Gold Mine Corn. A splendid Yellow Dent variety. It is early, ears are not excessively large, but of a good size and symmetrical. Color a bright golden yellow shining like a new coin direct from the mint. Grains are very dry, cob small and dries out nearly as soon as it ripens. Seventy pounds of ear corn make 60 to 62 bushels of shelled corn, and in hauling to market it walks out five bushels more to the wagon than common varieties in the same size wagon. Seventy pounds of Iowa Gold Mine corn on the ear have given 64 pounds of shelled corn and only 2 pounds of cobs. This cannot be equaled by any other corn in the world. The kernels are deep, well-shaped. Please write us for lowest prices.

White Varieties of Seed Corn

1177. Iowa Silver Mine Corn. The stalks grow 7 to 8 feet high and set the highest yield of 150 to 175 bushels per acre. It is a splendid variety with a great height. The ears are thick, heavy and shelled, each with a good-sized cob. It makes a heavy yield of 10 bushels per acre. Please write for lowest prices.

1157. Kansas Silver Mine Corn. It is a splendid variety for late planting, with an ear length of 3 to 4 feet long. The grains are large, round and shelled, each ear having a large, deep cobs, good-sized cob and produces good-sized fodder, free from barren stalks. Matures in 110 to 115 days. Please write for lowest prices.

Kaffir Corn—The

1147. White Kaffir Corn. Makes nutritious food for stock and poultry. Kaffir Corn in the last few years has been generally sown with Cow Peas, broadcast at the rate of a peck of Kaffir Corn to a bushel of Cow Peas per acre. The Kaffir Corn helps hold the Cow Peas up off the ground, thus causes the large growth of Cow Peas, and both can be cut out, making an enormous yielding crop of most nutritious feed. For a forage crop when sown by itself Kaffir Corn can be broadcast at the rate of 10 to 15 bushel per acre. When sown for a forage crop, either by itself or with Cow Peas, the crop is heaped up before it is cut. Le. 10c. Per. 60c. Bu. of 50 lbs. 82.25. Write for latest prices.

Early Amber Sorghum. Furnishes a large yield of most nutritious forage, which can be fed either green or cured, and will yield 2 or 3 cuttings a year, standing out thicker each time it is cut. It grows 10 to 12 feet high. Now broadcast for forage at the rate of 1 to 1½ bushels per acre. When sown in drills sow at the rate of 1 peck per acre in drills 3½ to 4 feet apart. Plt. 5c. Le. 10c. Per. 60c. Bu. of 50 lbs. 82.25.

Great Fodder Plan

1168. Red Kaffir Corn. Non-sorcerine. The plant is low, stalkly, perfectly erect—the stalk as well as the blades; ears excellent, in excellent fodder, and in all stages it is available for green food. Le. 10c. Per. 60c. Bu. of 50 lbs. 82.25. Special prices on 10 bushel cases. Write for our lowest prices.

1270. Red and White Milo Maize. These are popular varieties of sorghum, somewhat similar to the Kaffir Corn, valuable for both forage and grain. Cultivation is same as for Kaffir Corn. Le. 10c. Per. 60c. Bu. of 50 lbs. 82.00.

1253. Zehla. Similar in appearance to White Milo Maize. Matures 20 to 25 days earlier than Kaffir Corn. Great drought resister. Le. 65c. Bu. 82.00.

1158. Early Orange Sorghum. This variety is rapidly growing in favor. It is a splendid variety with a large ear set on a strong, upright stalk. It makes a heavy yield of 10 to 12 bushels per acre, and it is claimed that it produces a heavier crop. Le. 5c. Per. 45c. Plt. 65c. Bu. of 50 lbs. 82.25. Price fluctuates.
Bolgiano’s Giant Orchid Flowering Countess Spencer Type

Sweet Peas

PERFECT DREAM OF BEAUTY

Because of such unusual size, often 2 inches and more across, waved or fluted appearance and charming blendings of harmonious colors, the new **Spencer Type** may be appropriately described as **True Orchid-Type Giant Flowered.**

The flowers are not only of extremely large size, but are distinct in having the outer edges of the standard and wings beautifully crumpled or waved, the tissue being so full that there is not room for it to lie flatly expanded or smoothly rolled. The standard is broad and tall; the wings are broad, well spread and held erect by the keel.

Bolgiano’s Superb New Spencers

The Richest Shades from Apricot Pink to Silvery Blue, Ivory White to Royal Purple

We have selected the best and most distinct varieties of recent introduction, which we offer below. They are a great improvement on the standard sorts, having large, round, open flowers of extraordinary size, measuring two inches and over across, with wavy standards and wide-spreading wings, most of which bear four of these immense blossoms to the stem, which is long and strong, making them of exceptional value for cutting, and are just as easy to grow as the standard varieties.

We have omitted all small flowering and inferior varieties and duplicates under different names. If anyone familiar with a mixture of varieties not catalogued here will write us for it, we can probably send precisely the same shade of color in an improved variety, under one of the names we list here.

A Large 5c package of any 15 Sweet Peas listed on this page for 50c postpaid.

11. **America Spencer.** Striped brilliant carmine-red on white. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

12. **Apple Blossom Spencer.** Immense wavy and crinkled flowers of carmine-rose color with creamy blush wing. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

13. **Aurora Primrose.** The finest lavender of the True Spencer. The large flowers are waved and fluted. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

14. **Buntin’s Mix.** A large and bright rich crimson. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

15. **Loyalty.** A fine large, waved, bright red, flaked on white. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

16. **Maid Holmes.** A large and bright rich crimson. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

17. **Mrs. Rountah Spencer.** The beautiful coloring is half apricot or apricot ground flaked with pink deepening toward the edges. Charming as a cut flower. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

18. **Mrs. Walter Wright Spencer.** A beautiful shade of deep mauve, very artistic. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

19. **Primrose Spencer.** The finest primrose-yellow, with very large wavy flowers. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

20. **Ruby Spencer.** Rich, dark red. The flowers are enormous and borne three and four to a stem. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

21. **Senator Spencer.** The color is a varying combination of deep-claret and chocolate and chocolate on a ground of light branches. The vines are a perfect mass of bloom throughout the season. Pkts. 5c, 10c and 25c. Oz. 50c. 1/4 lb. $1.50.

22. **True Countess Spencer Type Mixed.** This wonderful mixture contains only the rarest and most lovely Countess Spencer varieties, all grown and mixed in proper proportion so as to contain all varieties and colors. Pkts. 5c, 10c. Oz. 50c. 1/4 lb. 60c. Bag $2.00.

23. Illuminator—Perfectly Distinct from All Others

Rich, glowing coral-pink with an indication of bright orange suffusion which marvelously scintillates and glimmers under bright sunlight. Under artificial light, the flowers appear to be a glowing carmine-scarlet. This magnificent Spencer Sweet Pea was awarded a certificate of merit by The American Sweet Pea Association at the great Boston Show, also by The Pennsylvania Horticultural Society, Philadelphia. Pkts. 5c, 10c and 25c. Oz. 60c. 1/4 lb. 60c. Bag $2.00.

Beautiful Flowers, Delicious Vegetables, Luxuriant House Plants

All these Pluses Are Assured If You Use BON-ARBOR, the Ideal Food and Tonic for Household Plants and Home Flower and Vegetable Gardens—Clean, Safe, Odorless, Effective

Bon-Arbor is immediately soluble in cold water, therefore all the properties are available to plant life from the moment of application. It is rich in action, enabling you to see its effects in 3 to 10 days on any quick-growing plants, vegetables and lawns, and on slower-growing plants in a proportionate time. It being complete food, containing Nitrogen, Potash and Phosphoric Acid in sufficient quantities, will sustain the growth it makes.

BON-ARBOR Is Put Up As Follows:

One-half-pound package, making 15 gallons, by mail postpaid, 25c.

1-pound package, making 30 gallons, by mail postpaid, 60c.

5-pound package, making 150 gallons, by express, not prepaid, $2.00.
Bolgiano’s Reliable Flower Seeds Produce the Most Beautiful Flowers that Grow

Bolgiano’s Reliable Flower Seeds Are Fresh, Pure and True

Very Large Packets 5c Each, 6 for 25c; Mammoth Packets 10c Each, 4 for 25c. Parcel Post Rates, see Page 5

Plain Culture Directions Printed on Each of Our Flower Seed Packets. With This Help You Are Sure of Success

1. **Abutilon.** Flowering Maple. Elegant flowering perennial shrubs, of strong growth and easy cultivation, free flowering with various colored beautiful drooping flowers. Considered indispensable for flowering indoors during the Winter and Spring months and useful for holding out in the Summer. Pkts. 5c, 10c and 25c.

2. **Aconitum.** Aconite. Monk’s Hood, or Wolf’sbane. A hardy perennial, growing in any good garden soil, producing long spikes of curiously-shaped blue and white flowers. Well adapted for planting among shrubbery or in shady portions of the garden, 3 to 5 feet. Pkts. 5c, 10c and 25c.

3. **Aegopodium.** Spring speedwell. A quick growing, hardy perennial, being a favorite with gardeners for its hardy, erect stems, and masses of blue flowers. Pkts. 10c and 25c.

4. **Acmella.** Puff. A rapid growing, hardy annual, producing masses of flowers, especially suited for window boxes and rockeries. Pkts. 5c and 10c.

5. **Aconitum.** Napoleon. Monk’s Hood, or Wolf’sbane. A hardy perennial, producing large, showy flowers in masses, with a dark purple center and a white ring. Pkts. 5c and 10c.

6. **Achillea.** Yarrow. A hardy perennial, with smooth, flat flowers, making a beautiful massed planting. Pkts. 5c and 10c.

7. **Achillea.** Yarrow. A hardy perennial, with smooth, flat flowers, making a beautiful massed planting. Pkts. 5c and 10c.

8. **Ageratum.** One of the best Summer-blooming plants. They are rapid growers and constant bloomers. During the hot, dry summer months, their bright flowers are produced in the greatest profusion of charming blue or white flowers. Pkts. 5c and 10c. 1oz. 25c.

9. **Alyssum.** Sweet. Little Gem. A beautiful white variety of Sweet Alyssum, especially adapted to edging borders and rock work. The plants grow about 6 inches, produce hundreds of flowers, and form a mass of blossoms from 12 to 18 inches in diameter. Hardy annual. Pkts. 5c and 10c. 1oz. 50c. 2oz. $1.00.

10. **Amaranthus.** Saxatilis. Flowers golden-yellow; desirable for rock work. Showy in masses. Hardy perennial. Pkts. 5c, 10c and 25c. Oz. 75c.

11. **Amaranthus.** Cardinalis. Love Lies Bleeding. A rapid growing garden annual; the flowers are produced in masses, with a crimson center and white rings. Pkts. 5c and 10c. Oz. 25c.

13. **Anchusa.** Italy. A flowery mamma. The best hardy perennial, and becoming more popular each season. Pendant flowers, 3 to 5 inches high. Pkts. 5c and 10c. Oz. 15c.

14. **Anemone.** St. Brigid. Windflower. A very pleasing perennial, producing large, Irish Poppy flowers; few plants can be matched with them in beauty; fine for bouquets. Sow outdoors in Spring, keeping shaded till the plants appear. Pkts. 5c, 10c and 25c.

15. **Antirrhinum.** Snap Dragon. Beautiful spikes of gaily colored flowers. They are one of the best cut flowers which can be grown from seed. While for beds or borders they are a pleasure, being in flowers all the time if placed in a sunny position. Pkts. 5c, 10c and 25c. 1oz. 25c. Oz. 75c.

16. **Aquilegia.** or Columbine. An elegant, graceful, beautiful Spring flowering plant, producing exquisitely spurred flowers on stems rising 2 feet above the fern-like foliage; splendid for cutting. Double mixed. Pkts. 5c, 10c and 25c. Oz. 10c.

17. **Arabis.** Alpina. Rock Cress. An early Spring flowering plant especially adapted for edging and rockery; plants form a dense carpet completely covered with pure white blossoms; perennial. May; 6 inches. Pkts. 5c, 10c and 25c. Oz. 50c.

18. **Arctotis.** Grandiflora. Alpina. Rock Cress. An early Spring flowering plant especially adapted for edging and rockery; plants form a dense carpet completely covered with pure white blossoms; perennial. May; 6 inches. Pkts. 5c, 10c and 25c.

20. **Armeria.** Formosa. A very pretty edging plant, bearing rose-pink flowers, hardy perennial. Pkts. 5c, 10c and 25c.

21. **Asparagus.** Sprengeri. Emerald Feather. One of the best plants to grow in suspended baskets, window boxes, vases, etc., for the greenhouses in Winter and outdoors in the Summer. Pkts. 5c, 10c and 25c. 1oz. 25c. Oz. 60c.

22. **Balloon Vine.** Love in a Puff. A rapid growing, annual climber, succeeds best in light soil and warm situation, flowers white, seed vessels look like miniature balloons and they are of great interest. Pkts. 5c and 10c. 1oz. 25c. Oz. 60c.

23. **Balsam or Lady Slipper.** These are very beautiful for borders; the plants make perfect little bushes with flowers that are double; the colors are very pretty and pleasing. Pkts. 5c and 10c. 1oz. 25c. Oz. 60c.

---

**Antirrhinum—Snap Dragon**

**Sweet Alyssum—Little Gem**
Crego's Giant Comet Asters

We consider this the finest and largest of all Asters, bearing immense fluffy flowers five inches and over in diameter resembling chrysanthemums, and when cut they keep in good condition longer than any other type. The delightful flowers are borne in abundance from August until the end of September. We offer the following separate colors: Giant White—Pure White. Giant Pink—Delicate Shell Pink. Giant Crimson—A Beautiful Crimson. Giant Lavender—Deep Lavender. Giant Rose—Rich Deep Rose. Giant Purple—Bright Purple. Giant Blue—Deep Dark Blue. Pkts. 5c, 10c and 25c. 1 oz. 50c, Oz. $1.50. Seven 5c pkts., including all colors, for 25c.

73

Trulent's Penney Flowered Perfection Asters. For mid-season flowers we recommend these beautiful Asters; they are stiffly erect or upright in growth, averaging 2 feet, produce fine, large double flowers.

29. Snow White. Pkts. 5c and 10c. 1 oz. 25c, Oz. $1.25.

30. Darkest Blue. Pkts. 5c, 10c and 25c. 1 oz. 50c, Oz. $1.25.

31. Sunflower Blue. Pkts. 5c, 10c and 25c. 1 oz. 50c, Oz. $1.25.

32. Mixed Asters. Pkts. 5c, 10c and 25c. 1 oz. 50c, Oz. $1.25.

45. Asteronia. Golden Bartonia, Aurea. Producing showy, yellow-white flowers, fragrant at night, a most desirable and attractive border, which is exceedingly brilliant in the sun-shade. Now in May where it is to remain, as it does not bear transplanting. Annual. 2 feet. Pkts. 5c, 10c, 1 oz. 15c, 50c. All colors.

56. Bellis Perennis. Double Daisy. A large growing, lovely flowering plant, a companion to the Penney and Forget-Me-Not. Loves a shady place and will reward the gardener with a mass of blossoms. Pkts. 5c, 10c and 25c. 1 oz. 25c, Oz. $1.25.

Bolgiano’s Wild Flower Garden, or Children's Garden

We here offer a mixture of the earliest and surest growing sorts that can be sown broadcast, and with little or no care will produce a bright effect in places that would otherwise be nothing but a collection of unynest flowers. This mixture is ideal for the "Children's Garden" chiefly because they can be allowed to pick their own bouquets without stint. A combination of all kinds and colors of easily grown flowers. Pkts. 5c, 10c and 25c.
Bolgiano’s Excelsior Double Pearl

**Tuberoses**

Mailing Weight 1 lb. per Doz. 5 lbs., per 100

One of the most fragrant and most popular of the Summer flowering Bulbs. Easily recognized by its fragrance and beautiful flower spikes, which are borne on long stems, making it an admirable cut-flower for house decorations. Plant in open ground after the first day of May. If started in pots and then transplanted to open ground can be had much earlier.

**MAMMOTH BULBS**

Bolgiano’s Mammoth Excelsior Dwarf Pearl Tuberoses are a special selection which we have perfected after years of research and improving. This Mammoth strain is the highest type of Tuberoses. The kind to grow if you desire fine blooms. Prices: 5c each, 30c doz. $2.75 per 100.

**First Size Bulbs.** These are choice, selected stock, free flowering, which are borne on long stout stems. They are the kind that are ordinarily sold for Mammoth bulbs. Prices: 3 for 12c. 30c doz. $1.75 per 100.

**Second Size Bulbs.** All flowering, often sold by so-called bargain stores under the name of first-class. Prices: 4 for 12c. 25c doz. $1.50 per 100.

---

**Calladium or Elephant Ears**

Calladium or Elephant Ears. One of the most effective plants in cultivation for the flower border or for planting out on the lawn. It will grow in any garden soil, and is of the easiest culture. To obtain the best results it should be planted where it will obtain plenty of water and abundance of rich compost. Foliation light green. When full size it stands 6 feet high and bears immense leaves 3 to 4 feet long by 2½ feet wide. Should not be planted in the open until May 1st, but to get them in early growth can be started indoors.

**Mammoth Calladium Bulbs**

These are particularly fine for center of beds, giving a beautiful effect where Cannas and Scarlet Sage are planted on the outside borders. They are the choicest and most select bulbs, producing the most massive effect with their foliage. Prices: Over 12 inches in circumference, each 25c. $2.75 doz. By mail add 15c per bul.

**Extra Large Buls.** 12 inches in circumference 15c each. $1.50 doz. By mail add 10c per bul.

**Large Buls.** 9 to 11 inches in circumference 10c each. $1.00 doz. By mail add 7c per bul.

**Small Buls.** 7 to 9 inches in circumference 5c each. 50c doz. By mail add 6c per bul.

---

**Large Flowering Cannas**

DORMANT ROOTS—STRONG DIVISIONS OF TWO OR THREE EYES

Enormous brilliant clusters of blooms borne on spikes above broad leaves of green in August. The finest characteristic of the Canna Bed of today. No other bedding plant will give the same uniform good results in our varied and trying climate. No garden is complete, whether it be large or small, without a Canna Bed.

**Culture.** Cannas should be planted in good, rich garden soil, mixed with plenty of well-rotted manure to the end of May, when danger from frost is past. Water sparingly for first two weeks after planting. When growing freely, water liberally. Set the plants about 18 inches apart each way, and if more than one kind is used, be careful to plant the taller growing kinds in the center and the dwarf ones along the edge. This applies to planting in beds.

**King Humbert.** In this grand Canna we have a combination of the highest type of flowers with the finest bronze foliage. Its flowers measure 6 inches in diameter, produced in gigantic trusses, a brilliant orange-scarlet with bright red markings; foliage broad and massive, of a rich coppery-bronze; 5 feet, 10c each. $1.00 doz.

**Parrot Canna.** 5 feet. Green foliage. The flowers are gigantic in size. Toward the inner part the petals show fine crimson spots; all the rest of the flower is of a rich canary-yellow. 7c each. 75c doz.

**Euphrodisia.** 4 feet. Bronze foliage. Considered by experts the best in this class. Strong compact flower spikes. Color carrot red. 7c each. 75c doz.

**Charles Henderson.** 4 feet. Crimson flowers. Good bedding. Roots winter well. 5c each. If to go by mail add 10c per doz. to any of the above for postage.

---

**Madeira Vine Roots**

An old-fashioned popular vine, covering a large space in a short time. Fleshy heart-shaped leaves of a light green, and numerous racemes of fragrant white flowers of delicious fragrance. Mammoth Roots 15c each. $1.50 doz. Large roots 1c each. $1.00 doz. Small roots 5c each. 50c doz. Add 10c per doz. to go by mail.
The Magnificent Gladioli America

Glory of Holland. A beautiful pure white with lavender anthers. Flowers very large. A vigorous grower and free bloomers. Considered a handsome Gladiolus by all Gladiolus lovers.

Mrs. Francis King. A beautiful scarlet pink of recent introduction which has everywhere created wide comment for its startling beauty. Immense flowers on spikes growing four feet high. The spikes are covered with a mass of blooms. A wonder among Gladiolus.

Brenchleyensis. An old standard variety. One of the best for bedding or planting in front of shrubbery where one shade of rich scarlet is desired. The flowers, which appear in masses all at one time, are of a vermilion scarlet color. Splendid for cutting. £. each. 10c. each.

Giant Gladioli Childsii. 4 to 5 feet high, of free branching habit and profuse bloom, 7 to 9 inches across, each stem produces 3 or 4 spikes. All shades and markings. Seach. 50c. each. $1.00 each.

Groff's Hybrid. This mixture is made up from the original and later introductions of Mr. Groff, the great Gladiolus specialist. The widest range of color possible, including shades of blue, lavender and delft. Also pink, red, scarlet, crimson and cerise shades of the highest quality. The white, light and yellow shades are of the purest color obtainable, relieved in many varieties by stamens and blotches of rich color in most wonderfully pleasing contrasts. The flowers are of the largest size and of good substance. 3c. each. 50c. per doz. $3.00 per 100.

Silver Trophy Strain. The rarest, most wonderfully beautiful mixture of Gladiolus in the world. It contains the newest and rarest Blues, Delft, Lilac, Heliotrope, Reds, Scarets, Crimson, White, Lights and Yellows. All shades of white, cream, yellow and in many combinations relieved by stamens and blotches of rich colors in most wonderfully pleasing contrasts. No such exquisite combinations offered elsewhere in the world. 5c. each. 50c. per doz. $3.00 per 100.

Lemoine Hybrids. A showy and most splendid flowering variety, consisting of more than forty of the named sorts. 5c. each. 50c. per doz. $2.50 per 100.

New Giant Nanceanus. French Mammoth Flowering Gladiolus, flowers of immense size borne on long spikes covered with profuse blooms. All shades and markings. 5c. each. 50c. per doz. $2.50 per 100.

6 qts. $ .70 12 qts. $1.30
8 qts. $ .80 16 qts. $1.60

Grass Catchers
No. 1. Metal Bottom Catcher. 16 inches deep, made of heavy gauge; heavy galvanizer fire frame; adjustable steel hooks, will fit any mower, equipped with perfection handle. Adjustable to mowers, 12 to 16 inches wide, $1.25.

No. 2. Metal Bottom Catcher. Same as No. 1. but for mowers, 16 to 20 inches wide, $1.50.

Perfection Flower Guard
It is just as easily applied to any form or size of flower bed. No posts are required, the picket ends are left projecting for insertion in the ground. Not expensive and can be taken up from year to year. It is cut off to the length required and the ends hook together when set. This border not only protects, but adds to the beauty of every flower bed.

**Bolgiano’s Farm and Garden Tools**

-*All Prices Subject to Change Without Notice*-
The New “Kant-Klog” Sprayer

Kant-Klog Sprayer, style “G,” is operated by compressed air, with a patented Kant-Klog nozzle that throws seven different sizes of round or flat sprays and solid streams.

The sprayer body is made of heavy galvanized steel. Top and bottom are dome shaped, joined to the body under heavy pressure, making a complete double seam. The pump is made of heavy gauge galvanized steel and has solid brass, standard cut ends. The pump head is ribbed to prevent hose from slipping off. By express or freight, not prepaid. Galvanized steel, “Kant-Klog” nozzle, complete, $8.25. With brass reservoir and “Kant-Klog” nozzle, complete, $9.60. Mailing weight 10 lbs.

Utility Sprayers

Tank capacity 31/2 gallons; size 71/2 x 10 in. Made of heavy galvanized iron or brass. All seams welded and riveted. Tested at 95 pounds. Tank equipped with standard hose connection and heads so constructed as to eliminate danger of blowing out.

No. 10. Utility Galvanized. Price each, with straight or angle nozzle, $6.00.

No. 12. Utility Brass. Price each, with straight or angle nozzle, $9.50.

Iron Age Vertical Barrel Sprayer

This pump is attached to the outside of a barrel, not to the head but to the staves; nothing inside the barrel except the suction pipe and automatic clamps, which keeps the solution well stirred.

Handle any kind of solution hot or cold. Brass ball valves only used; they are easily got at and cleaned. Has double hose connections for one or two heads. Without barrel, price $21.00.

Iron Age Horizontal Barrel Sprayers

No. 190. This Sprayer will not tip over on a hillside, where many orchards are set. It holds 50 gallons. No corrosion, solution touches brass parts only, all parts easy to get at, and decent to handle. The pump is single-acting, always reliable and easy working. Price $30.00.

Junior No. 5 Spray and Force Pump

This pump does away entirely with the objectionable foot rest. The clamps, leather suction, packing, etc., require no fastenings, as they hold themselves down. Will pump from a pail, barrel, tank, spring or creek. Has automatic shut-off valve to keep solution stirred. It is practically impossible for anyone to get out of order as everything except handle and hose is of solid brass. Throws three sizes of solid continuous streams, and two sizes of line, round spray. By express, not prepaid, complete $4.25. Mailing weight, 5 lbs.

No. 133—Single Powder Gun

No. 313. Tightly valveless, rustless, leather hollows with distributing tube or nozzle, funnel, spray spreader, elbow for spraying under side of leaves; handles of convenient length. Price $1.50 each. We can also furnish a Double Powder Gun, No. 311. Price $2.00 each.
A practical tool for the market gardener: will sow all kinds of seed from Celery to Beans with the greatest regularity. Can be changed instantly from drill to hill dropper, which will drop seed 4, 6, 8, 12 or 24 inches apart. Complete with cultivators, rakes, hoe, plows. Price $19.00.

No. 314—No. 306. Combined Hill and Drill Seeder (side hoes and teeth only). Price $17.50.

"Iron Age" No. 304 Combined Double and Single Wheel Hoe and Drill Seeder

This machine is the same as No. 306, only that it has not the drill-dropping device and opening plow. Both tools as double and single wheel hoes are identical. Price $18.00.

No. 2 Climax Cultivator

This Garden Cultivator has made a reputation and the 24-inch high wheel makes it an implement which will serve any purpose desired. Price $5.00 each.

New 1918 Complete "Iron Age" and Planet Jr., Catalogues sent on Request.

"Iron Age" No. 306 Combined Double Wheel Hoe, Hill and Drill Seeder

"Iron Age" No. 317 Combined Single Wheel Hoe and Drill Seeder

This machine sows only in drills; it does not alternate into a hill planter. Many market gardeners demand a separate machine for planting in drills. It is equipped with a complete set of cultivators, such as hoe, cultivator teeth, plows, vine lifter, and an attachment for marking out the rows. Price $15.00.

"Iron Age" No. 318. Same as No. 317. As a seeder only. No attachments. Price $12.50.

No. 315, same as No. 317. With drill and hill dropping device with all attachments. Price $16.00.

No. 316, same as No. 315. No attachments. Price $15.50.

"Iron Age" No. 301 Double Wheel Hoe with Cultivators, Rakes and Plows

An indispensable machine to the market gardener or anyone cultivating a garden. This machine complete with all attachments. Price $11.00.

No. 302, plain (with side hoes only) $7.75.

No. 313. No. 301 with side hoes and teeth only. Price $9.50.

"Iron Age" No. 12 Wheel Plow and Cultivator

This simple, light-weight machine will be found of great service in simplifying the work in the small vegetable or flower garden. The average weight of this machine with one working tool is but 5 pounds. Price $3.75.

"Iron Age" No. 11. Same as No. 12, but has landside plow only. Price $4.50.

"Iron Age" No. 320 Single Wheel Hoe

A strongly constructed implement for the amateur or market gardener. It is light in weight and of simple construction. The attachments are a pair of side hoes, three cultivator teeth, pair rakes and a plow. Price $8.00.

"Iron Age" No. 321 Plain Single Wheel Hoe. Same as No. 320 with only side hoes. Price $6.25.

"Iron Age" New Model Seed Drills

The Seeder adjustment in the New Model is accomplished by use of a slide with a pear-shaped opening passing under the bottom of seed reservoir. The name of the principal seeds are plainly shown in the index. The flow of the seed can be instantly stopped by a swinging cut-off. This cut-off prevents all loss of seed. Price $13.00.

The No. 19-C "Iron Age" Wheel Plow and Cultivator

Consists of plow, rake, scuffle hoe, 2 cultivator teeth. The plow is used for breaking ground, opening furrows, and cultivating. The rake for leveling, raking and cultivating the crops while they are small; the scuffle hoe for breaking the soil, which may become hard from rain, baking or stumping; the two cultivator teeth for making small furrows, deep cultivating, etc. Price $6.00.
Blackman's Medicated Salt Brick

The Best and Most Convenient Stock Remedy Known
Our Medicated Salt Brick contains absolutely nothing but Dairy Salt mixed with Sulphur for a blood purifier, Copperas for worms and the bowels, Salpeter for the kidneys, and Nux Vomica, one of the best known tonics, as prescribed by Dr. C. B. Blackman, a graduate of the American Veterinary College of New York City, for the ordinary diseases of the animals for which it is intended. Price 25c per brick. $2.75 Dozen.

Dry Powdered Tuber-Tonic
The splendid results which have been secured by potato and vegetable growers everywhere through the use of S-W Tuber-Tonic—the combination insecticidal and fungicidal spray in paste form—have led us to the development of this material in the dry form, and we offer the grower and farmer S-W Dry Tuber-Tonic. This material is a very finely divided powder which is unaffected by heat or cold, and which reaches the consumer in perfect condition for use under any and all conditions, and which eliminates excessive freight charges such as paste materials necessarily carry with them. Price 35c Lb.

Ar-Bo
A combined insect killer and fungous remedy for use against most eating insects and certain Fungous Diseases that attack the Apple, Pear and many other fruit trees and vines. 1 Lb. Can 35c.

Cutworm Killer
A course powder for sprinkling in proximity to the vegetation to be protected. 1 Lb. box 25c.

SO-BOS-SO KILFLY
Sure Protection from Tortured Flies. Increases Milk Production about 20 Per Cent

Iron Age Tree Pruner

This trimmer saves time because you operate it without letting go your hold. One hand holds the pole at the bottom and the other works the sliding galvanized iron grip. Made after "lazy-tongs" design that gives more leverage than the cheaper constructed trimmers of similar type. Tool steel shearing knife. Handles limit up to 3⁄4 inch—in fact, anything that you can hold the tool over.

You cannot beat this trimmer at the price. Furnished in the following sizes:

- 8 foot, $1.65 each.
- 10 foot, $1.75 each.
- 12 foot, $1.90 each.

Water's Tree Pruner

S ft. long $1.10
10 ft. long $1.25
12 ft. long $1.40
Extra blades $1.25

Little Giant Pruning Hooks

Without pole With saw $1.75

Pruning Saws

10-in. double $1.10
15-in. double $1.25
20-in. double $1.50

Your Vegetable Garden

A valuable handbook to assist you in making and maintaining a profitable home garden. Tells you what, when and how to plant. Especially valuable in developing the back yard or city lot. Covers in detail the growing of all the principal vegetables. Gives plans which will assure you a successful garden, seed required, etc. Price 10c. Postpaid 12c.

DO YOU WANT TO KNOW

Cows cannot give the maximum amount of milk when their energy is drawn upon to switch flies from their backs. Dairy farmers know this and have striven for years to find a preparation that would keep the flies away. This is done effectively with So-Bos-So Kilfly. 1 Qt. 45c. 1 Gal. 65c. Gal. $1.00.

THE GARDEN GUIDE

Covers all of the above subjects fully; tells what to do and how to do it from plowing up the ground to storing or canning the harvest. Written by gardening experts to meet the wants of the home gardener who will find in it an answer to the 1001 questions that crop up season after season. The GARDEN GUIDE is the most practical book of its kind published.

Handsome four-color cover. 250 pages. 15 Planting Plans. 150 Illustrations. Price: 50c. (5c, postpaid).
Carbondale Hydrometers

These are highly recommended by the State Department of Agriculture for testing the gravity of lime sulphur solution; one should be in the hands of every man who uses this material. Price 75c. Packaged 90c. With directions.

8-lb. package, per lb...........275c

Dry Powder Asbestos of Lead

One pound of Dry Asbestos of Lead equals three pounds of any other Asbestos of Lead. It mixes with water more readily than any other Asbestos of Lead. Stays in suspension better, covers more thoroughly and sticks on the foliage longer; no lumps, no sediment, no waste; simpler, cleaner and better for every purpose. Easily packed for shipping. Price, 1 lb. 60c, 5 lb. 55c lb, 25 lbs 5c lb, 50 lbs. 5c lb, 100 lbs. 30c lb.

Target Brand Weed Killer

Destroys Weeds, Grass, Poison Ivy, Sumpac and all kinds of undesirable vegetation. An application of this will keep drives, walks and tennis courts free from weeds, grass, and poison ivy. Kills all kinds of plants in a liquid which is to be diluted in water. It can be applied with an ordinary sprinkler or watering pot. Mix one part to 10 parts of water. 1 qt. can 60c. 1 gal. $1.50, 2 gals. $7.00. 10 gals. $11.50. Bbl. 50 gal. $54.00.

Sulpho Tobacco Soap

An excellent article for the person with a few plants. Especially good for destroying scale on pears and other plants. Sold in warm water. Per 3-oz. package, 12c; postage 2c per 3 oz. package; postage 4c.

Kerosene Emulsion

(Liquid.) Ready for use by simply adding water, 25 to 50 parts to one. This is strictly an insecticide for all kinds, rose bugs, melon insects, foul, human and animal live, red spiders, green fly and sucking insects. Pint 25c, Qt. 90c, Gal. $1.00. 5 gal. $4.50.

Aquaphine

For destroying Aphids, Green Fly, Thrip, Red Spider and other greenhouse and outdoor insects. It dilutes readily in water, about 1 part to 40 parts of the latter. 3/4 pt., 25c. 1 pt., 40c. Pt. 65c. Qt. 90c. Gal. $2.50.

Anti-i-cide

For Use Against Ants in Lawns

They are a persistent pest. It is impossible to harbor them and have a good lawn. Either give up the lawn or the ants. If you prefer the lawn, try Anti-ants, a powerful insecticide. One pound covers about 200 square feet. Guaranteed to give satisfaction or money refunded. Price, 1 lb. box 25c.

Fish Oil and Tobacco Soap

Makes an elegant wash for trees and plants where insect and eggs affect the bark. 1 lb. 25c.
BOLGIANO'S POULTRY AND POULTRY SUPPLY DEPARTMENT
THE LARGEST IN THE UNITED STATES

It's the Largest and Best Catalogue devoted entirely to Poultry and All Poultry Supplies published. Contains Valuable Up-to-date Information for Poultry Men and Farmers. It gives the Key to a Modern Poultry Plant, the Proper Feed, the Best Breeds, Etc. Send for a copy at once.

"Profitable Poultry Facts" (See cut)
By FREDERICK H. THAYER
That's the title of the valuable book written by Frederick H. Thayer, of Cornell University Poultry Husbandry, manager of Bolgiano's Poultry Department. It's the A to Z of Poultry Raising, containing over 100 illustrations.

It's Invaluable to the Amateur—Very Useful to the Experienced 
Following are a few of the subjects it treats on:

- "The Story of a Chick at a Glance."
- "How to Set a Hen."
- "Successful Artificial Incubation."
- "Successful Feeding of Baby Chicks."
- "Pulling the Farm Out of Debt."
- "Profitable Poultry Feeding."
- "Sanitation Versus Diseases."
- "Eggs and Egg Producing Organ."
- "Killing and Picking Poultry."
- "Duck Culture."
- "Preparing Poultry for Exhibition."
- "Up-to-Date Poultry Farm."

This Valuable Poultry Book Free
Regular price is 50c. Contains more real help than Poultry Books selling for as high as $5.00, but in order to get this valuable information into the hands of every Poultry Farmer, we are giving it free with a purchase of $2.50 or over in our Poultry Department, or we will send it to anyone sending us 10c in stamps.

Thoroughbred Stock—Either Single Birds or Pens
We can furnish all breeds of Poultry, Turkeys, Ducks and Pigeons. Thoroughbred Eggs for Hatchins and Day-old Chicks in Season. Satisfaction Guaranteed. Prices reasonable. For any Poultry Information, write our Mr. Fred. H. Thayer.

We Carry at All Times a Full Line of

- Cyphers' Buffalo Incubators and Brooders
- Roller Tray Incubators
- Ideal—Mackey and Standard Coal Heating Hoovers
- International of Hovers and Poultry Hardware
- Otis & Moe Poultry Hardware

LIVE BABY CHICKS
Last season over 15,000 Baby Chicks were shipped by us over all parts of the United States. These Chicks sent to over 1,000 different people.

The number of complaints received from this army of customers is so small and far between that it is hardly noticeable. On the other hand we have letters by the hundred telling of the fine condition the Chicks arrived in, their hardiness, quick growing qualities, large egg production. The record is one we are justified proud of.

Poultry and Pigeon Supplies
As the grain market is continually fluctuating, it is impossible to give prices here that will hold. Send us a list of your requirements and we will take pleasure in quoting you our lowest prices.
